The Wagon Road Project in Del Norte County.

The Del Norte Record of Aug. 21st has a long article upon the wagon road, from which it appears that the people of Crescent City and vicinity have not been very prompt to come forward with contributions to the fund that Del Norte county must give.

The Del Norte Record says: A number of Indian hunters lately killed twelve elk on what is called Ten Mile and Fiddle Creeks. The elk were seen in bands of twenty and thirty.

A glance at the announcements in this issue of appointments for public speaking in Southern Oregon, will show that the campaign has broken out vigorously and suddenly in our section.

Everybody should turn out to the political speaking in Houck's Hall to-night. It is seldom our people have the opportunity of hearing so able exponents of their respective parties.

W. C. Greenman made a trip to Linkville last week with a view to going into business there, and will probably make a purchase of the hotel of which A. P. McCarter is the present landlord.

Tom Cowan, from Canada, brother of John Cowan, of Roseburg, was drowned Aug. 10th. He was going from Gardner in a row boat, and how he met with the fatal accident is unknown.

Pres. Hayes is coming to the Pacific Coast, though he has not got the consent of the C. & O. Stage Co., to stop at the Sulphur Springs near Eagle Mills. Everybody says they are exhilarating.

J. H. Clayton, School Superintendent of Lake county, has appointed Chas. S. Moore, of Linkville, to examine applicants for teachers' certificates in the west end of the county. A good appointment.

A number of recruits for the cavalry company at Fort Klamath came up from San Francisco on the stage recently. They stopped at Mr. Dunn's until teams from the Fort arrived to take them out.

M. Mickelson has built a hay press on a new model of his own invention, and expects to have it ready for a thorough trial this week. If it works as well as he thinks it will, it will be a valuable machine.

Capt. Thos. Smith has recovered from the injuries received in the runaway accident so far as to be about on the streets again, and he will no doubt be able to attend the opening of the session of the Legislature.

Hon. W. W. Fiddler, of Williams creek, came up to Ashland this week for a visit of several days with his sister, Mrs. E. DePeatt. He finds our town totally transformed in appearance since his last visit, four years ago.

P. G. Strickland will begin the work of repairing the stage road this side of Roseburg this week, and will employ all the men he can obtain, in order to have the road in good condition before the winter weather comes.

Last week Col. Stone received a telegram to the effect that the Presidential party would not reach Redding before the 15th inst., but would be ready to take coaches there by that time "if they didn't change their minds."

Tom. Kahler, of Willow Springs, one of the former Academy students, was in town this week. It is reported that he is about to build a house for himself on the farm, and some folks suspect that he has an eye to matrimony.

J. S. Euhanks Jr. and Misses Millie Vining and Millie Russell represented the Ashland Council at the festivities of the Grand Council of Champions of Honor at Eagle Point last Friday evening, and report having had a jolly time.

Messrs. John Holton and Ira Chandler, of Langell valley, made a trip to Ashland last week. They report the crop of rye in their neighborhood to have turned out far better than was expected, although rye never fails to make good hay there.

James Thornton started yesterday morning for a tour of a portion of the Willanette valley, in the interest of the Ashland Wooden Mill Co., and will be gone about three weeks. Miss Addie Wilshire goes with him on her way to Portland for a visit with relatives.

Chandler & Richards have had bad luck at their saw mill this far. Their driving wheel broke again last week, causing them a serious loss. Mr. Chandler started for Roseburg Monday morning after another iron wheel, and they expect to have the mill running again in about two weeks.

The heavy weight of flour stored in one of the lower rooms of the Masonic building by Wagner, Anderson & Co. caused the large joists under the floor, 2 1/2 x 16 inches in size and but 14 inches apart, to crack and allow the floor to settle. The damage was repaired with the aid of jack-screws without removing the flour.

Monday last, the 30th of August, was the 27th anniversary of the arrival of a large train of immigrants in this valley. Among them were Maj. Lupton's party, Uncle Giles Wells', Robinson's, Beecher's, Herren's, and many others of the old settlers of our county, some of whom have taken their last long journey to a far-off land.

