

THE ASHLAND TIDINGS

FRIDAY, APRIL 19, 1878.

LOCAL INTELLIGENCE.

Man from his sphere eccentric starts astray; All hunt for fame, but most mistake the way.

Some very interesting correspondence crowded out.

Capt. L. S. Scott of Salem has lately lost two children by diphtheria.

Assessor Goddard was in town with his little book during the week.

We acknowledge a pleasant call from Hon. Isaac Cox on Saturday last.

Hume's salmon canning establishment at Ellensburg employs about fifty hands.

Last week Prof. Skidmore's ad. was accidentally omitted. It appears in this issue.

Thanks for a pleasant call from Henry Pape and Ham Walters, of Jacksonville, on Friday last.

Thanks for a pleasant call from John Orth and Herman Helms of Jacksonville on Wednesday last.

Mr. Isaac Woolen started on a trip to Reading with a team on Wednesday. Hon. Adam Klippel accompanied him.

We regret to learn that Mr. Dollard, the elder, is lying quite ill at the Toll House on the Siskiyou mountain.

We are pleased to learn that our old friend Samuel Grubb, who has been quite unwell for some time, is convalescing.

We are informed that John Glene of Merganser, has purchased the Fritz & Hartley band of stock cattle at \$12.50 per head.

Mr. Henry Taylor, of Phoenix, who called on us on Wednesday, thinks about half the fruit is killed in his neighborhood.

Up to latest dates, the Senate had taken no action on the appointment of Hon. J. C. Tolman as Surveyor General of Oregon.

Hon. W. A. McPherson and Prof. J. H. Skidmore left Ashland on Friday evening last, to attend the Republican State Convention.

The communication of O. A. Stearns on the interminable road question is quite lengthy, and we are compelled to leave it out this week.

A Baptist Sabbath School organized last Sunday, April 14, at Ashland district school house—a cordial invitation to all. School hour at 3 P. M.

A friend writing from the Lake country states that Joseph Swingle has purchased the Hall & Wilson band of stock cattle—about 300 head—for \$2,750.

In order that our coming Fourth of July celebration shall be a success, it is thought proper to train up a new brass band in the way it should blow.

At the Democratic State Convention, Hon. P. P. Prim was nominated for Judge, and J. B. Neil Esq., for Prosecuting Attorney, in this judicial district.

If a citizen appears rather listless and unenterprising, open on him with the unearthly racket of a developing brass band and observe how soon he can be aroused.

On Wednesday morning, Rev. J. H. Mayfield sold his hogs to Brown & Barlingham, an enterprising firm of Ashland butchers; consequently they do not go to Nevada.

The papers state that Rev. J. R. N. Bell has recently completed improvements on the building and parsonage of the M. E. Church South, at Roseburg, costing over \$900.

Since Prof. Alford yielded up the sceptre of a teacher, he has taken up the yard stick instead and will hereafter be found ready to wait upon customers at the Pioneer store.

Moore, Sons & Co., started their saw mill, at Linkville, on the 12th inst. The mill is one of the best in the country, and is thought to be capable of sawing 10,000 feet of lumber per day.

B. Pilkington, California State Grange Lecturer, will be in Jacksonville about the 21st of May on his way from Modoc Co. to Crescent City, and will address the people on railroad and grange matters.

We regret to learn that Madam de Holt, the popular landlady of the European Hotel at Jacksonville, is prostrated by serious illness. She has been so bad the last few days, as to cause serious apprehensions as to her recovery.

We are informed that, under the inspiration of the greenback movement, Jim Simpson of Butte Creek, hitherto a quiet and rather nondescriptive citizen, is fast building up a reputation as one of the most animated and enthusiastic orators in the Northwest. The people should not fail to hear James upon the financial situation.

A gentleman who visited our sanatorium one day this week complained somewhat of the condition of the Siskiyou Mountain road. He seemed to think the proprietors have not exerted themselves as they ought to put the road in repair.

PLEVNA.—A friend writing from Linkville, under date of April 12, says: "The Good Templars lodge at Plevna is prospering. A new bridge is being constructed at that place by Hen. Roberts. They now have a voting precinct there."

Señor Martinez Gonzalez, a well known Mexican packer of this coast, is now running a pack train from Jacksonville to the Galice Creek mining district. Last Friday he took out a train of eighteen mules heavily loaded down with flour and bacon.

Edward Sparling, an experienced and capable cooper, has located near the bridge on Main street, Salmonville, and is now ready to fill orders with the best of wooden ware. Persons in Lake wishing butter tubs, will do well contract with Mr. Sparling.

B. F. Reeser, is enlarging his store room and otherwise improving it preparatory to opening out a large assortment of new goods, expected to arrive next week. Mr. Reeser is one of our most enterprising merchants and well deserves the patronage of the public.

Mr. Adam Klippel informs us that he lately met with a very intelligent Mongolian, named Gat, who was three years employed by Charles Innes in the Chewaucan. Gat says the company which Mr. Innes represents now keeps 9,000 head of sheep in that valley.

