DON'T SLAM THE GATE.

Now, Harry, pray, don't laugh at me, But when you go so late I wish you would be careful, dear, To never slam the gate.

For Bessie listens every night And so does teasing Kate, To tell me next day what o'clock They heard you slam the gate. Twas nearly ten last night, you know,

But now 'tis very late-(We've talked about so many things): Ob, do not slam the gate! For all the neighbors hearing it, Will say your future fate

We've been discussing; so I beg You will not slam the gate! For though it is all very true, I wish that they would wait To canvass our affairs-until-Well-pray don't slam the gate!

At least, not now, By-and-by. When in "our home" I wait Your coming, I shall always like To hear you slam the gate!

### Utah Mineral Wax.

Lake County. Little mounds of earth native paraffine, lately discovered in see sometimes built up by them, to a Southern Utah, says the Scientific The great deposit of mineral wax, or American, is described by Professor J. E Clayton, of Salt Lake City, as occupying an area of 60 miles long by 20 feet thick. It contains more or less clay in seams or layers, but this is readily eliminated by melting. It is quite black in the mass, but the sections are translucent. The quantity is said to be enormous; so great, indeed. that it cannot be controlled by any individual or company, but must prove a source of wealth to whole communities. Professor Henry Wurtz pronounces the mineral to be zietriskisite. and says that it differs from paraffine by being insoluble in ether, and otherwise. Professor J. J. Newberry most that we can say, that Miss Fannie finds the specimens brought by him soluble in ether. As to the origin and ought to know the audience here is not bed of paraffine—which, so far as known, is without parallel in quantity worked their feelings up to a scalping in the world, and is as much of a burrah she ought not to give up to her "wonder' as our basins of petroleum hurrah she ought not to give up to her lover.