The Vancouver Independent of Aug. 26th says Gen. Howard, accompanied by Major E. C. Mason and Lieut. H. H. Price, 21st Infantry, has gone to Spokane Falls to locate, if practicable, a site for a new military post near the mouth of the Spokane river. If an available site is found and approved Camp Chelan and Fort Colville will probably be abandoned.

W. I. Nichols, Esq., came over from Yreka last Sunday, and is spending the week at home with his family. The nomination for District Attorney in Siskiyou county was not only sought by him, but was declined in convention, and only accepted upon urgent solicitation, but we look for him to make the campaign lively in Siskiyou when he takes the stump.

LAKE COUNTY.—Corlies Merritt, of the Tidings, will start this week upon a tour through the western portion of Lake county in the interest of our business, and will call upon most of our subscribers in that section, to inquire after their health, etc. We are making a general call upon our patrons to pay up, and trust they will respond cheerfully. A newspaper cannot be published without money, and when subscribers find it inconvenient to come and see us we are compelled to make a call upon them.

NOTICE.—All parties indebted to Eagle Mills by note or account are requested to settle the same by cash or grain within thirty days.

Mrs. S. A. FARNHAM, ASHLAND, Sept. 1, 1880.

Items from Sam's Valley.

School will open here soon, with Miss Maria Merriman as instructress.

There will be a grand bull at Obe Pankey's on the evening of the 4th. A lively time is anticipated.

Mr. Strickland is threshing his grain on the Sizemore place. He will have a good yield.

As "fate" will have it, a certain young man here will not be single long. He also intends to build him a domicile.

The brothers Pelton were at Eagle Point last Friday evening. They report the ball a decided success, and a very enjoyable affair.

One of the young men of the valley, it is said, has had a great deal of business of late at the meadows. He means "biz" and Wade (s) right in.

Johnny Pelton arrived at home last week from Fort Klamath, where he has been for sometime attending to Sizemore's stock. He left for Foot's creek on business in a day or two after his arrival.

ACCIDENTALLY SHOT.—Messrs. Jos. Scott and Miller, of Eden precinct, who were camping out for hunting and recreation in the mountains about thirty miles from Ashland, had their pleasure spoiled by an unlucky occurrence. On Monday evening Scott started from camp to go to a house not far distant after some coffee, and Miller started out with his rifle after game. Not far from camp the latter came upon a buck, and wounded it. The buck sprang into the brush and while searching for it Miller saw something move in the bushes forty yards away, which he supposed, of course, was the wounded buck. He fired at it quickly, and was horrified to find a man cry that he had shot.

He hurried to the spot, and found that he had shot his partner, who was returning to camp. The ball had struck Scott's right shoulder in front and, curving over the joint and tearing the cartilage, passed out at the back without injuring the bone. After seeing his friend to camp, Miller started for Ashland after a physician, and on Tuesday morning Dr. Inlow went out with him. The doctor reports that the wound is painful, but not very dangerous, although it may possibly leave the freedom of the shoulder joint a little impaired. The doctor left the wounded man in comfortable quarters at Samuel Bailey's camp on Jenny creek Wednesday morning.

REBECCA DEGREE LODGE.—On Tuesday afternoon and evening Hope Rebecca Degree Lodge No. 14, L. O. O. F., was instituted and officers installed by D. D. G. M., A. D. Helman. A large delegation from Ruth Rebecca Lodge of Jacksonville, came up to Ashland to assist in the ceremonies. Following are the officers: Mrs. M. J. Helman, N. G.; Mrs. J. Honck, V. G.; Mrs. E. Giddings, Secretary; J. D. Fountain, Treasurer.

The evening session was held rather late, and the Jacksonville visitors remained in town all night, but started down the valley next morning after an early breakfast. Much interest was taken in the organization of the new lodge, and a very pleasant social time is reported. The guests from Jacksonville were: K. Kubli and wife, F. M. Plymale and wife, F. Luy and wife, Frank Krause and wife, Mrs. Jno. Miller, Mrs. A. Davidson, Mrs. N. Fisher, Mrs. Solomon, Mrs. H. V. Helms and Coroner Schutz.

