

LOCAL INTELLIGENCE.

In all the world there is no vice Less prone to excess, than avarice; It rather cares for food nor clothing; Nature's content with little--that with nothing --BUTLER.

PIONEER DAY--Sept. twelfth.

The days of the "sere and yellow leaf" are approaching.

Hundreds of pioneers will be at Jacksonville on the 12th of next month--go and see them.

Abram Rose, brother of Aaron Rose, founder of Roseburg, Ogn., died at that place on the 18th inst.

Our enterprising wagon-maker, J. S. Eubanks, has turned out another one of the celebrated Sarven wheel vehicles.

Don't fail to call on Klum for Winchester rifles and cartridges. Any kind of arms ordered and delivered on short notice.

Know all men these by presents that B. F. Reeser proposes to sell Winchester Repeating Rifles at ten per cent below cost.

"Sound the harp and the timbrel," be glad, O ye singers! Chitwood & Atkinson have just received a new lot of choice sheet music.

In the orchard of A. G. Rockfellow, in this place, may be seen at the present time, an apple tree in the brilliant full bloom of early spring.

HiP, HiP, HURRAH!--Nothing--only our better-half has come home, and we thought it was the 4th of July until we took a second thought.

Our nearest neighbor, B. F. Reeser, is doing "big things" this week, in the line of erecting extensive additions to his dwelling and store building.

The weather is hot, the earth is dry, the air seems full of steam; therefore, it is safe to say that we are threatened with a spell of war-like weather.

Nobody getting married in this deadening. Few of the many pretty girls of our acquaintance, feel able to support a husband, while times are so hard.

Now is the time to go to the Pioneer Store and buy or trade for one of those splendid Wilson Sewing Machines. Wheat, oats, barley or bacon taken in exchange.

THY DYE.--Those who desire to see what manner of looking man that human fiend, Troy Dye, is, can see a fine portrait of him at the Photo Tent of Gove & Merrill.

A company of Lake county "youngsters," under command of Capt. O. C. Applegate, contemplate making a charge on the game and scenery of the remarkable Crater Lake.

A California exchange says that "the law forbids any, except voters, from coming within a hundred feet of the ballot box, except to vote." A very good chance for non-voters.

We acknowledged the receipt of a complimentary invitation to attend the coming agricultural fair at Yreka, and did business permit, would take great pleasure in availing ourselves of the proffered courtesy.

Those having ores to assay, would do well to read Dr. F. G. Hearn's card, in another column to-day. The Dr. is too well known, as the pioneer dentist and assayer of the middle country, to require a recommendation from us.

Mr. Barnes of Yreka, who has been canvassing our county for some weeks past, for his celebrated photogenic pictures, returned last Saturday. He informed us that he had received an unexpected number of orders.

First one, and then another, seems to take the lead in artistic floral contributions to the TIDINGS. But we are morally certain that the rainbow tinted bouquet presented this week, by our blooming friend, Will Hurst, can't be beat.

CALL.--Owing to recent changes in the business at the Pioneer Store, the proprietor gives notice that money is much needed. Persons knowing themselves indebted to said establishment, are requested to call and settle immediately. No foolishness.

A member of a party that recently spent a short time in the fresh, pure and health giving mountain air, lately remarked that the "only measures they could contrive to successfully prevent their becoming 'perfect gormandizers', were careful calculation and a vast deal of precaution." We understand him to say that, notwithstanding that they laid in a good store of provisions before starting, besides having borrowed a number of the best guns in town, they had to fold their tents and quietly march homeward for something to eat.

PERSONAL NOTES.

C. B. Watson returned this week from a business trip to Portland.

Mrs. Walbridge of Yreka, spent the last week in Ashland, visiting friends. David Shook is in from Alkali and is prowling around the valley some where.

Rev. Mr. Hardison called on us this week and reported a good time at the camp meeting.

Mr. and Mrs. Jay Niles, and Miss Smith, of Cottonwood, were visiting in town last week.

Daniel Gaby has removed with his family to Lake View where he will engage in the practice of law.

