Population of the United States.

(Cincinnati Volksblatt.) By the excess of births over the deaths the population of the United States is annually increased by 2 per cent, according to the most careful computation. In accordance with this, the number of inhabitants can be ascertained with tolerable accuracy, although a general census is taken only every ten years. To the figures obtained by the census, 2 per cent annually, including the number of immigrants in the course of the given year, is to be added. This estimate indicates that at this moment the population of the United States has already exceeded the sum of 60,000,000. The amount exactly computed reached, on July 1st of the current year, the sum total of 60,025,-000, and the probability is that these figures fall somewhat below the reality, inasmuch as the immigrant report it is well known, is never entirely complete. At the time of the last census, made July 1, 1880, our population amounted to 50,155,783, so that for the six years which have since elapsed an increase of nearly 10,000,000 is to be noted. There are only three countries whose population exceeds that of the United States numerically; namely, Russia, British India and China. All the rest fall far behind the United States in the number of their inhabitants. Germany has nearly 15,000,000 less; France, Austria, Great Britain and Japan have over 20,000,000 less, and among the remaining states there is not one that could exhibit even half as many

LIVER REGULATOR

Liver, Kidneys, Stomach and Spleen This purely vegetable pre-paration, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small not unpleasant, and its virtues undoubted. The Tailoring Business