PROFUSE BEARING.—Our friend Coolidge remembered us yesterday with a quantity of the finest peaches, pears, plums and nectarines that grow in Oregon, among which were two bunches of plums which are a genuine curiosity. One of them, a portion of a bunch, which broke from a tree of small plums, was a perfect cluster of the fruit, and resembled an immense bunch of very large white grapes. The plums are of the variety called the Beeson Seedling. We are inclined to agree with Mr. Coolidge that no country can beat this for fruit.

AT CRATER LAKE.—A party of Ashland people, Oscar Phillips and wife, Mr. Stacy and wife, Misses Laura and Lena Anderson and Walter Phillips, visited Crater lake last week, and made the descent to the water. The party was hospitably treated by Lake county friends, and several parties at the Fort and at Linkville were arranged for their benefit. The Misses Anderson and Walter returned home yesterday, and the others came in last week.

FATAL ACCIDENT.—O. O. Roadman was killed at Myrtle creek on Monday last week, while engaged at work upon a new bridge at that place. At the time of the accident he was trying a heavy stringer from the old bridge, one end resting upon the ground and the other upon the structure. Mr. Roadman was standing on the ground and as the heavy eight-inch timber fell, it rebounded, striking him on the head, breaking the neck at the base, and crushing the whole skull. Death was instantaneous.

H. F. Phillips has the finest livery team in the country, a well-matched pair of handsome black horses, which he recently bought of Capt. Ferree in Lake county. They are a fancy team for a livery stable, and will probably be kept for extra occasions. This and the fine black span driven to the Linkville stage will make the handsomest four-horse team in the country.

The Ashland College opened on Wednesday with very encouraging prospects, fifty students being enrolled upon the morning of the first day, while others have signified their intention to enter within a short time. The institution begins the term with a full corps of competent teachers, and we look for its popularity and patronage to be greatly increased during the next school year.

TUNNELING THE KLAMATH.—The Crescent City Courier says: "A party is at present engaged at Happy Camp surveying a tunnel which will be about a quarter of a mile in length. When completed it is intended to turn the water of the Klamath river through this tunnel and thereby make a cut off, leaving about seven miles of the present channel bare, which is said to be very rich with gold. This is probably the most extensive mining enterprise ever begun in this county."

C. of H. PICNIC.—The convention of Champions of Honor at Eagle Point last Friday was quite well attended, and a pleasant occasion for the members of the order. The picnic was held in McDaniel's grove, near town, where addresses were delivered by A. C. Jones Esq., of Jacksonville, and a Mr. Sherrell. After a basket dinner, and the transaction of business of the Grand Council, a ball was held in Poole's hall, at which 75 tickets were sold.

Messrs. Coolidge and Drake returned on Monday from a hunt of several days about Ashland Butte, and report the deer scarce in that vicinity than they ever knew them to be before. They were encamped at the partridge about five miles this side the butte during the storms of last Saturday, and say that some snow fell, so we may safely say that every month of this year will have witnessed a snow fall in the mountains of this neighborhood.

READY FOR BUSINESS.—John Walters now has his bakery ready for operation, and will begin business to-morrow (Saturday) morning. He will have fresh bread every morning, and will serve customers at their houses, if desired. Give him a call.

FLOUR AND WHEAT.—We are now selling flour at the Ashland mills at \$20 per thousand, and are paying 80 cents per bushel, cash, for wheat.

WAGNER, ANDERSON & CO.

The Price of Wheat. The bountiful harvest in both this country and Europe will no doubt cause wheat to rule very low this season, but this will not lessen the demand for the Oregon Kidney Tea, as every man or woman who has a headache or any trouble with the kidneys or urinary organs, will try this well known remedy even if wheat should be only 50 cents per bushel. Sold by all druggists.

BORN.

BURK.—In Ashland, August 31st, 1880, to the wife of J. R. Burke a daughter.
