

Penney thinks that the state of Oregon should go into the business of building railroads, but as for wagon roads, he can't see any use for them.

The Vilas reductio works are again in operation and the post-office at Willow Springs has been snuffed out. Vilas seems to have a special grudge against Southern Oregon. Give us some more "retrenchment and reform."

Prof. J. C. Willis, formerly of this place, is a candidate for school superintendent in Lake county. Mr. Willis is fully qualified for the position and the people of Lake county would do well for their educational interests to elect him.

Rev. J. R. N. Bell, of Douglas county, having declined the nomination of superintendent of public instruction, on the Democratic ticket, the state central committee has nominated Napoleon Davis, of Washington county, in his stead.

The Republicans followed the lead of the Democrats and placed in nomination two excellent men for county commissioners. Henry Amundson, of Eden precinct, and D. L. Carlton, of Little Butte, are citizens in whose hands may be safely trusted the management of the county affairs.

Judge Webster's course and record during the past two years has shown the wisdom of the choice made by the people of this district in his election. The handsome majority given him two years ago should be repeated now. Let it be shown that ability, integrity and faithfulness are appreciated and sustained by the people of Southern Oregon.

Republican, Democratic and Prohibition candidates in Marion county are traveling together for joint discussion. The Democratic state candidates published a challenge to opposing candidates to meet them in joint discussion, but when the prohibitionists accepted the challenge, they backed down and pleaded "lack of time."

W. M. Colvig, the Democratic nominee for district attorney, has been speaking at different places in the district, and the people find him to be an easy and forcible talker. He has had much experience before public audiences, both of political and other character, and is abundantly able to demonstrate his ability.

Dr. E. P. Geary, of Medford, has been nominated for State Senator in this county, and it would certainly be to the credit of our county to elect him. He is a young man of exceptional character and recognized ability, is a son of one of the pioneers and most respected citizens of Oregon, and is earnestly interested in the development of the Rogue River valley.

W. C. Myer, whom the Republican county convention placed in nomination for the legislature, is one of the best known citizens and pioneers of Jackson county. He is not a politician and has never before been a candidate for any office. He is identified with the interests of Southern Oregon by the ownership of a house and business there, and is eminent by a safe and reliable man with whom to entrust the responsibilities and duties of the office for which he has been nominated.

There is a prospect of the establishment of a branch of Pasteur's laboratory in New York to which Americans in danger of hydrophobia will hereafter resort, instead of traveling to Paris. Dr. Mott, one of the most noted surgeons in New York, has been to Paris to study Pasteur's method, and brought back a stock of rabies virus, and inoculated a rabbit. The rabbit died on Saturday. Next day Dr. Mott inoculated another, and is now prepared to start a hospital as soon as they find quarters.

Wm. S. Bissell, President Cleveland's former partner, who has fallen to the president about his marriage, is reported as saying that admirers of the administration who will undoubtedly wish to make wedding gifts may as well take notice now and hereafter that anything sent to the White House in the way of a token of regard in the form of silverware, bric-a-brac, etc., will be returned to the donors. Should the president accept any presents they will be from persons who are personally acquainted with him, and who are personal friends to himself or bride. He has established a rule that he will not accept presents from strangers.

Butler wasn't very consistent in his speech last Saturday evening. He first charged that there hadn't been "honest and sufficient effort" on the part of Oregon's delegation in Congress to secure appropriations for river and harbor improvements, and then attempted to ridicule Herrmann for the latter's energetic work in introducing bills and seeking appropriations for every little stream in the state. This little inconsistency certainly displays a lack of shrewdness, if nothing worse; and then it's a little rough on the old Democratic delegation, Whitaker, Slater and Grover, to assert that there never has been "honest and sufficient effort" to secure appropriations. Butler seems rather "fresh" in the business, and should be given a little private training by the older hands.

The Democratic speakers last Saturday evening seemed to think that the Columbia river basin is the whole of Oregon. They evidently prepared their speeches for the Willamette and the northeastern part of the state. They talked gloriously of the millions of dollars that should be expended upon the Columbia river, but did not so much as intimate that anything was needed in any other part of the state. Indeed, Butler, the candidate for Congress, even went so far as to condemn Herrmann for his effort to obtain appropriations for the improvement of smaller streams, such as Link and Wadsworth in Klamath county. Some good friends should hint to Butler that the people down this way appreciate successful efforts to improve their local channels of commerce quite as much as big promises about how a new candidate would clean out the obstructions in the Columbia in a year or two, or build a railroad around the Cascades by state funds.

