

THE ASHLAND TIDINGS
FRIDAY, JUNE 25, 1890.
EAGLE POINT.

The stranger who visits the growing village of the Little Butte country at this time of year will be pleased with the bright and thrifty appearance of the town, and if he has heard of the "awful stickiness" of the soil and expects to see houses and people and fences covered with an ineradicable coating of adobe, will be very agreeably disappointed. On all hands are appearances of comfort and good taste on the part of the citizens. The houses are neat and well kept, the gardens in the central part of the village, irrigated from the mill race by an ingenious contrivance in the shape of large, picturesque water wheels, are green and flourishing, and, altogether, the town presents an inviting appearance. It is favorably situated, being in the midst of an extensive agricultural and grazing country, and with a continuance of the public spirit already exhibited by its leading citizens will steadily increase in business, population and prosperity. The most important business of the place is that of the flouring mill, built by Jno. Daley and sons, which has the reputation of turning out flour of the best quality. The proprietors are enterprising and energetic and deserve much credit for their influence in building up the village. Besides the mill, there are two stores, two blacksmith shops and two public houses, but no saloon—the red ribbon is seen on the coats of nearly all the young men in town.

The citizens of Eagle Point look forward to the future of their town with higher expectations, too, than to see it merely a little trading village for a secluded farming and pastoral region. Like the people of many other towns of the undeveloped portions of the state, they are hoping to hear the echoes of the locomotive whistle reverberating among the hills about them before many years. And, from what we can learn of the topography of the country, the chances appear very favorable for their valley being in the route of any road which may come in from the Lake country to strike Rogue river valley and connect with the O. & C. railroad.

It appears as though we have been mistaken about the position of the people of Ashland upon the liquor business. The saloon is now running with entire publicity, and the proprietor stalks about, master of the situation. A fine, which was imposed upon him several weeks ago by the Recorder, remains unpaid, and no move has been made to collect it. The Town Trustees tell us that they did not receive the promised support of the citizens in meeting the expenses attendant upon the legal action taken against the saloon, and concluded to let the matter drop. This is exceedingly unfortunate for the town, and if the saloon be allowed to continue as it is Ashland will in a very short time drop from its position as a refuge for rum-tempted victims, a house of security for youth, to the common plane of towns in which the liquor business is unrestricted. When this is accomplished our town will have lost a most important factor of its growth and prosperity, as will be conceded by all thinking and observant citizens who have noted the influences which have built it up. Already some of our neighbors, good citizens, who strive hard to let liquor alone, and succeed to a great extent when there is no saloon to tempt them from its doors, are seen staggering about the streets, and this is but the early fruit of the saloon. When the full harvest is gathered in, who shall count the blasted lives, who shall estimate the misery of ruined hopes and prospects. And the responsibility cannot be charged alone upon the man who keeps the saloon. It is shared by the citizens who sustain him, or allow him to continue, in the business.

When, in the heat of the county campaign, the Jacksonville Times published the statement of a correspondent that W. H. Atkinson had made a certain attempt to defeat the building of the Odd Fellows' brick hall in Ashland, Mr. Atkinson sent a card to the Times, making a simple denial of the charge, over his own signature. The editor made a brief mention of the card, but did not do him the courtesy to publish his card. He probably thought some of his party friends would prefer to have the charge unfettered, and no doubt the card was "crowded out" by a press of more interesting matter, anyhow. We think this can hardly be called fair treatment, especially when the election was past before the card was sent for publication.

NOMINATION AT CINCINNATI.

The National Democratic convention met on Tuesday, and nominated Gen. W. S. Hancock for President on the second ballot, Thursday morning. Seymour had positively declared that he would not accept the nomination, and Tilden also announced that he did not wish to be the nominee.

