ENTERTAINMENT—MUSICAL AND LITERARY.—The young people of Ashland are moving in the direction of a first-class entertainment to be given in the M. E. Church, some evening in the near future. A full programme of exercises will appear in due time.

THANKSGIVING SERMON.—The people of Ashland are invited to unite in the religious observance of the day appointed for thanksgiving (Thursday, the 28th inst.) Services to be conducted in the Presbyterian church, at 10 A. M., by Rev. W. T. Chapman, of the M. E. Church.

NEW TEACHER.—The talented young artist, Miss Luella McBride, has taken charge of the classes in painting and drawing at the Ashland Academy. The addition of these branches to the wide range of studies already pursued in this popular academy makes it one of the finest and most complete educational institutions in the county.

IS DEMAND.—The demand for cordwood in Ashland is quite brisk now. John Holton, who has been hauling from "Old Jimmy Galesh," tells us he cannot fill orders as fast as they are given. THE TIDINGS office is on the last stick, and if a few subscribers would pay up in full this week, we should be much gratified.

WELCOME RAIN.—The gentle rain of last week was worth many dollars to our farmers. It was just the kind to satisfy their needs, coming down so quietly that scarcely a drop ran off without doing its duty in softening up the soil for the plow. Considerable soil will now be turned over, which else might have been left till spring.

BALL AT LINKVILLE.—The Linkville Ball Association will give a social dancing party in the new Good Templar's Hall, of that place on the evening of the 29th inst. Preparations are being made for a grand time, and from the character of those having the affair in charge, we feel safe in predicting a most enjoyable evening for all who may attend. A splendid supper will be served in the lower hall of the same building.

LEFT OVER.—It was with regret that we were compelled to postpone until next week's issue, the publication of a very interesting sketch under the head of "Southern Oregon History," which came too late for insertion in this number. It was contributed by a gentleman who is thoroughly posted, from personal recollection, in the stirring events of the early times, and who will, perhaps, furnish us a number of interesting sketches.

THE FAMILY OF JEFF DAVIS.—It has been reported that the president of the late Southern Confederacy was bereft of every blood relative of his family name by the recent death of his son, Jefferson Davis Jr., who was one of the victims of yellow fever. This is an error; there are at least two living. The St. Louis Times mentions a cousin, Col. F. G. C. Davis, a prominent lawyer in that city, and many old residents of Jackson county will remember Mr. B. T. Davis, a nephew of the president, who was for many years a merchant in Jacksonville, and who now resides in Idaho Territory.

RELEASED.—Rev. Mr. Chapman, to whom the publishers of the TIDINGS have been indebted for editorial assistance since the death of the late editor, finished his work on the paper with the last number. He has the sincere gratitude of all interested for the efficient services he rendered in a position which, from its temporary character, and other peculiar circumstances, had many difficulties and perplexities which can be appreciated only by those who have had similar experience. We trust Mr. C. will favor us with a contribution, however, whenever he may have the time and inclination.

A PLEASANT TIME.—On Tuesday evening last, the residence of Mr. Chapman, the Methodist pastor of this place, was the scene of a pleasant social gathering as has been enjoyed by the people of Ashland for sometime. In the afternoon a number of ladies met there to do some sewing for the coming church fair, and in the evening nearly everybody else came, and the parsonage was completely filled with happy people. An elegant supper was served to all who could be induced to partake (which some did more than once, it is whispered,) and then the time sped swiftly, with good music and pleasant chat, until the hour for dispersing arrived.

SEND US NEWS.—We earnestly request all who have been sending items to the TIDINGS, regularly or occasionally, to continue their favors, and we will make them such return as is in our power, if in no other way, in giving them a wide-awake, newsworthy local paper, which we cannot do without their aid. Let all who have sufficient interest in the paper to take the little trouble it would require, keep us posted in all such incidents of everyday life occurring in their neighborhood as may be of interest to the public, and they will at least receive our sincere thanks. None need hesitate for a moment, because they have not the time to prepare a finished or polished article. Just send us the facts and we shall be satisfied.

A LIVELY SCENE.—On last Saturday, the streets of Ashland were the appearance of a mining town in flash times, when the town is too small for the business it is compelled to do. The area around the flag pole was crowded with teams, loading and unloading. We counted eighteen at one time. Most of them were large freight wagons—"mountain steamers" of four or five tons burden—which had just arrived from Reading, loaded with merchandise for the various business houses here, and the immense piles of boxes, barrels and bales which soon began to loom up on the sidewalks in front of the stores gave evidence of the thriving trade of our little town. Mr. Riggs, taking advantage of the fine weather, took his camera to the hill above the flour mill, and secured a photograph of the scene.

