

LOCAL INTELLIGENCE.

Pioneer day is close at hand. Read John Chandler's "cheap wood" notice. Don't forget Pioneer day, September 12th, 1878.

Considerable "live matter" crowded out this week. How are you going to the Reunion, next Thursday?

Everybody is going to the Pioneer Reunion next Thursday. Mr. F. Anderson, of the Klamath ferry, was in town this week.

Pleasant weather follows the incinerating sunbeams of last week. It is said that Jasper Houck keeps the best quality of soda water. Let's go and see.

Savior Lewis was hanged at Empire City, on last Friday, for the murder of his brother.

Work shops have been deserted and homes forsaken, this week, in Ashland. Cause—New diggings.

Eugene F. Rockefeller, chief clerk in the mercantile establishment of McCall & Co., went to Yreka, this week.

Messrs. McCall, Linsville, Ritter and Wood came in on Monday, with several thousands of freight for our merchants. Jacob Shartle came over from Beaver this week and is now laying at the house of M. L. McCall, dangerously ill.

CHEESE.—500 pounds A 1 cheese, fit for an epicure, just received at McCall & Co.'s. Call and taste it and buy some.

Seventeen recruits, for Fort Klamath, and some veterans, gave our town quite a military aspect for a day or two this week.

Wm. M. Colvig Esq., has accepted the position of orator of the day, on the occasion of the coming Pioneer Reunion.

W. C. Myer, our big horse man, has engaged 30 stalls at the State Fair grounds, for the accommodation of his stock.

Seventeen recruits passed through Ashland this week on their way to Fort Klamath, to await the arrival of I. Company.

Mr. Samuel Robinson, agent for Miller & Richardson's Type Foundry, called on us last week, on his return to San Francisco.

Robert Garrett wheeled out of town in a jiffy, last Monday, with four fiery equines attached to his splendid coach, bound for Yreka.

Oregon will soon have a bran new "turnout" to draw the car of state. We suppose they will be able to make 2400 on the plank road.

The *Sunday Call*, of East Portland, is re-publishing our "Scraps of Southern Oregon History" in series, as they appear in the Tidings.

We are pleased to make the acquaintance of Mr. Phillip W. Olwell, who called on us this week. He reports times lively at Phoenix.

Sergeant Davis, of Camp Bidwell, was killed on the first of August, between that place and Goose Lake, by the upsetting of a wagon.

Mrs. Jones has removed her millinery establishment next door to the Variety Store, where she will be happy to meet her old friends and patrons.

Capt. Thomas Rogers, having disposed of his pastoral interests in the Lake country, has returned to our valley to remain with us awhile.

Capt. Ferrer was in town this week and gave us several friendly calls. He is preparing to accompany Maj. Jackson's command to Walla Walla.

Wagner, Anderson & Olwell have divided equally their incoming accounts and notes by lot, Wagner & Anderson assuming the company's indebtedness.

ERRATUM.—In our historical sketch on the outside to-day, the name of E. M. Rosborough, Indian Agent, appears by mistake of the compositor, as A. M. Roseburg.

One would almost imagine that the days of '49 had returned, to hear the talk of new diggings, and rich prospects; and see the rush of picks, pans and shovels.

We have been informed that in order to keep up a nine months term of the District School, there will be a rate bill levied of about one-third the cost of tuition.

See the new advertisement of Phoenix Mills. They are running night and day, making an excellent quality of flour which is going off like hot cakes at \$16 50 per thousand.

The Harrisburg Nucleus has completed its second volume. That it lives in a wide-awake neighborhood, needs no argument, for only in such a locality could so live a paper flourish.

The *Walt Shore* closed its third volume with the August number, which has just come to hand. With the next number the paper will be stitched and out, and enlarged to 32 pages.

DAN. CRAWLEY.—Everybody knows Dan, the veteran driver on this line. Well he visited our town last Monday and expressed himself much surprised at the rapid growth of Ashland.