J. Q. Latta and C. H. Hargadine started for Lake View, last Thursday, to open their fine stock of goods.

Misses Sophia Nickell, of Jacksonville, and Sophia Winekler, of Yreka, were visiting friends in our town this week.

Mrs. Shepherd of Scott's valley, has been visiting her parents, (Mr. and Mrs. Helman) and friends in Ashland, during the past week.

Mrs. Eubanks has returned from a visit to Cottonwood, where she has been spending some days among her numerous friends in that vicinity.

Charles Nickell of the *Democratic Times*, gave us a friendly call on Wednesday. As a newspaper man, Charley is a success, and a rascal of the "first water."

Our young friend, Cassius B. McPherson, formerly an employe of this office, returned to his home in Ashland last Tuesday, after a summer's sojourn in Lake county.

Tommy Rogers, who is engaged in butchering at Fort Klamath, for the firm of Brown & Harris, of this place, carried with his friends awhile this week, returning to the Port last Tuesday.

On last Saturday, Mr. and Mrs. Kreuzer, and Mrs. Bilger, were in town on their way to Soda Springs, where they will spend a few days enjoying the charming scenery and good cheer of that place.

Our Sterling old friend Capt. Saltmarsh, and his family, were in town some days last week visiting friends. "Cap." seems to reverse the usual course of things. He bends backward under the weight of years.

Messrs. George and Charles Natley have just returned from a business tour into the Lake country. They were looking out for the interests of the "boss" boot and shoe establishment of this place.

THERE are several bad little chuck holes between Ashland and Barron's that are calculated to make stage drivers take the name of supervisors in vain, and cause inside passengers to say "cuss words." These holes won't get better until they are fixed.

FOUND.--At the Presbyterian Church after the neck-tye party, a bucket containing some rolls of butter. If not called for, the proceeds of the butter will be turned into the church building fund. For particulars, apply to Mrs. McPherson or Mrs. Gillette.

ACCIDENT.--On last Sunday morning, while Mr. Frank Torry was driving his team to the camp meeting ground, he ran against some obstruction, and his wife and child were thrown out of the wagon and considerably bruised. Their injuries, however, have proved not to be serious.

The yellow fever is making fearful havoc in Memphis, Vicksburg, New Orleans and other southern cities. Hundreds have already died and tens of hundreds of people are fleeing from the scourge. Contributions for the sufferers are being collected throughout the North.

An extensive bed of stone coal has been discovered by Hiram Richardson, on Willow creek, nine miles this side of Yreka. The vein is four feet thick, and contains more or less shale, with the exception of one foot in thickness, which is of the purest quality, samples of which, we have in this office.

We were shown an elegant cabinet, at the Post-office Store, this week, containing every style, size and shape of sewing machine needles, by the gross. These needles were put up at the fountain head, and we opine that it will be hard for any one to get away with Fountain in the needle business.

We fear that some of our patrons have forgotten that they are delinquent in their subscription to the TIDINGS. If they will take into consideration that winter is coming on, and that we will have to lay in some 75 or 80 reams of paper, which requires money down, and that we are making preparations to enlarge the TIDINGS, which takes more money, we do believe they would not forget us, but send along the little pitance they owe. Come friends pay up and make us happy. We are sure we could make a more readable paper if we had what money is due the TIDINGS.

A Card.

I desire to return my sincere and grateful thanks to the friends who so kindly gave their aid and comfort to my dear departed wife, during her long and lingering illness.

JOHN B. R. HUTCHINGS.

It takes a bold man to introduce a new and novel fashion in the way of costume; but one of our Ashland physicians, not a mile from the TIDINGS office, one day this week, showed the power of his nerve, by making his appearance with two paper collars on, and only one neck.

THERMOMETRICAL.--The following is the report of the weather for the two weeks, ending August 28th, from observations taken at sunrise: August 16th, 46, clear; 17th, 52 cloudy; 18th, 50, clear; 19th, 52, clear; 20th, 50, clear; 21st, 50, cloudy; 22d, 47, cloudy; 23d, 52, cloudy; 24th, 42, clear; 25th, 47, clear; 26th, 48, clear; 27th, 49, clear; 28th, 50, clear. H. C. HILL.