NEW OFFICERS.—At the regular meeting of Klamath Lodge, I. O. G. T., on the evening of the 5th inst, the following officers were duly installed by R. P. Flynn, L. D.: Herman Wendling, W. C. T.; Charles Woodward, W. V. T.; Frank Miller, W. Sec.; Wm. T. Roach, W. F. Sec.; Miss Rosetta Loosely, W. T. Edwar Parker, W. M.; Wm. Smith, W. D. M.; Wm. O'Toole, W. O. G.; Wm. Schaffner, W. I. G.; Robert Caldwell, W. H. S.; Fred Zischenback, W. L. H. S.; Rev. Thos. Olsen, W. Chap.; John P. Loosely, P. W. C. T. Reports from the condition of the lodge are very encouraging. Although a number of members were taken away by the recent removal of the military company stationed there, the loss in number will soon be made up by the addition of new members.

PRISONER ESCAPED.—A prisoner named Lange, from Scott Valley, Cal., who was awaiting trial under two indictments for forgery, escaped from the Yreka jail last Saturday night, and is still at large. He managed to saw one of the iron bars of his cell window in two with an old rusty case knife, and let himself out snake fashion. Sheriff Laird arrived in Ashland Tuesday night, on the lookout for him, having received a dispatch from some one to the effect that he had been seen at breakfast in one of the hotels here that morning; but this, it seems, was a mistake, and the sheriff found no traces of him. The prisoner is described as a Dutchman; he is about five feet, two inches in height, and weighs at least 200 pounds; has a broad, full face, high and rather prominent cheek bones, scar on one cheek, talks rather brokenly, and when he left the jail wore a short mustache, and there or four weeks' growth of heavy beard. A liberal reward is offered for his recovery.

ALTHOUSE LETTER. Our regular correspondent sends us the following items under date of Nov. 14th: Wm. Q. Brown started for Jacksonville on Tuesday's stage.

Bad colds are all the rage, and Dr. James Spence is doing a good business. A light occurred at Althouse a few days since. Result, scratched faces and two or three black eyes.

The Althouse Lodge, No. 32, I. O. G. T., is in a flourishing condition, having a membership of forty five. It was organized on the 19th of May last, and has already been of great benefit to one little town.

Quite a severe accident occurred a short time ago. Mrs. Hinton Miller and Mrs. P. M. Brown, of Bear creek, were thrown from a wagon, sustaining severe injuries, but hopes are entertained for the speedy recovery of both. JAMES VEDDANSKY. JOSEPHINE COUNTY ITEMS. MURPHY, Nov. 9th, 1878.

The vegetable crop was never excelled. Such onions, potatoes and cabbage, as have been only read of in his story heretofore, are here to tell their own story. Never before, but when such crops as fifty bushels of corn to the acre and four and a half tons of onions on sixty-five rods of land are to be turned out, this is where it may be done. If this is doubted, let the non-believers come down, and we will show them the ground where it has been done, and a part of the crop still on hand.

Dramatic Incident.—An honest looking party came into the village store the other day, and beckoning the proprietor to one side, showed him a piece of free gold quartz, and asked him how he would like an interest in such a ledge. This proprietor thought he would like it much, and inquired if the miner was in need of anything he could furnish. The ledge owner said he had no need of supplies at present, but he would take a pair of new boots.

In a few days he would bring a large piece of quartz and a copy of location claim papers, and they would begin claims. The boots were furnished, and the man departed, but the merchant is now industriously engaged in wondering why he cometh not again. Moral: When an individual comes to you with a piece of rich quartz from Johnson's old ledge, first be sure where he got it before you let your boots go.

With this communication I must take my leave of the TIDINGS. During my brief correspondence I have done what I could to furnish interesting news, and I trust that if I have inadvertently offended anyone it will be forgiven, as I have been entirely innocent of any intent to injure anybody. With regret I find that added business cares will prevent my devoting any time to newspaper writing; so I must say: adieu. Yours, MACK.

It is proposed to charge an admission fee of ten cents, the proceeds to be used in paying expenses of hall and light, and the balance to be divided among the best spellers—giving dictionaries, graded as the committee may decide. The committee may be chosen by a majority of the competitors before the contest begins, and will act as umpires. It is requested that the names of the spellers be given to the clerk early in the evening, or before, so that a list may be furnished each member of the committee. The Pacific Coast speller will be used, the lesson commencing on page 37 and including 45 pages. If this match proves successful and satisfactory, we may at another time take the balance of the book for another lesson.

Dixon, who was murdered by Indians at Stein's Mountain, last summer, are to be brought to Roseburg for interment. Roseburg is improving rapidly. A number of new buildings are being erected, and a number of manufacturing establishments are about to be put in operation. Of these, we may mention a new saw mill, grist mill and foundry.

Don't Forget It.—If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts, as the saying is, you may safely conclude that you have liver trouble. The liver is very apt to become torpid this season of the year, as poison arising from stagnant water or decaying vegetation, are more numerous and are, through inhalation taken into the blood. Unless the liver is strong and active and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms are apt to follow and if not healed, may end in more terrible diseases and death. White's Liver Pills prove itself the Great Liver Panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Prices twenty-five cents and seventy-five cents. For sale by CHITWOOD & ATKINSON.

They all take it.—When the system is run down to that extent that you