WHAT THEY SAID

On Saturday evening last Hon. Sylvester Penney, candidate for Governor, and Hon. N. L. Butler, candidate for Congress, on the Democratic ticket, addressed an audience at Myer's hall in this place. Following is a brief abstract of the chief part of what the first speaker, Mr. Penney, said:

LADIES AND GENTLEMEN:—The nomination for Governor of Oregon came to me unbidden and unthought of. I am not a public speaker—have been a business man and editor most of my life. Will not attempt any eloquence but will endeavor in plain talk to present my views upon the questions of interest in this campaign. One of the first in importance is that of transportation. No state or nation can be prosperous with an unimproved commerce, and more than a high of the human body could be healthy and sound with its arteries tied. The arteries of commerce are obstructed in this state today. The Columbia river is obstructed by huge obstructions to navigation. Wheat transportation from The Dalles to Portland, 87 miles, costs 125 cents per bushel, while from Chicago to Liverpool, four thousand miles, it costs for a bushel. This should not be. The corporations that control traffic on the river should be taken in hand and controlled by the state. A railroad around the Cascades could be built by the state for about \$300,000, and in its operation the state would get back in tolls what it spent. This was the experience of New York with the Erie canal—the state in nine years was reimbursed chiefly with the tolls for her expenditure of \$90,000,000 in building the canal. Free navigation of the Columbia would be a great boon to the state. If you elect Mr. Butler for Governor he would get a place on the river and harbor committee and secure money enough from Congress to sweep the river clear of obstructions in two or three years. Oregon has always been under the control of corporations that have sucked the lifeblood from her veins. I have always fought the corporations, and if elected Governor, as I expect to be, will still be found battling with them. The Chinese question is of paramount importance at this time. The Chinese are an uneducated and unimproved race, and should be driven out of the country. The Burlingame treaty should be abrogated. It has been stated that the Chinese form one sixth of the population of California, and pay one-fourth of the taxes. They are a curse to the country, supplanting and keeping out free labor. As to the meeting over which I presided in Portland, representing the Chinese, and my speech, I would explain that I went to the meeting to help maintain law and order, to restrain the agitators from violence, and I did so. That was my object in writing the letter which preceded this meeting, and in accepting chairmanship of this meeting, as solicited. I stepped in to stop the wilful breach between the agitators, who had begun to regard the Chinese as all friends of the Chinese, and the capitalists, who regard the anti-Chinese as all communists. I succeeded, and the excitement died away. My opponent, Mr. Cornelius, I have known for thirty years. I respect him as a man, but do not like his record. He opposed taxation of national banks, voted for the bill to tax Portland \$3,000,000 to build the Willamette river bridge, and voted against Ben Fay's bill to cut out of every Chinaman. He once presided at a Know-nothing convention. His outrage and insulted Chinese manhood by his ill-considered speech. If elected I will endeavor to so conduct my administration that you will not be ashamed of having to elect me, and will also endeavor to see that Oregon by the end of my term of office.

Mr. Butler, Democratic candidate for Congress, talked at considerable length on Saturday evening. He has frequently and eloquently spoken at public meetings by cooperation with W. D. Fenner, who has twice before made a similar campaign as a candidate for Congress. He might not have been so successful when here. He lacked much of giving any clear impression of his position on any public question.

Wednesday afternoon Cal. T. R. Cornelius, Republican candidate for Governor, spoke to an Ashland audience at Myer's hall. Following is an abstract of the chief points of his speech:

FELLOW CITIZENS OF OREGON:—Like my opponent, I can truthfully say, that I am not a public speaker. I can say, too, that my nomination was unlooked and unexpected. When I started out in this campaign I intended to meet best I could present issues. I did not intend to go over again the old issues that were left behind—the old issues that centered in, great-out-of-or-was-called-by-the name of the White House in the way of a token of regard in the form of silverware, bric-a-brac, etc., will be returned to the donors. Should the president accept any presents they will be from persons who are personally acquainted with him, and who are personal friends to himself or bride. He has established a rule that he will not accept presents from strangers.

