

**ASHLAND TIDINGS**  
**EDITOR.**  
 OCTOBER 11, 1915

**Brobacks Bull Bill.**  
 We are not a "sunbrowned and arched cattle man" of the land of juniper and sage, but we are morally certain if we were, that we would be sorely puzzled to know the object of Mr. Broback's "bill to compel owners of bulls of two years old and upwards, to prevent them from running at large." It certainly would be a great damage to the cattle raisers throughout Oregon. It cannot represent the interest of a single cattle breeder in Lake county. We hope for the interest of the country, that the bill will not pass.

**Woman's Right.**  
 Two of our Southern Oregon coteries, the "Times" and "Western Star," effect great disgust at our legislature, for permitting the representatives of the woman movement, to have a hearing in the legislature halls. This is another illustration of human nature, and would be a good text for a sermon. Their present attack no doubt, is the result of a combination of causes. Mrs. conservative nature probably has something to do with it; that disposition to oppose change. If we would rather live in this world just as it is, than die and go to heaven. But it is more probable, in the present instance, that it came from a stronger propensity of man, sometime called selfishness. This part of the sermon might be subdivided under two heads. First—The very natural fear of some men, that if women were allowed the same privileges with themselves, of liberty and the pursuit of happiness, their own tiny tapers might be dimmed in the glare of some feminine beacon.

Secondly—A natural fear of competition, felt by some men, whose cupidity induces them to oppose both men and women, whom they imagine outstrip them in the race for worldly gain. We are rather inclined to think that the case now under consideration, would come under the latter head. Mrs. Dunaway, the principal speaker at the time referred to, is a rival journalist, and both these papers have felt the sting of her pungent pen. She being a woman, they seek to get even by dealing in a rehash that will tickle the palates of a few old fogies who are still voting for Gen. Jackson.

**OREGON.**—A correspondent of the "S. F. Post" says:  
 The Spaniards travelling up the Oregon coast met a tribe of Indians with long ears, their extreme length caused by being perforated and having bones, etc., stuck into them, weighing them down, so they called that country La Tierra de los Oregones—the land of big ears Oreja being the Spanish for ear, and the termination "on" meaning large, we have Oregon—big ear.  
 This accounts for how miners from Oregon working in the California mines in an early day were called "Lop-ears."

**A CHANGE.**—With the last number of the Albany "Register" Coll Vanclive's connection as editor ceased, and Gen E. L. Applegate takes a "sit" as Editor-in-chief of that journal. We will anxiously look for a string of Albany "Registerisms" with each succeeding number of that paper. It is to be devoted to the interest of the "Greenbackers", as set forth in a column and a half article in the last number.

**To be Completed.**  
 The following dispatch from Frankfurt, Germany, received at Portland a few days since, is of great interest to the people of Oregon and especially those residing on the west side of the Willamette: A general meeting was held here to-day, of the bondholders of the Oregon and California railroad were represented. A resolution was adopted by a large majority, approving proposals for acquiring and completing the Oregon Central railroad and accepting the financial propositions connected therewith.

Two interesting facts are noticed in the report on the consular service in the East. The first is, that Japanese iron can now be delivered on the docks of New York, at a lower figure than English. The second is, that rice is rapidly supplanting rice in Japanese fields as a staple crop—just as it has supplanted corn in the field of the Connecticut valley, and for precisely the same reasons.  
 Quinine has again advanced in price from about \$3.50 an ounce last June to almost \$4 an ounce now, and it is not unlikely that the price will rise to \$5 an ounce or more. This is the season of malarial diseases for which quinine is a specific remedy, and in the cure and treatment of the yellow fever in the south enormous quantities of it are used.