DIED.--In Ashland, Aug. 17th, 1878, Robt. H. Kerr, aged about 40 years. Mr. Kerr came to this place three weeks ago, and was taken sick, and taken in charge by the Odd Fellows, being a member of that order and belonged to Sutter Creek Lodge, (Cal.) No. 31. His funeral took place on Wednesday, the ceremonies being conducted by the Odd Fellows.

DIED.--At her residence in Ashland, on the 25th day of August, 1878, after a lingering illness of eighteen months, Mrs. Martha Ann Hutchings, wife of John B. R. Hutchings.

Mrs. Hutchings was a lady of more than average intelligence, a kind and affectionate wife, a good neighbor, and beloved by all who knew her.

Yreka is fortunate in containing two wide awake papers, the *Journal* and *Union*. We had the pleasure of calling at these offices on our recent visit to that city. We formed our first acquaintance with Mr. Bird, of the *Union*, and found him a very genial gentleman. The *Journal* has one of the best fitted job offices in the middle country.

Wesley Mitchell left Ashland last Monday morning, loaded to the guards with furniture, bound for the Lake country. His intention is to supply the demand for this commodity, which is not, as yet, very extensively manufactured in that country. His furniture was put up by our best workmen, and will be disposed of at reasonable rates.

J. D. Fountain, our School Superintendent, has laid on our table a copy of a neat little magazine entitled *The Common School Teacher*, published at Bedford, Ind. It is published monthly at one dollar a year and contains twenty two pages. From an examination of its contents, we can say that it is well worth the money, especially to those who are engaged in teaching.

Gove & Merrill, the happy artists of the Photo Tent, have again made their appearance in our town, and erected their tent immediately under our window, preparatory to furnishing our first-class work. You should avail yourself of this opportunity of supplying your friends with a splendid likeness of your "phiz," as they positively will not remain longer than till Monday.

Mr. George A. Jackson, who has been stopping at the Soda Springs for some weeks past, for the benefit of his health, called on us this week, looking much improved. If these springs were located in some distant region, difficult of access, and had a high-toned clap-board shanty erected, to add to the backwoods appearance of the place, droves of people would go and be cured there every year.

DON'T FORGET.--The seventh annual reunion of the Southern Oregon Pioneer Society, meets in the court house grove, at Jacksonville, on Thursday, the 12th day of Sept. A general invitation is extended to all. Let everybody turn out. Those who have been in the country but a short time, will learn something of the early days. Bring your dinner baskets, and your babies, and let us have a good time.

A FINE ORCHARD.--Among the various objects of interests in Ashland and vicinity, we desire to mention the fine orchard of Hon. Lindsay Applegate adjoining the town on the east. It contains one of the best selected and largest assortment of fruit trees in the valley, and the fruit is unexcelled in flavor and size. The soil in the vicinity of Ashland seems specially adapted to the production of finely flavored fruit and berries.

A WIDE AWAKE FIRM.--We desire to call attention to the liberal advertisement of Messrs. Jensen & Inland in our new "ad." column, this week. These gentlemen, although comparatively a new firm, have already taken the lead in their line of business. During the last year, they have bought \$8,000 worth of flour, 20,000 lbs of bacon, from Rogue river producers, besides large quantities of lard, eggs, cheese, butter, etc.

A Card.

PHOENIX, Aug. 20, 1878.

EDITOR TIDINGS:--Please publish notice of the fourth quarterly meeting of the M. E. Church, which embraces the first Sunday in September. Held at Brownsborough in this county. Respectfully, A. HARDISON.

We regret to learn that Miss Mary McCabe, who has been teaching the Antioch school in Sam's valley, for sometime, has been compelled to quit the school room on account of a severe attack of fever. We are pleased to receive information, however, that she is now convalescing and will soon be able to resume the ferule.

On last Tuesday, Mr. Hutchings, in company with friends, went to the mountains to spend a few days in recreation, so much needed by him after his long and devoted attention at the bedside of his beloved wife. We have been informed by his near neighbors, that he seldom left her bedside, and did not undress during the last month of her illness.

