And the sting of an exquisite pain.

'Tis not much that I see for a picture. Through bows that are green with Spring-A barn with its roof gray and mossy, And above it a bird on the wing.

Or, lifting my head a thought higher, Some hills and a village I know, And over it all the blue Heaven, With a white cloud floating below.

Ah! once the roof was a prison, My mind and the sky were free, My thoughts with the birds went flying, And my hopes were a Heaven to me.

Now I come from the limitless distance, Where I followed my youth's wild will, Where they press the wine of delusion That you drink and are thirsty still;

And I know why the bird with the Spring time,

To the gnarled old tree comes back-He has tried the South and the Summer, He has felt what the sweet things lack.

So I come with a sad contentment, With eyes that are changed I see; The roof means peace, not a prison, And Heaven smiles down on me.

Pleasant Surprises

Happening to say something before my friend Smith one day about pleasant surprises, he rephed with a groan and shake of the head. "Ah, don't tell me about pleasant surprises. They are a snare and a delusion! Surprise may be the essence of wit, as some authors tell pleasure."

"You speak feelingly on the subject," said I.

"You would not wonder at that," it."

JULIUS ACH.

Why we, the people of the Pacific Coast should any longer be pestered with worthless nostrums, made fifty pears ago east of the Rocky Mountains, and that too, by persons who never even knew chemistry by its name proper, much less its wonderful workings. This question suggested itself years ago to Wm. Pfunder, the only operative chemist in Oregon. The result was that this gentleman applied himself to a great and tedious research of the different vegetations, growing in im-mense quantities, especially in Oregon, but shedding—until his discoveries—all their VIRTUES from year to year to mother earth. His tedious researches, scientific applications, and proper combinations, culminated in the production known to-day as the OREGON BLOOD PURIFIER, Progressu, labore et scientia, extractum concentratum, nominis Pfunderill Oregoniense formetur.

Experience makes the master. Having had experience with very difficult medicines, chemicals, etc., for over 25 years, and having mastered them all through hard study, both here, and in the East and iff Europe, we can confidently recommend our Bolanical Remedies, because we have extracted, nay "wrenched" from the very heart-strings of hidden nature, all that is good and beneficial to suffering humanity, and leaving the Empty Shells and Worthless Leaves to imitators, green and inex-

I sold my last bottle of **Piundor's** Oragon Blood Purifier to Doctor Angee of this place, whose wife has been suffering from general debility for over one year, although the Doctor tried his best to cure her. After using your remedy the patient felt better, so much so that the doctor wants one dozen of this truly good medicine, which please send in my care at once. This is an extract received from Mr. Boos, Forest Grove, Oregon.

Frederick Ruegg, of Multhomah county, State of Oregon, certify herewith that Wm. Pfunder's Oregon Blood Purifier has entirely cured me of a skin disease, produced by poison oak. Although I had applied to several physicians for relief, none of these gents could do me any good, and I herewith recommend the Oregon Blood Purifier to all suffering with such skin diseases. Signed: F. RUEGG.