**Mixed News.**

From eight to ten millions of young salmon will be turned out this season at the Clackamas hatching establishment.  
 The total value of property in Polk county is \$2,707,695. The indebtedness to be deducted is \$806,875.  
 The bridge over Salt creek, on the Yamhill narrow-gauge, is 1,929 feet long and 54 feet high.  
 The Enterprise, of Oregon City, says: The tax roll of the city for 1878 amounts to \$2,195 15, of which he returns as delinquent \$17 50.  
 About fifty stables for farm and draft horses is built on the fair grounds at Salem.  
 The survey for a railroad route over the Cascades, by the Cowlitz pass, has discovered several large tracts of good land waiting settlement.  
 The Dayton woolen mills are running on full time. They have \$25,000 worth of blankets on hand.  
 Elijah Hamason is buying cattle in Wasco county for the canning establishment of Kinney Bros., of Astoria.  
 Settlers are rapidly occupying the lands in the neighborhood of the line of the Utah Northern Railroad.  
 The work of excavating rock from the channel of the Snake river, at Pine tree rapids, is rapidly progressing.  
 912 buildings have been erected in Portland since January '78.  
 A number of immigrants from Iowa have recently settled in Baker county.  
 The salmon catch in the Columbia will amount to 380,000 cases this year.  
 The gross value of property in Yamhill county is \$3,737,956, and the number of polls is 1,331.  
 The Hop Association of Lane county has employed 160 Chinamen to pick for them.  
 The peach crop around Vancouver was very large.  
 The taxable property of Clackamas county is \$1,728,923, tax, 21 mills.  
 Post Master General Key went to see the Chinamen on a spree, at their Jock house in Portland last week.  
 Last week Justice Bishop, of Pendleton, held Yonma, Asph and Qat-tin, three Indians, to answer before the next Grand Jury, on the charge of murdering George Coggan.  
 Forty-four patients have died in the insane asylum during the past two years.  
 A new boiler for the fog signal at Cape Flattery has just been completed.  
 "I am a yard wide and all wool," is a Kentucky way of describing a high state of hilarity.  
 Hon. E. A. Cronin and J. C. Moreland, of Portland, are now in a fair way for recovery.  
 Wm Stevenson a longshoreman was found drowned in the river at Portland. Another sacrifice to the demon of intemperance.  
 Since May 1875, 600 marriage licenses have been granted in Multnomah county.  
 FASTER—A dose of castor oil will humble a boy faster than thirteen boot jacks. You can't hit his palate with a bootjack.  
 During September the police of Portland, Oregon, arrested 415 persons—the largest number in one month in the history of that city.  
 During the past month there were filed for record in the Clerk's office of Douglas county, thirty-four dead, fourteen mortgages, and four chattel mortgages. Ten marriage licenses were issued.  
 Thirty-five letters were sent into the Oregonian office last week in answer to an advertisement of a German girl who desired a place to do general housework.  
 The total valuation of property in Multnomah county \$14,391,410. When their debts are paid they will have some ten and a half millions left, and still some of them are not happy.  
 Point Wilson is to have a fog-horn.  
 The recent rains have raised the river so that boats are now enabled to run to Albany. They will not probably be troubled for want of water again this year.  
 A horse, wagon and two men, fell from a bridge in East Portland, a distance of thirty feet, a few days since. The wagon was damaged to some extent, but the men and horse escaped without injury.  
 At an examination of Indians on the 7th inst. at Pendleton, for the murder of Geo. Coggan, a Columbia river Indian named Pascoana was held to answer at the next term of the Circuit Court on the charge of murder.  
 The Intelligence and Dispatch, of Seattle, have consolidated under the name of the former. Beriah Brown and T. Hanford are the editors.  
 The total amount contributed by the citizens of Salem to the Relief Fund is \$575 25.  
 Gov. Thayer has appointed G. C. Bell, of Dallas, and N. Young, of Stayton, A. Wheeler, Shedd's Station; David Hoey, Stayton; W. J. Snodgrass, La Grande; A. Bachman and W. P. Doland, Portland, notaries public.  
 H. S. Cypher, employed at tunnel No. 5 on the South Coast Railroad, deposited his pipe in the same pocket in which he carried a blasting cartridge. His comrades placed this touching inscription on his headboard: "Oh,"  
 Samuel Pord, a somewhat noted politician, who was once Governor of Idaho, died at Baton Rouge of yellow fever some days ago.