RICH QUARTZ.--Some very rich rock has been found on the Klamath river, near the mouth of Humbag, recently, which is creating quite a flutter in mining circles in Yreka. We saw some specimens while there, which were calculated to make a fellow wish he was a miner. The mining interests of Siskiyou county have not been so flattering for years, and the general business of the county is beginning to look up, in consequence.

We are requested to state that there will be communion service at the Presbyterian church, next Sunday, at 11 o'clock A. M. Rev. J. B. Donaldson will deliver his farewell sermon at that time, and on Monday, will depart from among us, for the East. During his limited stay with us, Mr. Donaldson has proved himself to be, in every respect, a man of learning, and a gentleman in every sense of the word. The community will deeply feel the loss of his services.

CAMP MEETING.--A large attendance was on the Wagner creek camp ground last Sunday. We have never met a more orderly meeting, of the size in any country. Even those around the cigar stands kept a profound silence during the services. One of the features of the meeting is Squire Beeson's boarding house, where every one who wished could procure a meal fit for a king, which was a great improvement on the old fashioned "bum," or starve rule, on such occasions.

A party left here last week, consisting of Hiram Farlow, George Ford, Miss Allie Farlow, and Mr. and Mrs. E. J. Farlow, for the mountains for the purpose of making shingles, killing "bar," etc. They returned on Tuesday and report that they made 6,000 shingles, killed lots of deer but didn't get many. Mr. Ford went along as an old hunter, but Ed. killed the deer.

NOTE.--"Ed." reported this item.

CAPT. O. C. APPLIGATE, editor, orator, poet, granger and bearded cattleman, has now turned nimrod, and sends to this office, a pair of antlers taken from a deer killed by him at Swan lake, on the 21st instant. These horns measure nine inches around, next to the first prong, two feet three inches in length. These fine antlers were entrusted to the care of Mr. M. Colwell, mail contractor, who, notwithstanding their enormous proportions, delivered them ahead of schedule time.

THE INDIAN WAR.--It is said that the war is virtually at an end; that Gen. Howard's vigorous campaign has only left a little preliminary work in the shape of opening up negotiations for peace contracts with the blood-stained assassins. Howard has gone up to persuade Joseph to be a good boy, and to warn the whites to behave themselves. It is true that the Bannocks are still on the war path, and that a few, say two hundred, are in the mountains around Camas prairie, well armed and mounted, and bidding defiance to Col. Green's command. Col. Green could whip these Indians if he had men enough, and if they would let him. But they are all around him in little squads foraging, raiding, and murdering, and will not stop for Col. Green to get his finger on them.

Yreka Items.

Very encouraging news from Hamburg Bar; much gold is now being taken out... The services of Mr. Ferguson, an experienced miner from Grass valley, has been engaged to take charge of the Empire Co's mill, soon. Mr. Weston has charge of the mine... The Yreka Public school will open Sept. 21... Jim Irwin a nervous colored-individual, recently went into Dr. Hearn's office, to get a tooth pulled. After a severe effort, he managed to suppress his irritable nerves long enough for the Doctor to get hold of the "scler" and remove it in his usual forcible manner, whereupon, Jim sprang from the chair, "sounded" for the door, and as he left, he sang out, "much oblige to you Doctor, but I's too nervous to ask ye how much I's got to pay."

THE RAILROAD.

The last 20 miles of road on the C. & O. railroad, was received by the Government a few months ago, and next year the company is obliged to build an additional twenty miles, at least, though we hear it stated from prominent railroad men that they will build enough to last three or four years, or may put the road clear through to the Oregon line. A proposition from the German bondholders, owning the Oregon branch, to furnish the money at a very low rate of interest, is said to be under consideration by the C. P. R. R., as the latter has been using all its surplus capital on the Southern Pacific in Arizona to head off Tom Scott, besides building a new short line via Bantas, to Sacramento, over which trains will be run the 1st of next month. The C. P. R. R. Co. claim that the road to Reading does not pay, except during harvest season, nor can it be made to pay unless finished through to Portland, and secure the Oregon travel and trade. If the C. P. R. R. Co., however, conclude to forfeit their franchise, the German bondholders are ready to take it off their hands, and build the road through from Reading to Roseburg. We trust that one or the other lot of capitalists will put it through as soon as possible, as everybody appears anxious to look out for the engine while the bell rings.--*Yreka Journal*

Kerbyville Items.

