

THE ASHLAND TIDINGS

FRIDAY, APRIL 25, 1875
THE NEGRO MIGRATION.

About 2,500 negroes have gone from Mississippi and Louisiana to Kansas this spring, and the migration still continues. Most of the negroes are without means to make homes for themselves in the new country, and there will be doubtless be much distress and suffering among them in a short time. As to the cause of the exodus, there is much discussion and, of course, a wide difference of opinion between persons of opposite political predilections. The Democrats assert that the negroes have been treated well by their old masters, and that Republican politicians of the north, finding that the negroes are voting the Democratic ticket, have induced them by promises of homes and representations of good times in Kansas to move thither. The other side of the matter is shown up by the St. Louis Globe Democrat. That paper has been taking affidavits of a number of the colored pilgrims in that City and has the following in an editorial upon the subject:

"The affidavits made by a large number of the refugees contain a terrible condemnation of the bulldozing policy now pursued by the white people of Mississippi, Louisiana, and Arkansas. These affidavits all tell the same story, and they are true. The negroes are robbed of their political rights; they are not permitted to hold political meetings of any kind and their lives are in danger if they attempt to vote the Republican ticket. A well organized system of terrorism prevails. The whites cannot tolerate a 'smart nigger.' They look upon such a man as a fire-brand who is a constant menace to Democratic supremacy. The colored man who reads the newspapers is hunted down like a mad dog, because there is danger that he may communicate the poison of information to his less gifted neighbors."

ASHLAND ACADEMY AND COLLEGE.

We are informed by Rev. W. T. Chapman that arrangements have been completed for the purchase of the Academy property, and the school passes to the control of the Oregon Conference of the M. E. Church. The grades of the institution is to be advanced so as to include all the usual collegiate, as well as academic, courses of study, and the school will be opened in September next under competent teachers and improved facilities. Such alterations or additions to the building as may be found necessary will be made during the summer, and next fall the academy will again be opened with brighter prospects than ever before. This news will be hailed with rejoicing by the people of Ashland and of the country for many miles around. With good management the school may be made successful and prosperous, an ornament and a benefit to the town, and an institution of learning which will have a wider and more extensive influence than any other in Southern Oregon. Students who have completed the academic course here may now return and enjoy the advantages of the college.

An exciting debate upon the proposed repeal of the Federal election laws occurred in the House of Representatives last Friday. The speakers on the Republican side denounced the attempt to repeal the laws as a measure to open the door for fraud in the Presidential election of 1880, and alleged that the southern members were about to attempt to coerce the government by starvation as they attempted to destroy it by force of arms in '61; but they rejoiced that this attempt would be as futile as the other. The speakers upon the Democratic side declared that they had no intention to stop the wheels of government, and claimed that the spirit and freedom of the ballot are impaired by the existence of the laws, asserting also, that the speeches upon the other side were only intended to revive the bitter feelings of the past, in order to keep the Republican party in power. Still more exciting discussion was expected this week.

The visit of Chief Moses to Washington which will in all probability prevent any serious disturbance from the Indians in Oregon and Washington Territory for a long time. Moses has agreed to take his tribe from the Yakima to a new reservation in Eastern Washington, upon which the Umatillas and remnants of other tribes will probably be placed. Had the attempt been made to take from Moses by force the land which he claimed for his tribe, an Indian war would certainly have resulted which might have been as disastrous to the people of that section and as costly to the government as the Bannock war of last summer.

California papers opposing the new constitution proposed for that state, print the following under date of Washington, April 9: "Ex-Representative Luttrell has been detained here for the last month attending to business connected with the interests of his constituents. Among other things, he was employed by some parties in California to negotiate for \$300,000, to be invested in his district. He says he made the necessary arrangements, but that the capitalists now decline to invest any money in California, and to-day emphatically informed him that in their deliberate judgment not a dollar of eastern capital will be invested in California until the new proposed constitution is defeated. Luttrell states that had the enterprise succeeded it would have employed at least a thousand men. He starts back to California this week."

England is losing her commercial, as well as her manufacturing prestige. A London correspondent of the New York Herald says: "England's foreign trade is in an unsound state as her home commercial and manufacturing interests. The Anglo-Indian trade is in a most unsatisfactory condition. England's trade with China, which has been decreasing steadily year by year, is now said by merchants to be as good as altogether dropped, owing to the lack of profits on the business and the unsatisfactory state of England's relations with China. In fact it seems probable that England's trade with China will have to be abandoned, for it is admitted that American opposition and enterprise have entirely killed English rivalry in that part of the world."