Winfield Scott Hancock was born in Montgomery county, Pa., Feb. 14, 1824, and at the age of 16 entered West Point. He served as Lieutenant in the Mexican war, and was brevetted for gallantry at the battles of Contreras and Churubusco. He served in the Florida wars, and in 1859 came across the continent to California. When the Rebellion broke out he declared squarely for the Union, and did much to check the spirit of secession in California. He served all through the war, winning especial honor at South Mountain, Antietam and Gettysburg, being severely wounded at Gettysburg. He gained the rank of Major General, and was conspicuous among the military commanders of the reconstruction period. After occupying various positions in the West, he was assigned to the command of the department of the Atlantic.

CELEBRATION IN ASHLAND.

The committee of arrangements for the celebration in Ashland have decided to have it on Saturday, the 3d, instead of Monday, in order to allow those who wish to attend both the Ashland and Jacksonville celebrations. Instead of a formal oration, the Committee have decided to have short extemporaneous speeches from a number of well-known citizens, which will no doubt prove an agreeable departure from the old ruts. After the usual diversions of the day there will be a dance, commencing immediately after supper, and continuing until 12 o'clock.

Address, MONTGOMERY WARD & CO., 237 & 239 Wabash Ave., Chicago, Ill.

CASCADE STOCK FARM.

Season of 1890.

ALTAMONT,

Dark bay stallion, foaled 1875. Bred by Col. R. West, Georgetown, Kentucky, (Vol. III, p. 30, Wallace's Trotting Register). Sired by "the great sire of trotters."

ALMONT,

Son of Alexander's Abdallah, sire of Goldsmith Maid, record 2:14; dam by Brown Chief, son of Mambrino Chief, sire of Lady Thorne, record 2:18; g. d. by Imp. Hooton, sire of the dam of Lulu, record 2:15; g. g. d. by Bertrand, the great four-mile race-horse, g. g. d. by Imp. Buzzard, sire of the dam of Woodpecker, sire of the famous Grey Eagle. Altamont will at the proper time be given a record which will ensure a large demand for his colts. (Almont is the property of Gen. W. T. Withers, Lexington, Ken.)

WILBURN,

Bay stallion, foaled 1877; bred by Gen. Wm. T. Withers, Lexington, Ky. (Vol. 3, p. 669, Wallace's Register). Sired by Alamo, son of Almont, sire of Fanny Witherspoon, five-year-old, record 2:22, and for with technical records of 2:30 or better. (No other horse of his age has more than four.) He also sired Allie West, sire of Jewett, that has the fastest three-year-old record (2:24) ever made. Alamo's dam by Alexander's Abdallah (see above). Wilburn's dam by Melbourne Jr., sire of Jim Irving, record 2:23; g. d. by Alhott, (his dam by Imp. Hooton) son of Alexander's Abdallah; g. g. d. by Brignoli, (record 2:29), son of Mambrino Chief, sire of Lady Thorne, record 2:18; and Woodford, record 2:21; g. g. d. by Pilot Jr., sire of John Morgan, record 2:24, and dam of Nutwood, record 2:18; g. g. d. by Cle Bull, (sire of Chicago 2:24), son of Old Pilot. Wilburn is very large, highly finished and compactly built.

Both are perfectly sound and free from blemish, and were purchased for use in my own breeding stud; but will be allowed to serve a limited number of mares during the season of 1890, at CASCADE STOCK FARM, three miles east of Linkville, Ogn., at \$75 the season, with privilege of returning such mares as do not prove in foal. Excellent and safe pasture free during the season.

For particulars and free pamphlet-history of the trotting horse, address: JAY BEACH, Linkville, Ogn.

SOCIETIES.

Ashland Lodge No. 189, I. O. G. T.
Meets at the new lodge room, Main St. Hall, every Friday evening at 8 o'clock p. m. Brothers and sisters in good standing are cordially invited to attend. The Temple meets every first and third Wednesday in each month.
T. O. ANDREWS, W. C. T.
J. M. WAGNER, Secretary.

Ashland Lodge No. 23, A. F. & A. M.

Holds their stated communications Thursday evening at or before the full moon. Brothers in good standing are cordially invited to attend.