(KERBYVILLE, August 24th, 1878.) ED. TIDINGS.--J. B. Sifers has arrived from Jackson Co., via Josephine's "great cave." He relates wonderful things regarding the cave. He will remain with us a while, and will open his flouring mill in two weeks, to make flour.

A company with capital, could make it pay by bringing a ditch four miles long, from Illinois river, into this town, and putting up a saw mill, &c. Other enterprises would follow the completion of these. Let some one who wants to invest, come and see.

Major Ira B. Hossler and Col. J. W. Baine have arrived from Ellensburg, having recently gone thither to examine into the practicability of a trail from here to that point. They are now progressing with the work on the Ellensburg road, and we of this locality, may expect an opening to the sea port, in a short time.

Jacksonville Items.

Aug. 27, 1878. The weather is warm and cool. We were favored last week with a refreshing shower of rain. The family of J. H. Penn will depart soon on a visit to friends at their old home in Portland. Our personal friend Joe Wetterer, and our genial friend, E. Jacobs, have gone up to the Springs to Soda ay.

A team of mules was stolen from the premises of Andy Davidson, three miles east of town, Saturday night. A goose was soon struck the other day from the effects of a stone upon the head, prodded by incorrigible young America.

A young ingrate drew a revolver on his intended father-in-law, on Applegate, recently. The trouble originated about a piece of inhabited bacon. Arrangements are about concluded to place Jesse Titus under the care and treatment of Drs. Danforth & Robinson. Not as a county charge in any respect. He has been afflicted with a stroke of paralysis, nearly three years.

A girl on Applegate accuses the teacher of keeping her in, after school is dismissed, and trying to kiss her. The teacher emphatically and vehemently denies the charge. Who is the sweet tobacco posse?

We have two cases of typhoid fever in our midst. Our surroundings are not propitious for malaria, and although the smoke emitted from the stacks of our steam mills is considered a nuisance, yet, it is really a disinfectant, and therefore should be patiently tolerated as a fortunate auxiliary.

The Jacksonville brass band will be present in full uniform, and discourse music at the Pioneer Reunion, on the 12th of September prox. They will also give a social dance in the evening, to which the public is cordially invited. Prof. Scott, from Eureka, Cal., has been engaged as leading violinist. Supper will be provided.

Our Town.

We overlooked several important places of business in their regular order: First, was the Wagon Shop of John Ralph, in connection with the blacksmith shop of Smith Bros. Mr. Ralph is a good workman, and does an extensive business both in new work and repairing. The third oversight was the Ashland TIDINGS, a newspaper published weekly, at \$2 50 per annum, in advance. This oversight, however, will probably not result in any great damage, as it is generally conceded that it is able to "toot its own horn." One of the important industries of Ashland, is the Nursery and Floral gardens of Mr. O. Coolidge. Besides every variety of fruit trees, shrubbery,

flowers and plants found in first class nurseries, Mr. Coolidge has always on hand, all the forest trees and shrubbery, indigenous to the Western States. Among them might be mentioned all the varieties of oak and hickory, walnut, States and California walnut, hard and soft maple, elm, wild plum, coffee-nut and hackberry. Had we the space to spare, we might fill a column with a catalogue of his exotic trees and shrubbery. A walk through his grounds will always pay the visitor.