**Dom Pedro, Emperor of Brazil, has sent an autograph letter to Captain Eads, who constructed the Missouri river bridge and the Mississippi jetties requesting him to visit Brazil, where fresh honors await him.**

The Republicans of Idaho Territory have nominated Jonas W. Brown, of Idaho City, for Delegate to Congress.  
 Following the storm of the last week at Astoria, there came into the river a large run of silver side salmon. The fishermen have never before, since the inauguration of fishing on the present basis of canning, had a harvest of fish like this is reported to be, at this season of the year. The salmon is a mysterious fish, and this fall run of silver sides in 1878, which we are informed is about the first thing of the kind which has occurred in 20 years, add another mystery to the fish.  
 The telephone wire between Trackee and Taboo is down on the ground, and in some places covered with mud and water, yet the instrument works to perfection.  
 The Cabinet has approved the letter of the Attorney General giving the opinion that the Utah and Oregon Railroad Company can pass through the Bannack Indian reservation. The treaty with the Bannacks is not recognized, as the law of Congress is considered superior to it, and gives the company the right to follow the prescribed line.  
 The "Valley Fountain" will be the name of a new temperance paper soon issued at McMinnville by J. C. Cooper.

**About Oregon Crops.**  
 Cook & Co's steam thrasher shelled out 1,182 bushels of wheat and 229 bushels of oats in one day, besides moving and setting four times.  
 Mr. Hallett's steam thrasher has done good work, threshing 1,100 bushels in five hours; also, 1,700 bushels in one day, moving three times.  
 Mr. J. Baldwin, of Gaston, has threshed some 1,200 bushels of grain, and has reaped 400 acres, and report an average of 20 bushels per acre.  
 Four acres of barley on the Chappel place, no Applegate, yielded 437 bushels.  
 Messrs. Lennox & Raymond, of Gaston, report 20,000 bushels of grain on store. The Granger Warehouse, of North Yamhill, also 20,000. Messrs. Scott & Perry have some 25,000.  
 Nearly or quite 1,000,000 bushels of wheat will pass through the warehouses of Junction City, Harrisburg and Hal sey this season.  
 Wheat sacks have been purchased at Junction City, to hold 20,000,000 bushels of wheat. There is already 20,000 bushels stored there.  
 Henry Moore of Junction City, recently threshed 4,000 bushels of wheat from less than 100 acres.  
 John Zantall of Pleasant Hill, raised 82 bushels of fall wheat on two acres of measured land.  
 Mr. Isaac Davis, near North Yamhill, has raised the best yield of wheat heard of yet, it being 40 bushels to the acre on his whole acreage.  
 Mr. T. G. Todd has threshed 1,056 bushels or 44 bushels to the acre.  
 One stock of corn produced eight ears on Tom Hudson's place, in Yamhill county.  
 Mr. David Prettyman will ship 150 bushels of seed wheat to Philadelphia in a short time.  
 The Lane county hops, though not heavy, are of a superior quality.  
 Over 7,000 bushels of wheat go into the little town of Dayton, in Yamhill county every day.  
 Mr. Johnson, of Dilley, had 60 acres of oats, which yielded 90 bushels per acre.  
 McEldowney & Butler's machine threshed 900 bushels of wheat in the bundle, in nine hours.  
 Mr. Harris Glandon made an average of 20 acres per day, for twenty-three days, with his header.  
 On a fair estimate, 6,000 grains of wheat have been produced from one head, in Yamhill.  
 L. A. Seedy of Pleasant Hill precinct, harvested 7,300 bushels of oats and barley, from about 100 acres of land.  
 M. Wilkins, of Willamette Forks has threshed a piece of wheat of 57 acres, which averaged 40 bushels per acre.  
 A. H. Garrison's header finished up 500 acres in 22 days this season.  
 O. Fry, of Linn county, cut ninety acres of wheat in three days.  
 It is calculated that the Halsey warehouse will store and ship 325,000 bushels of wheat this season.  
 J. S. Hibs threshed forty acres of wheat near McMinnville.  
 The Howard Bros threshed from one acre and a half of ground, 180 bushels of wheat.  
 Pleasant Judd, of Damascus, gathered in 40 bushels of wheat to the acre, on his entire crop of about 30 acres.  
 Marion Hyde raised five acres of wheat that averaged 48 bushels to the acre.  
 Mr. F. A. Henry near Corvallis, has raised some fine figs this year on his place.  
 Ten acres of white Norway oats yield 70 bushels per acre by weight.  
 J. P. Roberts of Linn, raised timothy heads which measure 14 inches.  
 WHEAT STORING.—Kinney Bros. have now in their granary's 145,000 bushels of wheat stored, and at the Farmer's warehouse; there are 130,000 bushels, making in all, 275,000 bushels. We shall expect to see lively times with the boats when the stage of water will permit of the shipment of the grain scattered along the river at Salem.  
 WHEAT.—The steamer Accident, left for Portland with 100 tons of wheat. This is a large load, considering the low stage of the water. The river has fallen about a foot since the late rains, which makes navigation on the Willamette a little hazardous, but Capt. Bill is the man who can take a boat through, if any one can.

