Do not forget that Lulow & Farlow, at the city Drug Store, keep an excellent assortment of drugs, chemicals, toilet articles etc. and that the Doctor is always on hand, ready to attend to professional business.

We observe that L. S. P. Marsh is opening a furniture store, next door J. M. McCall & Co in the building lately vacated by C. K. Kinn. Elegant and plain furniture, in great variety, will hereafter be kept on exhibition at the store.

J. Hannah Esq. informs us that he has five ranches for sale and that he will take stock in part payment for them. He is also manufacturing crockery ware pipe of various sizes, from 1/2 up to ten inches in diameter, which he recommends as well suited for the conveyance of water under ground. For particulars call on him at his bridge on Rogne River.

Elsewhere will be found a notice of the death of Dr. Shrewsbury's little son, Walter, at Santa Barbara. The Doctor's many friends in this section will deeply sympathize with the parents in this sad affliction.

Mr. Thatcher believes with us that the great light seen on a certain Sunday night, not long ago, in the direction of Linkville, was occasioned by the immense fire which swept over the lands about Lower Klamath Lake on that night.

Morris Baum informs us that a letter just received from Bush & Johnson, forwarding and commission merchants of Reading, reports that the high water damages have been repaired on the railroad and that trains are now running regularly to that place.

Old gentlemen Hamilton, who lives somewhere in the foot hills not far from Ashland, is coming to the front as a weather prophet. We learn that he predicted a long while ago, the 29 days of rain lately experienced and that a clear spell of weather would begin on Thursday morning, Feb. 21. So far the prophecy has proven true.

We have received a letter from a worker in epockery ware, asking us to give him a "bust" in the "Times", promising to pay our wife for the same in "flower crocks and other ware." Of course he shall be appropriately "busted", then we shall file away his promise to compensate, until we find some one who can legally claim the crockery.

The prospectus number of the *Forest Register*, a weekly journal to be devoted principally to the land interests of Oregon, has just been issued at Portland, by D. H. Searns. Mr. S. is an experienced newspaper man, and will doubtless make the *Register* a useful and interesting journal.

N. Holly Clayton of Ashland, who is now teaching school on Pine Creek in Goose Lake valley, has been appointed by G. W. C. T. Dunbar as one of his State Deputies. It will be Holly's province to look after the interests of the Order of Good Templars in the eastern part of Lake county.

THE NASTY MOON.—The eloquent and enthusiastic Dunbar, Grand Worthy Chief of the I. O. G. T., has again been heard from. He says: "Again the everlasting moon has gone and changed, and now the rain is pouring as it did when you and I were boys." He writes from Silverton.

On Tuesday, we were honored by a call from our old Siskiyou friend, Andrew J. Walls. He has taken his bride to his residence near his saw mill on Evans creek, about 8 miles from the post office in Sam's Valley, where he proposes to remain for some time to come, enjoying his new state of existence and snatching around saw logs with his raw-boned oxen.

Quite a change has come over J. D. Fountain's establishment. That part of the building formerly occupied by the post office has been added to his store room, making it much more commodious, and the new doors in front add materially to its appearance. His new express office is also quite a feature in the establishment. Call and patronize the genial James and see if he cannot please you.

WEATHER RECORD.—The following is the weather record as kept by H. C. Hill Esq., at the Ashland Academy Boarding House. At 6 o'clock, on Feb. 8, the mercury stood 36 degrees above zero; on the 9th, 34; 10th, at 39; 11th, at 43; 12th, at 34; 13th, at 42; 14th, at 36; 15th, 32; 16th, at 39; 17th, at 46; 18th, at 44; 19th, at 36; 20th, at 36; 21st, at 30. Cloudy days, 10; clear, 2; rainy, 5; windy, 1.

LAKE VIEW.—Information from Lake View indicates that the new County seat is fast growing into a village of no mean consequence. The place is pleasantly situated on the east side of Goose Lake valley, on a little stream flowing down from the Sierra Nevada, and in close proximity to extensive pastoral and agricultural districts; hence there is abundant reason for its rapid growth, which will doubtless continue, keeping pace with the development of the surrounding country.