In our haste last week, we omitted to mention that H. M. Thatcher of Linkville, passed through our town, a few days ago, en route for Jacksonville—of course. Too late now; he's gone back.

Henry H. Taylor reports that Bishop & Crane threshed from four acres of barley, on the farm of Lyman Chappel, on Applegate, 437 1/2 bushels. This is claimed to be the banner crop of Jackson county.

The *Willamette Farmer*, referring to the success of the Ashland Woolen Mills, and their recent Portland order for blankets, complains that Salem has not enterprise enough to re-build their woolen mill.

The two Marys and a big watermelon is the subject of this item. We are indebted to the thoughtful kindness of the Misses Mary Herrin and Mary Givian, of the Variety Store, for a most delicious watermelon.

Bro. J. R. N. Ball paid us a flying visit last Wednesday. Judging from his appearance, his new honors, or the Douglas county chickens, one, agrees with him. He weighs 135 pounds and is the very picture of good humor.

Will Hurst came over from Beaver, last week, and reports things looking quite favorable among the miners. Moore's claim gives promise of a good yield this summer. On Powell's hydrostatic claims they are busy washing up.

C. K. Klum is still selling Winches for rifas; will receive another case next week. He never sells any guns "ten per cent. below cost," but will buy all the new and saleable Winchester rifles in the county at "ten per cent. below cost."

We are authorized to announce that the District School will commence on Monday, the 9th inst., Miss Fannie Myer, Principal. All scholars will attend the District School house, where they will be graded, those in the higher branches going to the Academy.

The enterprising "picturizers," Messrs. Gove & Merrill, after having satisfied everybody, "quietly folded their tent," packed their photographing appliances and started for the Siskiyou county fair grounds. Their work is good, cheap and done on short notice.

Our old friend R. S. Dunslop, made our sanctum cheerful, during a short call this week. Sergeant is a true model of a bachelor, but if he just knew how happy he could make somebody, by a square proposition he would not be wasting himself in stillness on a desert heir.

BIG APPLES.—There hangs in our office a small twig from an apple tree, containing five apples, and weighing five pounds. They were raised by our enterprising florist and nurseryman, Mr. O. Caidge, and he is ready to challenge America to beat this specimen on the same size twig.

We see by the *Oregonian's* report of the Methodist Conference that Rev. J. H. Florek has resigned his agency at the Klamath Reservation, and that the same has been accepted by that body. He resigns on account of ill health. We presume, however, that he will retain the position until the Conference sends another man.

IT BEATS ALL.—Who would ever have thought of putting a gore or a gusset in the "ankle" of a ladies' boot? We saw at the store of J. M. McCall & Co., this week, the new Climax gaiter, manufactured by Hecht Bros. & Co., under letters patent, so out with gores and gussets as to fit the ankle with such perfection, that no lady wearing them need be afraid to wear short dresses.

MOVEMENT OF TROOPS.—We learn from Capt. Ferrer, that B Troop led cavalry, Major Jackson commanding, is to start for Walla Walla the latter part of this week, to go into winter quarters at that place. I Troop, Captain Whipple is to be stationed at Fort Klamath. Also I Company of the 21 Infantry, Capt. Spurgin commanding, is also ordered to Fort Klamath.

LEG BROKEN.—While Masters George Eubanks and Marshal Wagner were carelessly snuffing on Monday last, at the flouring mills in this place, the latter was thrown, and in the effort to avert the fall, caught his foot against the edge of a protruding board in the floor, breaking his leg just above the ankle. Dr. Chitwood was immediately summoned, who set the broken bones, and rendered the condition of the unfortunate boy more comfortable.

