

FRUITS RESULT OF MURDERING POLITICS

The condition of politics in the city of San Francisco should cause every citizen of California, and of the United States, to blush with shame.

The Rev. Dr. Isaac S. Kalloch, a sensational preacher of an erratic and not unquestionable career, who has become very popular among a certain class in San Francisco, was nominated by the Workingmen for Mayor.

Gov. Warmouth of Louisiana, while at Long Branch, stated to a reporter that he did not think the republicans could count on a single southern elector at the vote in 1880.

The Chicago Journal has a long editorial upon the Kalloch shooting which is summed up in the following squib: "Editors who delight in reckless blackguarding of other people should not get mad when other people blackguard them."

It is said by California papers that workingmen's political meetings held throughout the state by White and Kearney are larger than the meetings held by the Whigs and Democrats.

The New York Public estimates the amount of money set free, or "disbursed," by the funding operations of the treasury at \$75,000,000.

In an interview with a reporter Senator Dawes says that Blaine is decidedly the most popular man for the presidency with Massachusetts Republicans.

The yellow fever was apparently subsiding at Memphis, but on the 25th it was reported to have taken a new start, thirty-four new cases being found.

Oregon's fine exhibit at the mechanics' fair in San Francisco is attracting general attention. The press of California is awarding it favorable recognition.

It is rumored in railroad circles that Vanderbilt has bought a large interest in the Union Pacific rail road.

A statute of Gen. Custer, made by Wilson McDonald, will be unveiled at West Point to-morrow.

WHERE THE BILL WENT.

As the O. & C. Land Co.'s operations have had quite a long rest from newspaper attentions, perhaps the following from the Yreka Journal will not be uninteresting.
