

THE SITUATION IN MAINE.

We now see in Maine what was predicted at the beginning of the trouble, two legislatures and two claimants for the position of de facto Governor.

Reports continue to reach us of increased distress among the peasantry of Ireland, and there is apprehension of serious bread riots.

The Senate finance committee has decided to report adversely upon Bayard's resolution to repeal the legal tender power of greenbacks.

A New York man named his tug boat John Kelly, and the next day it ran into three valuable ships and did them lots of damage, and finally got ashore and blew up.

Gen. Garfield has been elected Senator by the Legislature of Ohio, to succeed Senator Thurman.

The luckless Sultan of Turkey has been subjected to an indignity that is usually restricted to less resplendent mortals.

Edison's electric light has thus far disappointed public expectations. The lamps in use at Menlo Park do not last long, something defective about their construction causing the globes to crack.

Ouray and several other Ute Indians who did not participate in the massacres, are in Washington being talked to by the Interior Department.

A Washington special says: The California delegation has resolved to push action on the Chinese Immigration bill and run the chances of another Presidential veto.

The Republican legislature then submitted some twenty-nine questions to the Supreme Court of the State, embracing all the points at issue between the two factions.

The Times says of Brady's statement: He failed to explain whether the Department considered appropriations for the current year adequate to the fulfillment of the contracts or the establishment of new routes.

Grant has gone to Cuba to boom around that little island for a while. Meanwhile the Grant boom languisheth in the U. S., notwithstanding that the New York Times says Grant has learned a good deal since he was in the White House.

Gen. Chamberlain refused to surrender his commission or his position, saying in answer to Smith: "When the matters now in issue involve the very question whether you are Governor or not, it must be manifest to you that I should fail in duty were I to surrender my trust, except on undoubted evidence of your authority to demand it."

A Washington correspondent says: Wofan suffragists fairly flooded the Senate chamber on Wednesday of last week, on the call of petitions.

A Washington special of the 16th of the New York Tribune says: Western members are not well pleased with the Interior Department in its way of treating the Indian question.

Western members are not well pleased with the Interior Department in its way of treating the Indian question. It is understood that this delay is favored by General Sherman on the ground that if war is to come it is better that it be postponed until troops can take the field.

A Storm in the Mountains.

(Roseburg Independent.)

The Coos Bay mail carriers on last Friday witnessed an awful freak of nature. When within about eight miles of Laird's station, in the canyon, they noticed a peculiar stillness of the atmosphere.

The death-like stillness was broken by the distant roar of the ocean waves, furiously lashing the beach full thirty miles distant. Every few steps birds would flit across the path of the mail carrier, chirping frightened tones of warning.

Mr. Eugene Jones, on looking towards the tops of the mountains, discovered the cause of such singular warning, and not a bit too soon. A rush to the friendly protection of a large, projecting rock and the witnesses of this grand and fearful sight had ample leisure to view a scene never to be forgotten.

The luckless Sultan of Turkey has been subjected to an indignity that is usually restricted to less resplendent mortals. His butcher and baker and wine merchant and laundryman have stopped sending supplies to the palace, on the ridiculous plea that the bills are unpaid.

Edison's electric light has thus far disappointed public expectations. The lamps in use at Menlo Park do not last long, something defective about their construction causing the globes to crack.

Ouray and several other Ute Indians who did not participate in the massacres, are in Washington being talked to by the Interior Department.

A Washington special says: The California delegation has resolved to push action on the Chinese Immigration bill and run the chances of another Presidential veto.

The Republican legislature then submitted some twenty-nine questions to the Supreme Court of the State, embracing all the points at issue between the two factions.

The Times says of Brady's statement: He failed to explain whether the Department considered appropriations for the current year adequate to the fulfillment of the contracts or the establishment of new routes.

Grant has gone to Cuba to boom around that little island for a while. Meanwhile the Grant boom languisheth in the U. S., notwithstanding that the New York Times says Grant has learned a good deal since he was in the White House.

Gen.