LARGE VEGETABLES.—We recently received a lot of early Rose and early Goodrich potatoes grown by Mr. Amou Shook in Alkali valley, Lake county, Ogn., which excel anything of the kind that can be raised in Rogue river valley. Many of which will weigh over three pounds. Lake county, in consequence of its cool nights, is especially adapted to the raising of all kinds of root vegetables such as potatoes, turnips, beets, etc., all of which grow to mammoth proportions. In the alkali soil of that county, the growth of beets both in size and sweetness is truly surprising. We predict that the day is near approaching when beet sugar manufacturing will be one of the most important industries of that county.

Let everybody begin to make arrangements to attend the Pioneer Reunion, at Hybee's grove, on next Thursday. Engage a team and take your wife and little ones. If you haven't a wife, take somebody's daughter.

We are indebted to Capt. L. L. Williams, E. Steele Esq., and Lieut. W. T. Kershaw, for historical data, which have already appeared in the Tidings. We have also received some very valuable notes from A. Watts, which will appear in due time.

We had intended to call attention last week, to the beautiful little poem, by W. A. McPherson, entitled "Universal Anthem." To those who failed to read it, we will say you will not regret hunting up that number of the Tidings, to enjoy its music.

Mr. H. McBride has just returned from a trip to the Willamette, where he has been in a search for a place to locate. He informs us that he purchased a farm at the foot of Mt. Tabor, near East Portland, and several lots in that city. He expresses himself much pleased with Oregon.

We call especial attention of the grizzly old Pioneers of Josephine county, to the Pioneer Reunion next Thursday. Remember it is the Pioneers of *Southwestern Oregon*, and you will be met as such. Come and let us all be merry together.

A CHANGE.—Wm. Hoffman, secretary of the Pioneer Society, writes us that the committee on arrangements has changed the place of meeting on the occasion of the coming reunion, from the court house to Hybee's grove. He also states that ample provisions will be made for a pleasant reunion of the pioneers.

NEW PHOTOGRAPHER.—We have been advised by Mr. Flagler, that he expects to be in Ashland next Monday, when he will be prepared to take pictures in every style. We have seen some of his pictures, and do not hesitate to say that they are gems of art. He has engaged Mr. Bigg's rooms, which he will occupy during his stay.

OUR BRIDGE, AGAIN.—We do not wish to be deemed a fault finder, but we think we speak the sentiment of the people when we say that forbearance is well nigh through bare, in reference to the bridge over Ashland creek. Although some six months have passed since the old bridge broke down, it stands there to-day barely passable, and absolutely dangerous. It is true that the county is liable for all damages that may occur, but they cannot restore a life lost to such a trap.

Mr. G. A. Hill who is clerking for Mr. Inlow in his store at Eagle Point, was in town this week, on a visit to friends and relations. He reports that times are quite good in the Baiter creek country. Harvesting and threshing is over, and the farmers are taking a rest and gone fishing. Wheat crop is short; much less wheat has come to the mill than at this time last year, but the quality is first class. The Catholic church being built at Eagle Point by Mr. J. T. Rolson, contractor, is fast reaching completion. The building will be enclosed next week.

Mr. S. C. Taylor presented us this week a copy of the *Review*, published at Postville, Iowa, giving a doleful account of the failure of crops there this year. It states that since 1850, inclusive, they have had three total failures of their wheat crop, it being almost the only crop relied on. Two years ago they had a serious failure, and this year, when they had not yet recovered from the last, they have almost a total failure. We would suggest to our Iowa cousins, to come to the North West, where there does not corrupt the wheat.