J. W. Riggs photographic artist is arranging with an expert in the establishment of Bradley & Rulofson, San Francisco, to have his negatives retouched. Some elegant photographs lately printed from negatives thus finished can be seen in Mr. Riggs' gallery.

We learn that Jasper Houck, land lord of the Ashland House, has purchased Capt. Thomas Smith's farm, a few miles south of this place; consideration, \$7,000. Capt. Smith will give possession on August 1st, after which date he will probably reside on his place in Ashland.

NOTICE.—If you wish to see the barber, the express agent, the jeweler, the druggist, the lawyer, a common laborer and almost "any other man," they will be found promptly attending to business on the ground selected for the purpose, near Miller & Patterson's hall—pitching horse shoes. A. M. S.

The Hon. Isaac Cox addressed the citizens of the Willow Springs neighborhood on the night of the 9th instant. He advocated the retention of the greenbacks as a circulating medium, abolition of the National Banks, and the displacement from power of both Democratic and Republican parties.

The Ashland Woolen Mills are being run with great energy by Mr. James Thornton, now sole proprietor. Fourteen hands are employed, and some excellent fabrics are being manufactured. This is one of the old reliable institutions of the country and well deserves the patronage of the people.

John Chandler would be glad to secure the services of a family man, who could reside at the new saw mill, assist in running the mill and look after it while necessary for Mr. Chandler to be absent. Mr. C. will build a suitable dwelling house near the saw mill to accommodate such employe and his family.

The spring exodus so reduced the attendance in the public school that the department for time past conducted by Mr. M. L. Alford in the Academy, has been discontinued. This change has somewhat increased the attendance at the old school house, where Miss Frances Myer and Miss Ella Anderson remain in charge.

Mr. Harvey Deskins informs us that the western approaches to the magnificent Rogne River Falls have lately been pre-empted by a gentleman from Missouri named Morrison, who intends establishing a public place of resort there for the accommodation of tourists and sight-seers. A dancing platform, built as near the main cataract as possible, will constitute a prominent feature of the establishment.

RECRUITS.—On Sunday last ten recruits for Co. B. 1st Cavalry, Capt. James Jackson of Fort Klamath, arrived by stage from the South and Monday morning's stage brought eleven others, for Camp Harney. On the arrival of these troops by rail, from the East, at Roseville Junction, a few days ago, Capt. Viven of Angel Island took charge of them and accompanied them to this place, where he turned them over to Lieut. H. DeW. Moore of Fort Klamath. On Monday afternoon they set out for the post, under the direct supervision of Sergt. Conally of Capt. Jackson's Co., and with a six-mile team to transport their baggage.

Weather Report table with columns for observations taken at 6 P. M. and weather conditions like 'cloudy', 'snow squalls', 'clear', 'rain', 'clear', 'cloudy'.

The figures next after the date indicate the number of degrees above zero.

THAT GATE.—We are pleased to see that Dewey & Co. of San Francisco, patent agents, report that a patent has been granted to A. G. Rockefeller of Ashland for his self-adjusting gate.

BEHIND THE AGE.—We learn that prominent citizens of Crescent City are talking about the practicality of building a railroad from the Lake county to the coast. A merchant of Crescent City writing to an Ashland man says: "We have been talking wagon road all winter, but that is no go. It is too late for wagon roads—they are behind the age."

Rev. J. H. Mayfield tarried in Ashland on Tuesday night with about 200 head of hogs, which he is driving to Nevada via the Lake country. We observed that some of his porkers were utterly hairless, and are at a loss to know whether they belong to some new labor-saving variety, or are individuals of the old kind which have some time escaped while being prepared for the butcher.

On Tuesday night of last week, the store of Asher Marks & Co. of Roseburg, was broken into and robbed of \$3,100 in gold coin. The key was left in the safe. It is supposed that it had been taken from the pocket of Mr. Friedlander, the book-keeper of the firm, by a Chinese cook employed in his family. Nearly all the Chinese in the place have been arrested, but it is not yet known positively who the robbers are.

One day this week, Mr. J. A. Leach placed on our table some specimens of quartz from a ledge lately discovered near this place. To our inexperienced eyes, there seems to be quite a similarity between this rock and ore from the great Com-Stock, said to have been taken from the ledge nearly 2,000 feet below the surface, and we sincerely hope that our friend has actually stumbled onto the ragged edge of an argentiiferous bonanza.

Capt. Viven, U. S. A., who accompanied the new recruits for Klamath and Harney to this place, started on his return to his station at Angel Island, on Tuesday's stage. The Captain, who is an agreeable and intelligent gentleman, is an old California pioneer, having delved for gold in the foot-hills as early as 1849. Subsequent to that time, he acted as local reporter for the Sacramento Union, and in 1861 entered the army, with which he has been connected ever since.

