STAGE ROBBERY.—The Yreka Journal of last Saturday says: The Weaverly stage was robbed last Wednesday, about 7 or 8 miles above the Tower Horse having been stopped by one man pointing a gun at the driver. The highwayman went through W. F. & Co.'s box, without getting anything worth mentioning, and also rifled the mail, from which he probably made a good haul, as considerable gold dust is shipped by registered letters from Weaverly. The officers are after the robber, and it is believed he will be captured.

AN UGLY FALL.—On Monday night last W. C. Greenman met with an accident which resulted painfully but, fortunately, with no very serious consequences. He arose in his sleep and walked through a window at the head of a long stairway in the dwelling house of the Tolman farm, where he now resides, and fell to the bottom of the stairs, receiving severe bruises and a painful cut upon the back of the head. The shock of the fall was so great that he remained unconscious for nearly an hour afterward, and it was feared that his injuries were very serious, but he is now able to be about again, and will be as well as ever in a few days.

Even Senators will differ. L. APPELATE. Ashland, Or., Sept. 4, 1880. EARLY DEATH.—On Saturday last, Henry Elmer McCord, an adopted son of Eber Emery, aged about twelve years, died at Eagle Point, of inflammation of the bowels, after a brief illness. The little fellow was exceptionally bright, and was a general favorite, and by Mr. Emery and wife, who took him into their home nine years ago, his loss is felt as keenly, perhaps, as though he were their own son.

The burial was in the Ashland Cemetery on Monday morning, and a number of people from Eagle Point drove over with the funeral. Elmer was a member of the order of Champions of Honor, and the Council at this place intended to assist in the burial services, but some misunderstanding in regard to the time prevented.

LECTURE ON DRAWING.—Prof. Royal's informal lecture on drawing in the College building last Monday evening was very interesting, and gave to most of his auditors new light upon the subject. He dwelt at length upon the importance of the study, as a training for the eye and hand, and to everyone, and cited the fact that in the public schools of the eastern cities, as well as in San Francisco and Portland, drawing is considered as essential a branch of general education as writing.

Some of the principles of designing were explained and illustrated, to the pleasure of all present. The Professor will organize an evening class if a sufficient number besides students of the school wish to receive instructions. During the evening a quartette, Prof. and Mrs. Rogers, Miss Scott and Will Willis, gave a beautiful song, and Miss Scott sang a solo, which was very fine and received much praise.

WAGON ROAD CO.—The Crescent City Record says: J. K. Johnson, J. G. Wall, Horace Gasquet, L. F. Cooper, and W. A. Hamilton have executed a certificate of incorporation under the laws of California for the purpose of building the wagon road. The corporation is styled the California & Oregon Wagon Road Co. The capital stock is \$100,000, divided into 1,000 shares. The officers elected for the first year are: J. K. Johnson, President; W. A. Hamilton, Secretary; and J. G. Wall, Treasurer; and these officers, together with L. F. Cooper and H. Gasquet of Del Norte county, and J. N. Nunan of Jackson county, and Chas. E. Hughes of Josephine county, compose the Board of Directors for the first year.

The plan is to organize and issue stock to the parties who have subscribed, and then ask capitalists and those having an interest in the enterprise, to take a portion of said stock of their lands, so as to enable them to speedily complete the road.

LOST IN LAKE COUNTY.—The 'Lakewood' papers of last week brought the intelligence that J. Venator, an aged farmer of Goose Lake valley, was lost on the "Desert," and in all probability had perished or would perish before aid could reach him. His horse was found near Juniper mountain by A. W. Long, who also traced the footprints of a man for some distance, and found evidence that he who left the tracks had been digging in the ground in search of water. Miles and miles are frequently traveled on this desert without being able to procure a drop of water, and it was evident to Mr. Long, being familiar with the peculiarities of that singular waste of barren territory, that the aged rider had here allowed his horse to escape in an effort to quench his burning thirst. From this point the foot-marks were followed a short way, when it was discovered that he had reclined in the shade of the sun-parched sage, probably to rest. From here the trace of the lost man was indistinguishable and Mr. Long returned home. A party at once started from Lakeview to search for the lost man. At last advices from Lakeview he had not been found.

To the People of Jackson County.

The committee to whom was delegated the collection of subscriptions to the Crescent City Wagon Road would inform the citizens that something over \$4,000 has been subscribed, and to complete the sum we agreed to give Messrs. Gasquet, Wall and others (\$5,000) we are still lacking \$800. In the above \$4,000 the committee has included about \$400 already subscribed by a few of the people in Ashland.

The committee, as instructed, interviewed the County Court in regard to the levying of a special tax, but found it could not be done, the statutes of Oregon being very explicit in the matter of taxing the people to build roads, bridges, etc. If the road were in Oregon, and the people wished to tax themselves for this particular purpose, it could be done, and each would have to pay his share. Learning this, we again solicited subscriptions, with the result stated.

Josephine county is ready at any time to perform her part of the agreement, and pay \$3,000, while her taxable property will aggregate only about a quarter of a million dollars. We have positive assurance from Messrs. Gasquet, Wall and associates that the road will be completed in good order for the spring goods to come by way of Crescent City, thereby saving to farmers, mechanics, and all citizens, thousands of dollars in freight charges alone.

And now, Gentlemen of Jackson county, shall it be said that, with a property valuation of \$1,250,000, we, the originators of this enterprise, cannot raise the small sum of \$5,000, when our sister county, Josephine, with less than one-fifth the property, can raise for the purpose \$3,000?

Mr. Nunan, one of the committee authorized to act, will call personally upon the people of Ashland, Phoenix, and the whole of the middle and upper portion of the Valley for subscriptions; and we think that when the road is completed the advantages and benefits derived therefrom will be equally shared by the whole people of Jackson county, regardless of section or locality.

COMMITTEE ON C. C. W. R. Act Relating to Homestead Settlement. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That when any lands of the United States shall have been entered and the Government price paid therefor in full no criminal suit or proceeding by or in the name of the United States shall thereafter be had or further maintained for any trespasses upon or for or on account of any material taken from said lands and no civil suit or proceeding shall be had or further maintained for or on account of any trespasses upon or material taken from the said lands of the United States in the ordinary clearing of land, in working a mining claim or for agricultural or domestic purposes or for maintaining improvement upon the land of any bona fide settler or for or on account of any timber or material taken or used by any person not having fault or knowledge of the trespass or for or on account of any timber taken or used without fraud or collusion by any person who in good faith paid the officers or agents of the United States for the same or for or on account of any alleged conspiracy in relation thereto: Provided, That the provisions of this section shall apply only to trespasses and acts done or committed and conspiracies entered into prior to March first, eighteen hundred and seventy-nine: And provided further, That defendants in such suits or proceedings shall exhibit to the proper courts or officer the evidence of such entry and payment and shall pay all costs accrued up to the time of such entry.

Sec. 3. That the price of lands now subject to entry which were raised to two dollars and fifty cents per acre, and put in market prior to January, eighteen hundred and sixty-one, by reason of the grant of alternate sections for railroad purposes is hereby reduced to one dollar and twenty-five cents per acre.

Sec. 4. This act shall not apply to any of the mineral lands of the United States; and no person who shall be prosecuted for or proceeded against on account of any trespass committed or material taken from any of the public lands after March first, eighteen hundred and seventy-nine shall be entitled to the benefit thereof.