Book-keeping, Business Arithmetic, English Composition and other branches specially prepared for business life will receive most careful attention.

The best training and instruction afforded those preparing to teach: Higher Mathematics taught practically and thoroughly.

Courses of Study.

1.—Classical, requiring six years, including preparatory studies. Graduates receive the degrees of A. B. and A. M.

2.—Scientific, requiring three years. Degree conferred, B. S.

3.—Normal, Commercial and Musical, occupying three years each. Diplomas given certifying to attainments of graduates.

Expenses.

TUITION.—\$6 a month, \$15 a quarter, \$40 a year. One scholar three years, or three, in same family, one year, \$100. Instrumental Music or Voice Culture \$5 a month. Vocal music in class \$5 a quarter. Board \$3.50 a week. Rooms or Cottages for self-board \$2 to \$5 a month. Tuition in all cases payable in advance in cash or acceptable notes.

College Calendar.

Fall Term commences September 1st, 1890. Winter Term commences November 24th, 1890. Spring Term commences March 1st, 1891.

PROMINENT FEATURES AND ITEMS OF INTEREST.

1.—The College will be chartered, and the Normal or Training school for teachers will be made, it is hoped by special enactment, an adjunct of the Public School system, and diplomas made equivalent to first-grade certificates.

2.—Ashland has no saloons. The sale of intoxicating liquors is prohibited by the city authorities, who are sustained by a strong public sentiment.

3.—The school is under the supervision of the Methodist Episcopal Church. The following is a limited outline of pedigree and description of the horse: COMMODORE MAMBRINO that was bred by Mr. Jonathan Owen, of Paris, Bourbon county, Ky.; foaled June 7th, 1873. He was sired by Dr. Herr's "Mebrio Patchen," a full brother to "Lady Thorne"—the fastest trotter and Queen of the Trotting Turf in her day—having met the famous "Goldsmith Maid" in six engagements, defeating her in each and every race, without the "Maid" being able to win a single heat. (See proof in "The History of the Horse.") COMMODORE's first dam was got by Downing's "Bay Messenger," by "Harpisus," by Bishop's "Hambletonian," by "Imported Messenger." Second dam by "Bertrand," by "Sir Archy," by "Imported Diomed." Third dam, a fine mare said to be thoroughbred, (which she was without any reasonable doubt) being owned by the late John Hutchcraft, who bred the dam of COMMODORE MAMBRINO, and in fact his breeding for generations (upon his dam's side) was directed by the excellent judgment of that intelligent gentleman, the honored owner of the famous "Bertrand."

—DESCRIPTION—COMMODORE MAMBRINO is a rich, dark bay in color, with slight white on each hind heel, measuring over 16 hands high; weight, when fat or in high flesh (Jan. 1, 1890), 1,372 lbs., in moderate condition, as at present, 1,250 pounds. We will not attempt further to give a description of such a model of perfection in beauty and power, but hope that the breeders of this section will give him sufficient attention for a personal investigation, for which purpose we ever take pleasure in showing him. And it should not be ignored or forgotten that size with elegance of form are indispensably necessary in producing horses for any purpose at the present time for which we can obtain remunerative prices in our markets—the lack of which cannot be made up by a boasted lineage, or the speed of a gazelle. The public demand a horse of substance, style and finish, (not a pony, even though he should be "on stilts.") To select the proper Stallions to breed to is a question of grave consideration to the breeder, and one which depends so much upon the qualities of the dam (or mare to be bred) that it is hard for any one to advise, without knowing the facts upon both sides of the question, as well as the object desired. To say that a horse will get colts for specific purposes, out of any and all kinds of mares, is simply preposterous. In my opinion, to produce the horse of general use (or "horse of all work"), we must not look too much to gigantic proportions, and especially when such dimensions are composed of (or consist in) an over amount of flesh, or fat, produced by feeding, not breeding; however, high form, with good bone and muscular development, is among the principal requisites for a stallion in use, but they should be natural, and without too much flesh made to show the points of power in the animal. And, remember, that to know the blood and manner of breeding in the sire, is of first importance to those who would improve the standard of their horses.