A MINISTER CAVED.—It is getting to be quite common around Ashland for ministers to become mixed up in little affairs that cause more or less talk in the neighborhood. For some days during the latter part of last week, we heard the name of Rev. J. B. Donaldson whispered around in little circles, whose faces showed that there was "something in the wind" of great moment. We were all the more interested because we have known Mr. Donaldson, up to this time to be beyond reproach in any manner. On the evening of last Friday matters began to culminate. Parties of men and women, generally members of his flock, were seen quietly making their way towards his residence, and every movement was tinged with mystery. Nor was the mystery solved until long after they had arrived at his house. Mr. Donaldson seemed impressed with some forebodings as to the object of the visit as he watched the secretive movements of his unbidden guests. At length Mr. W. W. Kentnor, holding a magnificent gold mounted manzanna came in his hand across and in a very appropriate little address presented it to Mr. Donaldson, in the name of a number of his friends who had contributed towards it. Mr. Donaldson was completely taken by surprise, but he responded in his usual happy style. The same was made by Mr. Schampf, and gold mounted by Waters & Myer. Next a splendid supper, which had been prepared by the guests for the occasion, was brought in sight, and a general good time prevailed. Each guest left for their homes that evening feeling that they had one more pleasant memory written on life's page.

Yreka Items.

From the *Yreka Journal*. Daggert, at the Klamath mine, is taking out richer rock than ever before.

Watermelons from 18 inches to two feet long. A man named Longe, was arrested in Yreka last week, for forging a \$15 order. Judge Tolman, the present Surveyor General of Oregon, will be in Yreka during the County Fair next month.

A wedding party, says the *Yreka Journal*, consisting of Prof. Locke and wife, and Mr. C. O. Sharp and wife, the brides being two Quigley girls, were in town last week, accompanied by several members of the Quigley family, including Wm. Quigley and wife, Jos. Young, (a brother-in-law) and wife, besides two more brothers, and other relatives, thirteen in all. Had the old folks been present as well as other connections by marriage, the Quigley family could have put in appearance of about 25 persons, without counting the grand children.

Bonzanza Items.

Sheep shearing will commence soon. Weather warm and pleasant, with some August showers.

Our population is still increasing. Two more families have settled near Bonanza, and plenty of room for more. A terrific rain storm visited here lately, and flooded the whole surface of the earth. This rain happened on the evening of our last party, and so the pleasure seekers will have occasion to remember it.

The following are the new officers elected by the Good Templars at their place: M. Obenchain, W. C. T.; Margaret Locke, W. Y. T.; Fanny; Van Ripper, W. S.; W. A. Locke, W. F. S.; S. A. Lickins, W. T.; Wm. Gordon, W. C. S.; Lewis, W. M.; Wm. Boyd, W. D. M.; Mary Gordon, W. R. H. S.; C. Walter, W. L. H. S.; J. E. Walter, W. L. G.; Clarence Boyd, W. O. G.; J. Buckmaster, P. W. C. T.

BACHELOR. LETTER FROM LAKE VIEW. August 28th, 1878. EDITOR TIDINGS.—On the 23d, we left the "Granite city," but failing to get an early start, we were belated in reaching our proposed camp at Jenny creek. We had scarcely made twenty miles of our journey, when darkness closed her mantle around the scene and left us in the midst of a dense forest of pine, fir and cedar. Not a star peeped forth to lighten our pathway. The cloudy sky above indicated a storm which fortunately for us, passed far east and dampened the face of old *Tea's* *Suma* in the vicinity of Sprague river mountains. At 8 p. m. we reached camp, where we found John Taylor and Henry Duncan, who had arrived some hours earlier in the evening, and were then indulging in a quiet slumber, but they soon joined us in the circle around the camp-fire, lending their assistance in the preparation of a fashionable supper, which we soon disposed of in a creditable manner, and retired for the night. It suggests the idea that the usual order of things is being reversed, to say that Ashland clerks were seen getting up at three in the morning. We do not by any means think that any such change is liable to occur often, only to speak of this as an isolated instance. Out-side of camp jokes and the common routine of incidents that attend camp life, we have little to note during several days' journey, through an elevated and thinly settled country, diversified by hills and valleys, most of which are covered with an excellent quality of bunch grass.