In regard to the nomination of Grant, G. W. Curtis, in Harper's Weekly (Republican) talks in the following plain manner. "To say that he is the only candidate who can be elected is a confession of despair we do not share, and to assert that he is the sole distinctive representative of republican principles is to insult republican intelligence. However probable the renomination of Grant may be, it seems likely that it would chill a sincere part of the opposition to the democrats, would be accepted with doubt, and regret by another part, and would be really welcome only to the third part."

All interested in education in this county should do what they can to make the coming teachers' institute a success. Those who have had experience with teachers' institutes know their value in awakening an interest and stimulating efforts for improvement in the work of teaching. No teacher who can possibly attend should fail to do so, and Directors would find it directly advantageous to the interests of their districts, we believe, to assist teachers in finding a way to go to the institute.

The Sacramento Record Union and the San Francisco Chronicle have each been canvassing the state upon the prospects of the adoption of the new constitution, and from the reports they publish we are led to believe the vote will be for adoption.

The two million N. P. Railroad bonds have been subscribed for building the 200 miles from Bismarck to the Yellowstone. Gen. J. W. Sprague has been appointed general superintendent of the Co.'s property and business on the Pacific coast.

Digest of important decisions rendered in the General Land Department.

The following digest of important decisions rendered at the General Land Office in reference to public lands, is culled from Copp's Land Owner, for 1868-9:

PRE-EMPTIONS.
The survey of public lands becomes final and effective when the plat is filed in the local office by the Surveyor-General. A proceeding under the 6th section of the act of July 23, 1866 is not a survey of a private grant in the correct acceptance of that term.
In the matter of a State selection, the general government will not inquire into the transactions between the State and her purchaser; neither will it go back to the records to inquire, as between the State and her agent, if he complied with the provisions of her statute relating to the sale of granted lands.

There is nothing in the law of March 3, 1877, authorizing the pre-emptor to change his filing to homestead entry with credit for the time he has resided on the land claimed, which requires his personal attendance at the local office.

UNION HOTEL AND BAKERY.

ASHLAND, OREGON.

IT IS NOW FINISHED, and the Proprietor is ready at all times to receive guests and furnish them with accommodations second to none in the country.
Suppers furnished per order.
Single Meals..... \$ 37 1/2
Board per Week..... \$ 4 00.
REV. J. H. MAYFIELD,
Proprietor.

New Today,
The Fast Trotting Stallion,
—OPHIR—

—WILL STAND the present season of 1875, commencing on April 1st and ending July 10th. He will beat Ashland Tuesdays and at Phoenix Wednesdays; the balance of the week at Manning's stable, in Jacksonville.
DESCRIPTION—Ophir is a beautiful dark chestnut, without mark or spot, 15 hands 3 1/4 inches high, and weighs 1,200 pounds, a splendid mid disposition, and will be 10 years old on the 15th day of July.

—He has a Record of 2:35—
PEDIGREE—Ophir was sired by the celebrated trotting stallion, Kentucky Hunter, he by Broken Leg Hunter, of New York; grandsire, Sorrel Hunter; great grandsire, Old Kentucky Hunter; great-great grandsire, Highlander.

Sorrel Hunter's Dam was a Sir Henry mare from Kentucky, from which the name Kentucky originated, the name of hunter was derived from his English Hunter blood.
Kentucky Hunter's dam (from a Moonshine mare) was sired by the trotting stallion London Hunter; grandsire, Sorrel Hunter; great grandsire, Old Kentucky Hunter; great-great grandsire, Highlander.

This is a correct pedigree of Kentucky Hunter, and makes him about seven eighths Hunter; perhaps, better known as Messenger blood, and which has been thoroughly proven to be the fastest and best stock of horses ever introduced into the United States.
Ophir's Dam was sired by David Hill; her dam was sired by Prince Albert, a Messenger owned by William Reynolds, of Colusa county, California. Ophir's dam is now owned in Santa Clara county by Dr. C. L. French; her dam is owned by D. M. Beavis, of Butte county. They are both fine, large and splendid roadsters.

PEDIGREE OF OPHIR'S DAM'S SIRE—David Hill was sired by Black Lion; he by David Hill's celebrated trotting stallion Black Hawk; he by Sherman Morgan; he by Justin Morgan, and he by True Briton, who was imported from England and used by General DeLancy as a charger on Long Island, in 1777. David Hill's dam was got by Hambletonian; he by Abdallah; he by old Membrino, and he by imported Membrino. The dam of Hambletonian was Charles Kent's mare by imported Bellfounder.

TERMS—Single service \$20, payable in advance. For the season \$20, payable at the end thereof. Insurance \$10, payable when it is ascertained that the mare is in foal.
All possible care will be taken by an experienced hand, who thoroughly understands the treatment of mares and horses, to avoid accidents; but will not be responsible should any occur. Pasturage furnished at reasonable rates.
S. L. DANIELS, Proprietor.
JOHN COWAN, Groom.
