How to be Rid of Colic. People afflicted with colic, liver, indigestion or biliousness, should know that this is done, not by the argument, but by the remedy. It is "Nothing will reach the liver and spleen except colic; could one get something just as good, even better, would use it." That something is Simon's Liver Regulator. It is equal in power to colic, without any of its injurious effects.

EVERYTHING GOES WRONG.

In the bodily mechanism when the liver gets out of order, Constipation, dyspepsia, contamination of the blood, imperfect assimilation, are certain to ensue. But it is easy to prevent, and to remove their cause, by a course of Hostetter's Stomach Bitters, which stimulates the bilious organs and regulates its action. The direct result is a disappearance of the pains, head aches, and indigestion, and a shoulder blade, the nausea, headaches, yellowness of the skin, furred look of the tongue, and sour odor of the breath, which characterize liver complaint. Sound digestion and a regular habit of body are blessings also secured by the use of this celebrated restorative of health, which imparts a degree of firmness to the system, is its best guarantee of safety from malarial epidemics, Nerve weakness and over-tension are relieved by it, and it improves both appetite and sleep.

Readers, we have among us now a catarrh specialist, and for the treatment of all catarrhs, whether of the urinary organs and urethra, which are of all forms, and all manner of appliances for deformities, that may never visit you again. The doctor will doubtless receive many calls. Visit the doctor while you have a chance. His explanation will convince you at once. It is useless for us to say anything further as regards his operations, which are recommended to us as being simply the best of the business. The doctor has employed as an assistant, Dr. F. H. Young, from Toronto, Canada.