It is true these mountain valleys are mostly small and isolated, yet supplied with good spring water and surrounded by the best of timber, and it is evident that they will be valuable for stock ranches and homes at no distant day. Next in order is Sprague river valley, which is extensive and beautiful, but the main part is covered by the Yunax reservation, and consequently is not subject to settlement. It is, indeed, strange that the Government should adopt such an Indian policy. We can see no good and valid reason why the Government should not throw all her lands open for settlement, give the Indian his right of homestead and pre-emption as any other citizen under the laws of the United States. Under our present policy, we derive no income from these vast and fertile regions on the frontier, but pay out annually many thousands for the support of Agencies and the encouragement of idleness. It seems I am drifting a little too far from the subject of my letter. At about 8 a. m. on the morning of the 27th, we arrived at the summit which divides Drew's valley and Goose Lake. The atmosphere being somewhat smoky we could not get an excellent view of the country, still we could plainly discern through the smoke a vast expanse of water on our right and low undulating hills on the left. A few miles farther and we were at the edge of a smooth grass covered plain at the head of the Lake, several miles in extent. From here we could see the town of Lake View on the east side of the valley, nestled at the foot of the Sierra Nevada's. This little town dates its existence back scarcely two years, still it contains a number of business houses and is improving rapidly. There are already three stores, two hotels, two blacksmith shops, two livery stables, a U. S. Land office, two law offices, a doctor's office, a barber shop, a saloon and a China wash house. J. Q. L.

THE MAILS.

It has been charged that newspaper men, when they become short of items, pitch into the mails, post-masters and stage companies. It is not our desire to pitch into anybody, but state, as a matter of news, that the mails coming to Ashland, are sorely out of joint. The O. & C. Company, we believe, makes its trips on time, but, for some cause or other, our southern mails have got in the habit of coming from the north, and *vice versa* with the northern mail. This throws the Lake county mail matter at least one trip behind. Our San Francisco daily papers come frequently every second or third day, two or three numbers together. Business letters for this place are often delayed two or three days over time, and damage is liable to result. Where this bad management occurs, we do not pretend to know, but certain it is that it should be remedied.

CORRESPONDENCE FROM YREKA.

EDITOR TIDINGS.—With your permission, I beg the indulgence of your readers, to present a matter that is of equal interest to you, of Southern Oregon, as to us, this side of the line, in California. I refer to the coming Fair of the Siskiyou Agricultural Society. The State of California has donated one thousand dollars to this Society, to be expended in premiums for stock and mechanical products; Jackson and Lake counties, Oregon, have the right to compete for all premiums offered, and when we take into consideration that the interests of those counties are identical with ours, that which benefits one, benefits all, hence, your numerous readers should strive to be represented at the coming fair. Liberal special premiums will be given to all articles of merit. Bowen Bros. offer \$50 in gold coin, for the best biscuit made with their yeast powder, by any young lady resident of the district, under eighteen years of age. Now girls, here is a chance to win a handsome prize, and at the same time to acquire the honor of being the best bread maker in the district, no unenviable reputation. So let the Rogue river girls make an effort to win this liberal premium, and add another laurel to the fame of their beautiful valley. P. G. Strickland, President of the Society, offers a Singer sewing machine for the best exhibit of pieces, (night-dress, chemise and drawers), made on a Singer sewing machine. Now girls and ladies, there is a chance to win a valuable and necessary piece of household furniture, as well as a chance to exhibit your handiwork in competition for the regular premium of the Society for machine sewing, which is five dollars; now fifty-five dollars are not made every day.

The premium list has been increased over that of last year in every particular, and no one should fail to be on exhibition, at this, the best fair ever held in this section of the country. If any person has an article of merit, not on the list, bring it along, and it will receive a premium. Farmers, bring your grain, fruit, vegetables and bacon. Stock growers, bring your horses, mules, cattle, sheep, and hogs. Ladies, bring your household products and your fancy work. There will be a separate department for children under 12 years of age, so that they will not have to enter into competition with those older and more experienced.