Butler wasn't very consistent in his speech last Saturday evening. He first charged that there hadn't been "honest and sufficient effort" on the part of Oregon's delegation in Congress to secure appropriations for river and harbor improvements, and then attempted to ridicule Herrmann for the latter's energetic work in introducing bills and seeking appropriations for every little stream in the state. This little inconsistency certainly displays a lack of shrewdness, if nothing worse; and then it's a little rough on the old Democratic delegation, Whitaker, Slater and Grover, to assert that there never has been "honest and sufficient effort" to secure appropriations. Butler seems rather "fresh" in the business, and should be given a little private training by the older hands.

The Democratic speakers last Saturday evening seemed to think that the Columbia river basin is the whole of Oregon. They evidently prepared their speeches for the Willamette and the northeastern part of the state. They talked gloriously of the millions of dollars that should be expended upon the Columbia river, but did not so much as intimate that anything was needed in any other part of the state. Indeed, Butler, the candidate for Congress, even went so far as to condemn Herrmann for his effort to obtain appropriations for the improvement of smaller streams, such as Link and Wadsworth in Klamath county. Some good friends should hint to Butler that the people down this way appreciate successful efforts to improve their local channels of commerce quite as much as big promises about how a new candidate would clean out the obstructions in the Columbia in a year or two, or build a railroad around the Cascades by state funds.

Another course of mine to which Mr. Penney objects is that against the anti-Chinese resolution introduced by Senator Fay. [Here he read the resolution from the Journal.] I said at once that there was something about it that I did not fully understand, that it appeared to me to involve the old question of state vs. federal rights, and I wanted time to examine it. I moved that one hundred copies be printed as a common school measure. Fay, Mosher, Stout, and the others of the fifteen, voted me down and pressed the resolution to an immediate vote. I, of course, voted against it.

For twenty years I was called upon to act as one of the representatives of the people of Oregon in their legislature, and I take it as a source of satisfaction that in the record of this whole period, Mr. Penney can find but three votes of mine to which he can raise objection. Mr. Penney has told you that he respects me as a man but doesn't like my record as a politician. I can say the same of him. He and I have always differed widely in our political views in the past, and we differ to-day. He wants the state to build a railroad around the Cascades.

PROPRIETARY MEDICINE

A Pretty Woman's Secret. Fear of discovery, when she resorts to false hair and dyes, is a source of constant anxiety to her. The reason is from whom she most desires to hide the want of her charms are the one most likely to make the discovery. Let her use AYER'S HAIR VIGOR, and not only will her hair appear where the scalp has been denuded; and locks that are turning gray, or have actually turned white, will return to their pristine freshness and brilliancy of color. AYER'S HAIR VIGOR cures.

HEREDITARY WEAKNESS. GEORGE M. THOMAS, TEXAS, was born at 23 years of age, as his ancestors had been for several generations. One of his forefathers started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous. AYER'S HAIR VIGOR cures.

AYER'S HAIR VIGOR is a safe and reliable preparation for the cure of all cases of itching of the scalp, and restores to its original color hair that is turning gray.

Scalp Diseases. Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and itching of the scalp, and restores to its original color hair that is turning gray.

A Toilet Luxury. AYER'S HAIR VIGOR is to equal, it is refreshing, healthy, and pleasant to use, and has the effect of making the hair soft, pliant, and glossy.

AYER'S HAIR VIGOR, PREPARED BY DR. J. C. AYER & CO., LOWELL, MASS. Sold by all Druggists.

REPUBLICAN COUNTY CONVENTION. Republican county convention of Jackson county met at Jacksonville, May 15, 1886, to nominate candidates for county offices.

N. Langell was chosen chairman and H. T. Claitor and J. H. Griffith secretaries pro tem.

As committee on credentials the chairman appointed W. H. Atkinson, J. W. Stanley and W. W. Cardwell, in order of business. Robt. Taylor, J. S. Howard and W. B. Kincaid, representing the nominees to the life and character of Col. Cornelius, and finally warmed up into a regular, old time campaign drubbing of the Democratic party that "bragged down the house," Democrats and all.

The order of business adopted specified that county nomination be held for by ballot, a majority of votes to elect.

The committee on resolutions reported the following, which were adopted with out a dissenting voice.

Resolved, That the Republicans of Jackson county in convention assembled: First, We endorse the platform of principle, good government, and honest business for the nominees for state officers by the recent Republican state convention held at Astoria.

Second, We cheerfully approve and ratify the nominations made by the Republican state convention of the nominees for the offices of circuit judge and district attorney, and the Republicans of Jackson county take this opportunity of expressing their gratitude for the non-partisan and independent action of such delegates who were in attendance at the convention.