The next oversight we will mention, is the Pioneer Drug Store of Ashland, which was established in September, 1873, by Chitwood and Mitchell. It afterwards passed into the hands of C. B. Watson & Co. Dr. J. H. Chitwood and C. B. Watson, comprising the new firm. It again changed hands to the present owners, Chitwood & Atkinson, Mr. W. H. Atkinson, becoming interested. Under the new firm, the business has greatly increased. A large stock of books, stationery, and other varieties, having been added to their business. Before closing, we desire to make special mention of an institution that was established some three years since in our town, an institution in which every citizen in Ashland took an interest in having established, and contributed of their means to that end. Yet, strange to say, no other institution has ever received so little patronage, even by its most ardent advocates. We refer to our caliche. Since its establishment, it has had but one tenant. It may be seen in the south east corner of the public square, in the most unobtrusive picture of desolation.

WASHINGTON.

First-class washing and ironing. Will take in washing or go out to wash. Enquire at John Conway's. (12 lm)

NOVEL! The dark age past--night obliterated! Just received by J. M. McCall & Co., thirty cases "EVENING LIGHT" coal oil, and fifty boxes of Proctor & Gambell's "EXTRA ADAMANTINE" candles. Also, an elegant Lamp-burner--a new idea--with glass and porcelain shades combined, and requires no glass. 124

TAKE NOTICE. Having dissolved partnership with the P. of H. Co., and with Owell, we desire all having accounts with us to call and settle the same with CASHE, WHEAT or NETTLE. Please attend to it at once, as we must close our old books. (311ff) WAGNER & ANDERSON.

A RARE CHANCE. Mrs. Martha Schumpf desires to call the attention of the public to the fact that she is desirous of selling out her entire stock of millinery goods, together with her good will of the entire business. Those desiring to invest in a good business will do well to investigate. [24 ff]

SETTLE UP!

Those knowing themselves indebted to the late firm of Brown & Burlingham, are requested to make immediate settlement of their accounts. The business of the old firm must be settled at once. JOSEPH BROWN, 39 1/2] GEORGE BURLINGHAM.

THEY ALL TAKE IT.

When the system is run down to that extent that you pass sleepless nights, are nervous and irritable, have head-achings, sour stomach, sick gastro-splenic and coated tongue, do not enroll yourself as high prize, in the rear rank, under General Delibity, but cheer up and try White's Prairie Flower, the Great Liver Panacea, now for sale in every city and town on the Continent. No medicine ever compounded is half the equal for the cure of DYSPEPSIA and LIVER COMPLAINT. It has a specific power over the liver, and by curing the liver, Dyspepsia and all other diseases arising from it, vanish as if by magic. Sample bottles are sold at the small price of 25 cents that will convince you of its merits. Large size bottles 75 cents; for sale by

CHITWOOD AND ATKINSON.

DON'T FORGET IT.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts, as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid this season of the year, as poisons arising from stagnant water or decaying vegetation, are more numerous, and are, through inhalations, taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above-mentioned symptoms are sure to follow, and if not heeded, may end in more terrible diseases and death. White's Prairie Flower proves itself the Great Liver Panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price, twenty-five cents and seventy-five cents. For sale by CHITWOOD & ATKINSON. (No.531ff)

Dissolution Notice.

Notice is hereby given that the co-partnership heretofore existing between Joseph Brown and G. M. Burlingham, under the firm name of Brown & Burlingham, is this day, dissolved, by mutual consent. The business will be continued at the old stand, by Brown & Harris, and the continued patronage of the public is respectfully solicited. The new firm will be responsible for all partnership debts contracted by the late firm and all the notes and accounts due the old firm, are payable only to the new firm. JOSEPH BROWN, G. M. BURLINGHAM, July 9, 1878.

Notice.

In the matter of the estate of Notice of final settlement. W. D. Newland, deceased. I deem. Notice is hereby given that S. P. Moss, the Administrator of the estate of W. D. Newland, deceased, has rendered, and presented for settlement, and filed in this court his final account of his administration of said estate, and that Monday, the 30th day of October, A. D. 1878 being a day of a term of said court, in-writ of the October Term, 1878, at the Court Room of said court, at Lake View, county and State above named, have been duly appointed by the Judge of said court, for the settlement of said account and the close of said administration, at which time and place, any person interested in said estate may appear and file exceptions in writing to said account suit content the same. R. B. HAWESON, Clerk. Lake View, August 10th, 1878. 3410-6w