We come to the farmers and breeders with a first-class animal, as the given account of the facts and investigation will plainly show, for the purpose of improving the standard of our common stock, as well as the horse for turf purposes. In order to be consistent in the first proposition, we keep the horse at a very low figure, so as to be within the reach of all who may desire such improvement—not demanding a hundred dollars or two in gold coin, for his services, as is usual for such a stallion. However this horse will not stand at such a reduced figure the following season, as this is but a fraction of what is generally demanded for the services of an animal of his class. Any well-bred and finely-formed mares that have failed to produce during a space of three years, and are found to be sound and healthy (by an examination of the same) will be bred on shares or to insure for \$27.50 payable when mare is known to be in foal. The season fee will be due within or by the expiration of the season. But cash will not be required in cases wherein it is inconvenient to make such payment; as approved note giving ample time, or produce as far as needed will suffice for the purpose. As reference to this horse's qualities as a breeder, I will refer you to the premium list of the Seonoma and Marin District Agricultural Society of California, during the years '78 and '79, where his stock has been shown with advantage; as to his success as a sire I will furnish a list from the season books of his patrons at above stated place to any gentleman wishing to make investigation. Good pasturage at either stand for the present season, at reasonable rates. To the patrons of the Stallion herein set forth, we furnish Breeding Certificates, (given up expressly for the purpose, in printed form), giving the blood-tracing of the horse, with other facts, as day and date of such transactions in the stud. When properly filled out, signed and delivered to the breeder, he has something of a valid nature to show the origin of the stock he is rearing, which will be of great advantage to him when he wishes to sell or dispose of the same, as a document in proof of the animal's breeding would shut out much speculation and question of doubt so commonly raised by designing purchasers and speculators, when a good animal of real worth is put upon the market for sale. By this useful arrangement, a ten-year old boy could take his well bred horse to any market (attended by intelligent purchasers) and sell the animal for its value.

A RARE OPPORTUNITY

To Improve the Stock of this Section of the Country,

IS GIVEN AT PRESENT IN PRESENTING THE CELEBRATED

CHAMPION STALLION

COMMODORE MAMBRINO

TO the breeders of Jackson and surrounding counties, at the moderate fee of

\$20 For the Season

OF eight weeks from time of beginning extending to July 18th, 1890, making headquarters at Maj. Barron's, and two days of each week (Fridays and Saturdays) at Mr. J. S. Herrin's place, adjoining Ashland, known as the Applegate farm. The following is a limited outline of pedigree and description of the horse: COMMODORE MAMBRINO that was bred by Mr. Jonathan Owen, of Paris, Bourbon county, Ky.; foaled June 7th, 1873. He was sired by Dr. Herr's "Mebrio Patchen," a full brother to "Lady Thorne"—the fastest trotter and Queen of the Trotting Turf in her day—having met the famous "Goldsmith Maid" in six engagements, defeating her in each and every race, without the "Maid" being able to win a single heat. (See proof in "The History of the Horse.") COMMODORE's first dam was got by Downing's "Bay Messenger," by "Harpisus," by Bishop's "Hambletonian," by "Imported Messenger." Second dam by "Bertrand," by "Sir Archy," by "Imported Diomed." Third dam, a fine mare said to be thoroughbred, (which she was without any reasonable doubt) being owned by the late John Hutchcraft, who bred the dam of COMMODORE MAMBRINO, and in fact his breeding for generations (upon his dam's side) was directed by the excellent judgment of that intelligent gentleman, the honored owner of the famous "Bertrand."

—DESCRIPTION—COMMODORE MAMBRINO is a rich, dark bay in color, with slight white on each hind heel, measuring over 16 hands high; weight, when fat or in high flesh (Jan. 1, 1890), 1,372 lbs., in moderate condition, as at present, 1,250 pounds.
