There was, as might be expected, an entire unanimity of sentiment as to the existence of the evil and a desire for its removal. The subject was dealt with thoughtfully, and with an entire absence of passion. The result was the unanim ous adoption of resolutions which must commend themselves to the endorsement of every citizen of the State.

These resolutions are not based upon race prejudices, nor do they propose impracticable measures. Opposition to the Chinese is declared to be on the grounds that the Chinese become political factors tion, and never fails to effect a cure. in the economy of our Government; that Price 25 cents. The Sacramento plan for removing the evil is a comprehensive and practical one, and is so well thought out and delineated that we copy it entire, as follows: Resolved, That the people of the city of Sacramento, here assembled in mass meeting, unite in forming an organization, to be known as the Citizens' Anti-Chinese Association, of Sacramento, and that a committee on permanent organization be appointed to report to an adjourned meeting to be held on the 18th inst,

Resolved, That we do advise such committee to report a system which will provide a plan whereby a permanent com-mittee shall be appointed to go out among SAFE. direct employers of Chinese and among the business men, farmers and manufacturers of this city who, directly or indirectly, handle goods made by Chinamen. These committees shall use their influence to have such Chinese employes replaced by white workers, and such Chinese-made goods replaced by those made by white labor. We would further advise said committee to provide for an intelligence bureau where white domestics may be secured without cost to employer or employes, also a bureau of information where white women who are prepared to do laundrying may register their names for the information of those who desire to give them employment in preference to Chinese washhouses. We firmly believe that a system such as is referred to in these resolutions, if made general, throughout the State, is the most effective and only present remedy against the Chinese evil, and we therefore earnestly recommend the early calling of a State convention at Sacramento to devise ways and means for a more complete solution

of a very important subject. When all classes in a community unite such a movement as is outlined above:

bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positivein such a movement as is outlined above; and when there is no talk of compulsion and no undue haste that community will soon reduce its Chinese to a harmless For sale by J. The Sacramente plan is worthy of adoption by the whole State.

The White Indians.

An intelligent Indian, recently, in re- Ashland, Or., July 30, 1885. porting the marriage of an Indian octoroon to a white man said: "If this process goes on, we will soon have the whitest race of Indians you ever did see.' The accomplished daughter of the old missionary, Dr. Robertson, married a full blood Creek, says the Milwaukee Sentinel. Her sister has secured money at the east to establish a seminary among the full bloods, and it has been a question where the seminary could be located to meet the object aimed at. Parties stepping from the train at Vanita, within the ping from the train at Vanita, within the Cherokee Nation, the only railroad crossing in the Indian territory commonly ask: "Where are the Indians?" On being told that those they see about them are Indians, they reply: "No, they are not Indians. They are white men."

By marrying an Indian maiden the white man secures all the rights of Indian citizenship. The "headright" of the girl helps the matrimonial contract. To hunters for land, those looking for wide ranges for cattle or agriculture, the temptation is very strong to take this short cut to get an extent of soil they could never hope to secure in any other

The encouragement given to the whites on the part of the marriageable Indian females is quite observable. They think by marrying white men they gain socially and have a prospect of an easier and better cared for life. And they think ness is meant. rightly. In all depressed civilizations women have a hard time of it. The Indian men do not like this constant raiding through their land and capturing the most attractive of their race, whom they woo and wed, but they can not help themselves, and retaliate by stealing the affections of white girls and marrying them. White girls entering an Indian reservation of the contracting.

Dated this, the 27th day of November, 1885, at Big Butte, Or. ing through their land and capturing the tion are soon picked up; not so often by full blooded Indians, but after the process of inter-marriage has commenced, not so seldom by half breeds, quadroons and octoroons.

White persons who marry into Indian blood almost invariably remain on Indian soil. The white man, in defense of Indian ideas of communal interests and Indian ideas of community dian questions as related to the whites, E. V. CARTER, Sec'y. becomes more intensely an Indian than the Indians themselves. I think the fiercest defenders of the tribal system are white men who, by marriage, have become Indian citizens and are making money out of it. The large crops on Indian lands are invariably raised by white men. Four-fifths of the mechanics are each month. white men, brothers-in-law to the Indians. So on both sides the process of dilution of Indian blood goes on until it becomes very thin, while Indian habits and Indian characteristics still remain.

The common notion among Indians is that Indian blood never runs out, and that Indian blood never runs out, and that, wherever the slightest trace of it standing are cordially invited to attend. can be found, there the fullest rights of land and privilege follow. For a man Robt. Taylor. Secretary. who has one-sixteenth or one-thirtysecond part of Indian blood the claim for his right as an Indian is asserted as strongly as for the full blood. Liver, Kidneys, Stomach and Spleen. This purely vegetable pre-paration, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, there-fore, the best preparation. fore, the best preparatory medicine, whatever the sick ness may prove to be. In all common diseases it will, un-assisted by any other medi-

cine, effect a speedy cure. The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful more will give relief. If taken occasionally by pa-tients exposed to MALARIA, will expel the poison and protect them from attack. A PHYSICIAN'S OPINION.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system.