**THIRTEENTH ANNUAL FAIR.**  
 The Most Successful Fair ever witnessed in Siskiyou.

Our mountain city was greatly enlivened last week, by the extraordinary large attendance at the Thirteenth Annual Fair, held by the Siskiyou District Agricultural Society, which includes in its area the counties of Siskiyou, Del Norte, Tinity, Shasta and Modoc, in this State, and Jackson and Lake counties, in Oregon. Visitors were present from every section of Siskiyou and representatives from the other California counties in the district were present, while Jackson and Lake counties in Oregon, were largely represented, including the excellent and well drilled Jacksonville Brass Band, in a gay looking and neat red uniform, whose members were cordially entertained by the Yreka Brass Band, and our citizens generally.  
 It was also noticeable, from the bringing in of articles at the pavilion earlier than during former fairs, that there would be a large display of articles on exhibition, which proved a reality, as all available space and tables were filled full when the pavilion was opened to the public on the first day. We hope the management will always have the pavilion thus opened in full blast at each succeeding fair on the first day, which can be done by insisting upon the same rules hereafter, and thus prevent parties from taking the advantage of what is placed on exhibition, before they bring in their articles prepared for the occasion.  
 About noon of the first day, the Jacksonville and Yreka bands combined, crowded upon the deck, front and hind booms of a Concord coach, driven by Jake Chase, and performed several airs as they proceeded through town and out to the race track, stopping on the route, to serenade the Journal office, for which we feel highly honored. The races on the first day were quite exciting and also on the second, especially the Murphy race, while on all the other days equally lively races in trotting and running were hotly contested and great interest and excitement, details of which we give in full, further along in the continuation of our review of the transactions at the Fair Ground and Pavilion.—Yreka Journal.

THE AMERICAN AGRICULTURIST.—This paper for September comes to hand with 35 engravings of animals, plants, various useful contrivances for the farm, garden, and household, and upwards of 160 articles and items, mainly upon the practical work of outdoor and in door life. The seven columns of hints, suggestions, and directions for the work of the month, prepared from the latest experiences of practical men in each department, in this, as in every number, are worth more than the cost of the entire paper. Guernsey cattle are described and illustrated. Sundry Humbugs are exposed. "Riding furniture etc., of Moths," is an important article that should be read by every house-keeper. Among the valuable articles are: Breaking and training colts; Talks on Farm Crops; Among the Farmers by One of Them; Wheat Culture; Agriculture at the Paris Exposition; The Poisonous "Loco or "Crazy-Weed" of the West, described and illustrated; Preparing for Winter; a fine, new, very early Peach; Notes from the Pines; Home Topics; Boys and Girls Columns; Description of Tartles, etc., etc. Orange Judd Company, Publishers, New York. \$1.50 a year; 15 cents a number.

**JENSEN & IFFLAND,**  
 YREKA, CALIFORNIA,  
*Are Happy*  
 TO ANNOUNCE THAT THEY ARE  
**ALWAYS OPEN FOR TRADE**  
 Lard, Bacon, Hams,  
 Eggs and Butter.