The extensive and beautiful grounds of the Society offer a pleasant place for those who desire to come out. Wood and water are abundant and the officers of the Society will exert themselves to make it pleasant for all. I hope this short article will inspire the resident of your portion of the district to be well represented both in numbers and articles. VIDEX. YREKA, September 2, 1878.

WALDO ITEMS.

August 29th, 1878. ED. TIDINGS.—A fight occurred here yesterday between two persons, to-wit: A man and a woman. For convenience I will call the man Mr. Ireland, and the woman Mrs. Malarkey. Mr. Ireland located mining ground recently, just below the mining ground of Mr. and Mrs. Malarkey. Mr. Malarkey had been lately about going down to Mr. Ireland's claim and routing him, and after mature deliberation, it was decided as the safest plan for Mr. M. to stay far away, and Mrs. Malarkey being the bravest, donned man's executive ability and went for the hair of Mr. Ireland. Going to his ditch, she turned the water into a shaft which Mr. I. had commenced to sink. Mr. I. promptly took the shovel away from her, and she feathered it in him lustily, leaving his shirt completely off. She then partook of Eva's shame, and proceeded to get by cover Mr. I.'s nakedness with mud and water, varying only from Eve's plan by covering mouth, eyes and ears. Mr. I. is a gentleman in every particular, but could not take everything, neither did he feel ashamed of being willing to conceal it with mud, so his hair braveny hands upon her, and with ceremony most lasting if not holy, let her down into the water she had turned in, and then releasing her, patiently enquired if she felt better. She replied in the negative, and went for him again. Another dip and forcible inquisition are you satisfied; second negative; third dip washed away a good deal of sin for we find when she became released, she took a "turkey trot" for Keshville to her Mr. Ireland arrested, which was done. Result—spectators swallowing haukerchiefs to keep down risibility. Mr. I.'s statement was so true and unwavering that there was no evading it, and Mr. M. has the costs of action to pay.

Two more Chinawomen came in yesterday from San Francisco, making five now in town. The Wetland troupe played here last night, and gave the very best of satisfaction. 45

NEW DIGGINGS.

During the last week, we have heard mysterious whistlings around our ears, about new diggings that were discovered somewhere. It leaked out at last, that they were located on a gulch putting into Ashland creek, about five miles above town. We are indebted to Mr. W. C. Daly for the following: Gold was first discovered at this place about two months ago, since which time, parties have been prospecting in that vicinity, and have found fair prospects over quite an extent of country. Mr. Daley showed us a specimen of the gold. It is coarse rough gold, somewhat resembling that of Sterling. Water at this time of the year, is quite scarce, but during the winter, he thinks there will be sufficient for considerable mining.

Just Received.—Wagner & Anderson have just received a lot of farming machinery, which will be exchanged for wheat or cash. (noted)

Washing.—First-class washing and ironing. Will take in washing or go out to wash. Enquire at John Conway's (12-1m)

Sheet Music.—Go to Chitwood & Atkinson's and select your Piano and Organ music from their excellent assortment; judiciously received. (13-2w)

Liberal Terms.—Graham Fleer, Corn Meal and Cracked Corn in twenty-five pound packages, at Eagle Mills, delivered in Ashland at Mill Prices. (13-3w)

Cheap Wood.—John Chandler has a big lot of good stove wood, at his saw mill, which he will dispose of for the trifling sum of \$1 per load. Avail you selves of this chance to procure your stove wood at such low rock rates. (13-0)

Take Notice.—Having dissolved partnership with the P. of H. Co., and with Olwell, we desire all having accounts with us to call and settle the same with cost, what or none. Please attend to it at once, as we must close our old books. (11f)

A Rare Chance.—Mrs. Martha A. Schumpf desires to call the attention of the public to the fact that she is desirous of selling out her entire stock of millinery goods, together with her good will of the business. Those desiring to invest in a good business will do well to investigate. (14ff)