To ORGANIZE.—A friend writing from Lake View under date of Feb. 10, says: "The Masons of this portion of Lake will hold a meeting on the 13th inst., for the purpose of petitioning the M. W. G. Master for a dispensation to work at this place. The Odd Fellows meet on the following day, the 14th inst., for the same purpose. There is a goodly number of brethren of both orders that both will flourish and be a blessing to the place and country."

AN OLD RELIC.—Mr. S. Clark Taylor, of Phoenix, deposited on our table a few days ago an old Indian hatchet, which his great-grand father plowed up in Franklin county, Connecticut, early in the century. Mr. Taylor says his mother was born in 1801 and that she has no remembrance of the time when the plow share turned up this old relic. If we could "ex" this old tomahawk its story and receive an intelligent answer, it would doubtless be full of thrilling details of the early Indian wars, in which it may have performed an important part as a weapon in the hands of the blood-thirsty natives.

THE LATEST.—The rabbit war is progressing with spirit down the valley. A reward has been offered for scalps, and the cry is: "Exterminate the fruit tree-poleers." Billy informs us that on Tuesday of last week, 75 scalps were taken to Sergeant's store at Phoenix, and the hunters celebrated their victory by an oyster supper. Another campaign has been planned for Saturday next. It is rumored that the vanguard of the army of invasion, under command of M. J. G. W. Welborn-off Benson Field, has already been pushed to the mazzinista foot-hills west of Wagner Creek.

HALL AT LINKVILLE.—We learn that the Linkville Good Templars are contemplating the erection of a hall at that place at an early day. Uncle Geo. Nurse, with his usual liberality, has agreed to donate them a lot, and we understand that a number of persons, not members of the order, but who take a substantial interest in the place, propose to assist in building the hall. It is proposed by the Good Templars to give a public entertainment soon, in the interest of the enterprise. We learn that the hall is not designed for the exclusive use of the Good Templars, but for other societies as well.

Our thanks are due to Charles Nickel Esq. of the *Times*, Judge E. B. Watson, James McCully, Miss Ella Kibbi, Miss Eliza Cardwell and Miss Mary Longell for a call, on Saturday morning last. Their participation in the hall at Miller's hall on the previous night had not deprived them of their geniality or good looks, and their visit was highly enjoyed by the Tidings corps. Mrs. Nickel, C. J. Howard, Robert Kähler and Mr. Cardwell also attended the hall. We believe there was formerly something of a spirit of unfriendliness existing between Jacksonville and Ashland, though their interests are not so diverse as to justify any such feeling, and we are pleased to see indications of the "old warfare" dying out.

LINKVILLE.—The indications are that the old Pioneer town of Lake county, is going to improve considerably during the coming year. Thatcher & Worden intend erecting a new store building early in the spring. The new lodge hall and perhaps several residences will be built during the summer. A ditch has been completed on the west side of the river so as to irrigate the little bottom near the bridge where a number of handsome building lots may be had. Mr. Thatcher has purchased a number of ornamental, nut and shade trees of Mr. Coolidge and proposes to plant them on his place in West Linkville. He intends fencing and otherwise improving his place, during the coming season. We understand preliminary surveys are now being made to ascertain the probable cost of bringing out an irrigating ditch on the east side of Link river, so as to afford an abundance of water for irrigation on that side. It is also the intention to remove the point of lava rock, or a considerable portion of it, which now separates the two divisions of East Linkville. Situated as it is, in close proximity to an fine water-power as the country affords and backed up by an extensive pastoral and agricultural region, we confidently expect Linkville to become a place of considerable importance in the near future.

NOTICE.—To the Stockholders, of the West Ashland Water Ditch Company. The annual meeting of said company will be held, at their office in the town of Ashland, on SATURDAY, MARCH 21, 1878, at one o'clock P. M., of said day, for the purpose of electing three directors of said company for the ensuing year. Also for the transaction of any other business, that may come before the meeting.

By Order of Board of Directors. A. V. GILLETTE, Sec.

ASHLAND, Feb. 16th, 1878.

Dr. E. O. Smith, dentist, of Albany, Oregon, will be in Ashland, March 1st, and remain two weeks; that is, if all those who want work done will call during the first few days after the doctor's arrival, and make engagements, else he will only remain a few days.
