

THE ASHLAND TIDINGS

FRIDAY, DECEMBER 18, 1878.

FARM AND HOUSEHOLD.

To Clean Hair-Bushes.—The best plan is to use soda and cold water. As hot water and soap very soon softens the hairs, and rubbing completes their destruction, etc.

APPLE BUTTER.—Making this is well understood by most old farmers' wives, but people who live in cities and depend on the market and the family grocer to furnish them all such articles ready prepared, do not know how vastly more economical it is to make their own.

Mr. Spurgeon is to receive a gift of \$25,000 from his congregation on the completion of his 25 years of theological labor, December 21st.

About 1,200 varieties of grasses grow within the limits of the United States. So says Prof. Collyer of the Agricultural Department at Washington.

The friends of General Butler credit him with the notion of organizing a new Democratic party, which shall be made the special champion of human rights.

The olomargarine industry does not thrive in this country. Out of sixteen establishments for its manufacture thirteen have gone to the wall.

The Hon. Z. Chandler of Michigan, called to Grand Rapids, Mich., on Monday, December 17th.

This is likely to be a winter of dreadful distress in England. In the cotton districts the forebodings are gloomy.

A member of a church being particularly about the new minister, is said to have prayed aloud at the late meeting of the Kirk elders: "Send us not an old man to his dotage, nor a young man to his gossamer, but a man with all the modern improvements."

A granite company in Maine has quarried a piece of granite said to be the largest piece ever turned out in the United States.

Magazines and newspapers have been for several years used with excellent effect in the reading classes of the Plymouth (Ind.) schools.

New discoveries of gold have been made in a Siberia, near the source of the Komsisar; and a nugget of gold, weighing 147 pounds, the largest ever found in Russia, and probably the largest in the world, has been found on the banks of the Upper Tonoungsk about 100 versts above the river's mouth.

The California Constitutional Convention has adopted a section providing that three-fourths of a jury may render a verdict in all cases except degree, and the vote of good reading and desire for further instruction have been stimulated.

Mr. Neff, of Alexandria, Pa., awoke the other morning to find his well dry and his bottom fallen out.

Senator Lamar says that the South can never forget the grand, heroic, splendidly generous manner in which the North, so little time ago her deadly enemy, came to her aid with money, medicines, and material aid of all kinds, and words of comfort and encouragement and good cheer.

The statistical returns of Methodism for 1879 show that the number of Methodist communicants in the world is 4,480,877, with 104,175 local and traveling preachers.

A NATURAL TELEPHONE.—On the authority of Colonel Talbot, who touches for the truth of the matter, there is a certain point on a ridge high up on Kearsarge mountain where can be heard the rattle of trains on the Southern Pacific railroad as they cross the range to the west of Mohave, one hundred and forty miles distant.

STOCK GAMBLING AN EPIDEMIC.—Stock gambling is a new and epidemic that can be cured only by heroic means. Nothing but utter financial ruin will open the eyes of one who has become fully inoculated with the deadly virus, and this often fails. A strong public sentiment should be created against the whole nefarious business.

Preparations are being made in Boston and other cities to give Grant a series of brilliant receptions on his return to America. The first will be given at Boston and will be followed by those of Philadelphia and New York.

It takes as much wit not to displease a woman as it takes to please her.

Work in your own yard—\$3 cent per bushel. No tax. No duty. No loss. Nothing but utter financial ruin will open the eyes of one who has become fully inoculated with the deadly virus, and this often fails.

Clippings.

A Berlin they are making durable teeth out of paper.

Darrey, the "late survivor" of Napoleon's expedition to Egypt, has just died at Iuvavio in Paris.

Tennyson, so report says, has reserved a poem which he regards as his masterpiece, to be published after he dies.

If a man's religion is pretensions on Sunday and obscure on week days, you had better do business with him on a cash basis.

Brilliant and impulsive people, says an exchange, "have black eyes." Impulsive people are only too apt to get black eyes.