They all take it.—When the system is run down to that extent that you pass sleepless nights, are nervous and irritable, have gloomy forebodings, sour stomach, sick headache and coated tongue, do not console yourself as high private in the rear rank, under General Debility, but cheer up and try White's Prairie Flower, the Great Liver Panacea, now for sale in every city and town on the Continent. No medicine ever compounded, is half the price for the cure of DYSPEPSIA and LIVER COMPLAINT. It has a specific power over the liver, and by curing the liver, Dyspepsia and all other diseases arising from it, vanish as if by magic. Sample bottles are sold at the small price of 25 cents, that will convince you of its merits. Large size bottles, 75 cents. For sale by CHITWOOD & ATKINSON. (15-3f)

Don't Forget It.—If you are troubled with nervousness, are disheartened, filled with life, fear death or fed out of sorts, as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid this season of the year, as poisons arising from stagnant water or decaying vegetation, are more numerous and are, through inhalations taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms are sure to follow, and if not heeded, may end in more terrible diseases and death. White's Prairie Flower proves itself the Great Liver Panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price, twenty-five cents and seventy-five cents. For sale by CHITWOOD & ATKINSON. (15-3f)

MARRIED.

LEAKE-GUIGLEY.—At the residence of the bride's father, in Ore Falls, Siskiyou county, Cal., Aug. 25th, 1878, by Rev. Mr. Groves, Prof. W. T. Locke, of Ashland, to Miss Mary Guigley of Ore Falls.

Mr. and Mrs. Leake have the hearty congratulations of their many friends in Ashland, where they have both been long and favorably known as teachers of the highest rank.

SHARP-GUIGLEY.—At the same time and place as the above, Mr. C. O. Sharp to Miss Berrie Guigley.

JONES-JOHNSON.—In Tebbrook's Hotel, at Lake View, Lake county, Oregon, by Rev. Mr. Hadden, Mr. and Mrs. Jones and Miss Florence Johnson, all of Lake county.

BORN.

TAYLOR.—In Ashland, September 24, to the wife of John Taylor, a daughter.

INLOW.—In Ashland, Aug. 28 to the wife of C. A. Inlow, a son.

JONES.—In Jacksonville, August 27th, to the wife of A. C. Jones, a daughter.

BEHRHOFF.—In Jacksonville, August 28, to the wife of August Behrhopf, a son.

DIED.

MAULRY.—Near Jacksonville, Aug. 15th, Eliza Maulry, wife of Col. R. F. Maulry, aged 41 years, 3 months and 13 days.

HOWELL.—In Ashland, September 23, 1878, Miss Donna Howell, aged 16 years.

Cut down in the days of her youth by that fall destroyer, consumption. Her life is mourned by a large circle of friends. The funeral ceremonies were conducted by the Good Templars, and a very large concourse of people was in attendance.

Notice.

In Probate Court for the County of Lake, State of Oregon. Notice is hereby given that E. M. Os, the Adm'r of the estate of W. D. Nealand, deceased, has rendered, and presented for settlement, and that he does not file the final account of the administration of said estate, and that Monday, the 7th day of October, A. D. 1878 being a day of a term of said court, to-wit: Of the first term, 1878, at the Court Room of said court, at Lake View, county and State above named, I have on duty appointed by the Judge of said court, for the settlement of said account and the close of said administration, at which time and place, any person interested in said estate may appear and file his exceptions in writing to said account, and contest the same. R. B. HATTISS, Clerk. Lake View, August 10th, 1878. 1610-5w

PHENIX MILLS.

P. W. Olwell, Proprietor, Is now manufacturing a quality of flour SUPERIOR TO ANY Heretofore manufactured in this valley. He is using an air.

NEW PROCESS. First introduced by him in this county. He Guarantees Satisfaction. All flour warranted genuine and of the best quality. He will REFUND THE MONEY. To any and all who may receive flour that proves not to be as represented. Give him a call and convince yourself. 17f
