Bring Flowers.

All who will be kind enough to contribute flowers for the exercises of Decoration Day are requested to leave them at the headquarters of Burnside Post G. A. R., in Masonic hall, early on Monday morning. Bring all the flowers you can spare; there is no danger of having too their stage to Jacksonville again.

Concert To-morrow Evening. The Mendelsshohn society of the Ashland public schools will give a public concert at Myer's hall to-morrow evening, Saturday, May 29, at which a choice crosswalks for the town in good style programme will be rendered. The society has been at considerable expense for new music and other necessities during the school year, and an admission fee of 25 cts will be charged to help meet this. The concert will be well worth it, valley. and more, and there should be a crowded house.

Fire at Phoenix.

On Monday afternoon last, the substantial dwelling house of Mr. L. A. kose, on the county road just north of Phoenix was entirely destroyed by fire, together with nearly all its contents. At the time the fire was discovered no one was in the house except the children. Mr. Lose was not far distant, however, and, together with others who heard the alarm, has efed to the house, but the fire spread so rapidly that nothing was saved but an organ and a trunkfull of clo.hing. The origin of the tire is unknown, and as the flames were first seen in a room some distance from that in which are had been ke, t, it is a mystery. The house and contents were insured for fered unusual misfortune of late, and h s the cenume sympathy of the whole community in his troutes.

"Found Dead" at Linkville.

Our Linkille correspondent sends the following under date of May 25th: Dr. J. Ash on, a physici in and teach er of petimatship, who came to this county hast wither from Scott Bar, Cal., was found dead in bed at Smith's hotel at 1:30 P. M. to-day. It was well known that he used chloral hydrate and morphine in large quantities, and frequently he would remain in his room for a day or two at a time. Last evening he ate supper and then went back to his room. This afternoon Mr. Humphrey, the hotel clerk, knocked at his door, and receiving no response looked over the transom and discovered his death. On a table near the bed were found a bottle containing a solution of chloral and eight one eighthounce morphine vials, six of them empty, the other mopened. A coroner's jury was summoned and rendered a verdict of death from an overdose of morphine or chloral. It is not known whether he took the drng with suicidal intent or not, but he has more than once attempted to take his life in the past. Dr. Ashton leaves a wife and two children, from whom he had been separated for a ing Co. number of years. They are thought to be living in Oakland, Cal.

To Survey Crater Lake.

Capt. C. F. Dutton, of the U. S geological survey, will send a party to Crater lake this summer to explore the mysteries of that region. He expects to have all his arrangements complete during the coming month, and to begin actual work about July 1st. Owing to the altitude of the lake it will not be practicable to be in any sooner on account of snows and scarcity of grass for the animals used for transportation. Capt. Dation will have a large boat and some skills transported to the lake and lumber will be taken there to build pontoons or seews for platforms from which to take soun lings. Stations will be fixed around the lake by means of which soundings can be taken on a network of lines so as to ascertain the general configuration of the bottom of the lake Professor Condon, of Eugene, will be conferred with in regard to the scientific work of the survey. Wm. G. Steel, of this city, who has been so prominently connected with the effort to have the lake and surrounding country set aside for a national park, will be connected with the party. He is now in correspondence with the railroad and stage companies endeavoring to secure special rates for parties wishing to visit the lake. It is expected that quite a number of people will make a trip to that section this season. - Oregonian.

Importation of Fine Cattle. Mr. L Stacy, who went East about a month ago to purch se some fine cattle for himself and others, reached Ashland last Wednesday morning with a carloid of full blooded Herefords-the first ever brought to Southern Oregon. They were purchased at the famous Hereford breeding farm of T. L. Miller in Will county, Ill., about 45 miles from Cui cago. Mr. Scacy has entered into agree- by them.