CHIEF DUNBAR COMING.—Hon. W. R. Dunbar, Grand Worthy Chief Templar, writes us from Modoc, under date of April 8, as follows: "I will leave Roseburg for Ashland by stage on the 17th inst., and hope to be able to get through to visit your lodge on Friday evening, the 19th inst. Please give notice." All Templars should be on hand to hear the eloquent Chief upon his favorite theme. We hope Mr. Dunbar will deliver a public address during his sojourn in Ashland.

APOLOGY.—We were absent when the letter from our old friend Jno. Smith reached our sanctum, else we would have undertaken a suitable apology for the rather indiscriminate use of his name in our columns. It is the way of the newspaper world to keep his name almost constantly paraded before the public, which we realize must be rather unpleasant to an individual of a modest and retiring nature like our friend, but we shall hereafter make use of the old familiar cognomen with the greatest caution.

The bears are rallying forth from their winter hiding-places. The other day as Mr. Tom Keaton was coming down on the trail from Squaw Lake to Dividend Bar, he encountered a huge black bear, which was evidently in a beligerent frame of mind, for he seemed unwilling to grant the right of way to passers-by. But when Mr. K. went for him with a broad-ax, the only weapon in his possession, his bearship took to a tree. The many rocks that were thrown at the bear from below, elicited only a ghastly grin of defiance.

Among the new recruits for Fort Klamath, who left Ashland on Tuesday, was one J. E. Luddy, late City Editor of the Albany (N. Y.) Argus and now special correspondent for that paper, the Chicago Times and Cincinnati Commercial. Mr. Luddy seems to be a young man of genius and culture, and we fancy he will find the life of a soldier in time of peace, rather more monotonous and less romantic than he has yet realized. Many thanks to him for elegant photographs of leading newspaper men of the East and of other distinguished public men.

THE FROST.—After several days of beautiful summer-like weather, there was a decided change towards the end of last week and on Saturday evening the ground was actually covered with snow an inch deep, which seemed singularly out of place among the flowers and tender herbage. A pretty heavy freeze during the night, while the wet snow remained upon the trees, made sad havoc among the young fruits. This was followed by a heavy frost on Sunday night which came near nipping the remainder, so that it is now thought that the fruit crop in the vicinity will be almost an utter failure.

ANTELOPE RAILROAD.—Prof. J. Platt, surveyor and civil engineer, spent some days last week at Jas. P. Woodson's residence in town, representing, we believe, that as soon as some assistants came to hand he would proceed with his railroad survey up Antelope creek. During his sojourn in Ashland, he dealt considerably with our merchants, promising future liquidation, and then disappeared rather mysteriously from among us. As he has since been seen beyond the Siskiyou, rapidly pedestrianizing towards the Sanny South, it is surmised that operations have been suspended indefinitely on the Antelope railroad.

Hon. Adam Klippel, who has spent several months in our valley, visiting with relatives and weighing, in a practical way, the capabilities of our country, left Ashland on Wednesday last, for his home in Oregon, Missouri. Mr. K. goes with very favorable impressions of our climate, (notwithstanding the severe frost which has lately nipped so much fruit in the bud) soil and products, and designs returning to make his home among us, as soon as he can settle up his business in Missouri. The world is not overrun with as substantial men as Mr. Klippel, and his return will be gladly welcomed by the many who have become acquainted with him during his sojourn in Jackson county.

OLD TIME QUARTS.—Messrs. Smith, Courtney & Co., who are mining on their carpentership premises in Jacksonville, had a genuine "cave in" on Friday of last week. In tunneling under the earth, the workmen struck an old ice house, the recollection of which had faded from the memory of the "oldest inhabitant." In the debris of the cave, fifteen quart bottles of French Abeynth brandy, securely sealed and stowed away in charcoal, were discovered in a perfect state of preservation, and none the worse for old age. Eighteen or twenty years ago, an old ice house stood at this place, which, owing to rotten timbers, had tumbled in, and the owners had not got out all that was in it. Several baskets of champagne, said to have been buried in the ice house at the time, have not been unearthed yet.

Greenback Meeting at Ashland. ASHLAND, April 13, 1878. Elected, Giles Wells, Jr., chairman; Erastus Wells, secretary. The Hon. Isaac Cox addressed the meeting. He spoke one hour, using good argument in favor of the Government's making a greenback money.

Mr. Gaby made a few remarks. His argument was not to the point—very scattering and divided. Mr. James Simpson addressed the meeting with great eloquence, coming out with some facts, receiving loud applause and provoking great laughter. This was the best part of the meeting, and all seemed to enjoy it very much. Six more joined the club to-day, making twenty-two in all. Meeting adjourned at 4 o'clock P. M.

ERASTUS WELLS, Secretary. ATTENTION, ALL! Some six or seven thousand feet of the chinch lumber has been borrowed by different parties; please return it at once, or pay for it, as we now have use therefor.

By order of the Building Com. A. WILKETS, A. G. ROCKEFELLOW, H. C. HILL. NOTICE. I take this method of informing the public that I am prepared to give lessons in drawing and in water color, pastel and oil painting. Samples of my work can be seen at my father's.
