

ASHLAND TIDINGS.

FRIDAY NOVEMBER 5, 1886.

STATE AND COAST.

The Oregon City public schools instructed 250 children.

A California capitalist talks of establishing a paper mill at Pendleton.

The China town in Los Angeles was destroyed by fire on the 24th. Loss \$20,000.

Many of the prominent ladies of Baker City have petitioned the city council to suppress the houses of ill-fame.

Knights of Labor Assembly 2299 of San Francisco, has passed resolutions in sympathy with the condemned anarchists.

And now comes the startling intelligence that Corvallis is to strike the Willamette at that place. This is probably a paper bridge like the one thrown across the river at Albany.

Mr. B. Goldsmith, who has just returned to Portland from Coeur d'Alene, says that Eastern capitalists recently offered \$1,200,000 for the Baker Hill and Sullivan mines there, but the offer was refused.

It would be impossible to find within the United States a finer lot of grains and grasses than is now on exhibition in the Immigration rooms. The entire exhibit of the Mechanics' fair was added recently. The rooms are now a veritable bazaar.

On the 22d inst, the schooner Anna Hermine was sunk at Port Blacklock, near Cape Oregon, on the Oregon coast, by striking a sunken rock. The schooner was loaded with sixty tons of sandstone taken from a recently developed quarry at that port.

The News says if the Oswego iron mines were not tied up by litigation they could be coming money for the company, and would give employment to hundreds of men. The demand for iron is greater than has been known in this country for many years.

Says the Salem Statesman of last Saturday: Frank C. Baker, state printer, will be here in the next week to set up for the state work. He expects to be here by November 20. He expects to be ready for work by December 1.

Mrs. Dr. Owens-Adair has been elected president of the Probation Star Publishing company, a temperance paper which suspended one week on account of financial difficulties. The Star is again on a solid basis and is issued regularly. Its subscription prices has been reduced to one dollar per year.

Albany Herald: Joseph Crabtree, who was lost in the mountains here while hunting was found on the Hill by a party of men that went in search of him. They found him about twelve miles back from the settlement, he having been lost five days without blankets or food, except as he procured it with his rifle.

The Seattle Post-Intelligencer says: A stick canoe in the Short Line from O'Brien's camp at Stuck Junction, yesterday, which will spare up in the mill a timber 24x24 inches, 112 feet in length. Such timbers find a market in China, where they are either converted into masts and spars or whip-sawn up into small timbers and often times into boards.

Labor is in demand in Salem, according to the Statesman, which says: "As an index to the healthy condition in which skilled labor in Salem is situated at present, this paper only cites the case of the carpenters. The carpenter work on the State House has fallen behind and it became necessary to increase the carpenter force there. After sifting the town from one end to the other, no carpenters were to be found and they had to be telegraphed for to Portland. In all other branches of skilled labor it is about the same way."

A syndicate has been formed which has purchased a track of land adjacent to the Southern portion of East Portland with a river frontage and railroad connections. This land will be used for a reclamation works, having no connection with the company already organized in like business. In addition to the reclamation works proper the company will engage in milling and refining. A number of eastern and San Francisco capitalists are interested in the project. Articles of incorporation are being prepared for filing with the secretary of state.

The Seattle Times of Oct. 23d says: Yesterday, down off Hay Island, the seals run by Mr. Meyers down in 18,000 salmon. This is the largest catch ever made by two seines upon Puget Sound. Several hauls were made by each seine. Seine No. 2 caught 5,380 salmon at one haul, and it is estimated that seine No. 1 had 20,000 salmon in it at one time, but the wiggling mass of fish burst a great hole in the net, and it was pursued up and all escaped but 3,000. Meyers is the more pleased at this success from the fact that all the fishermen believed the season to be over and he had been left with lots of cans and no fish. He made the attempt yesterday in the hope that he could secure enough fish to fill his remaining cans, and his success lends him to order 1,000 more cans, which he is confident he can fill. The last report is that a fine catch is being made today. Yesterday Meyers sold 8,000 fish to Levy's salting works. Up to date Meyers has packed 7,000 cases.

What a Wife Said.

Simply this and nothing more: It came from T. K. Bolton's store: Pleasant tasting, safe and sure, that Gum Tree (Eucalyptus) cough Syrup.

T. K. Bolton & Co would call the attention of their friends and the public to this excellent preparation, made in Australia and San Francisco, California, from the leaves of a peculiar variety of the Eucalyptus or blue gum tree of Australia. It has no sickening property to disturb the stomach, and is most reliable for curing coughs, colds, sore throat, whooping cough, bronchitis, croup and all other directions to consumption. Sold by T. K. Bolton, City Drug Store, agent for Ashland.

DE KELLON'S WORM TEA is entirely free from all Mercerial properties, can be given to the weakest constitution without danger, is palatable and easily administered to children, is mild in operation, and never fails to effect a cure. Price 25 cents. Sold by Chitwood & Son.

Lower Than Anyone Else.

GENERAL NEWS.

Daniel W. Stout, of Columbus, Ind., an old soldier of the war, has received notice that he has been granted a pension amounting to \$10,426.66 and \$72 per month. This is one of the largest pensions ever granted.

On the 1st inst, the oleomargarine law takes effect. It imposes a special tax upon dealers in oleomargarine and a tax of two cents a pound on all oleo found on the premises of any dealer on that day. Manufacturers of the stuff must pay a tax of \$900 per year, wholesale dealers \$480, retail dealers \$48.

The expenditures of the New York City Government in 1885 reached \$87,670,000. The total net ordinary expenditures of the Government of the United States, including interest on the public debt, never touched that figure until 1877. Even George's election should be welcomed by the tax payers of New York, rather than another term of the organized system of brigandage.

The civil service reformers in Indiana have preferred many charges against the democratic officials in that state, and Mr. Cleveland has sent copies of the allegations to the latter with a request that they make such explanations as they can. As election day is near at hand and as there is no law compelling a man to criminate himself, it is thought that it will be some time before the accused officials will make a full confession.

In the case of Marian Good, nee Wilcox, of Kirwin, Kansas, on appeal from the decision of the Commissioner of the General Land Office, the Secretary of the Interior has decided in accordance with former rulings of the department, that the marriage of a single woman who had made homestead entry, will not defeat her right to make final proof and receive title to the land. This decision reverses that of the Commissioner of the General Land Office, who held that a woman who makes a homestead entry and subsequently marries before completing the same forfeits her right thereby to acquire title to the land.

If the estimate of the National Bureau of Agriculture is correct, the yield of wheat in the United States this year is about 47,000,000 bushels. That is to say, the bureau computes the crop at 100,000,000 bushels greater than that of 1885, which yield amounted to a small fraction over 357,000,000. The wheat yield for the present year, therefore, has been exceeded only twice in the past six seasons. It was, indeed, equaled in only three instances in the history of the country—in 1880, 1882 and 1884. The country has increased in population to the extent of about 1,700,000 since last year, at the average rate of growth. After allowing for the amount necessary to sustain this addition to the number of inhabitants, there will still be a much larger surplus over home requirements for consumption and seedling than there was in 1885. The surplus will be available for exportation.

Col. H. H. H. of San Francisco, has written a letter to the United States Attorney relative to the wholesale landing of Chinese by writs of habeas corpus. It shows that he is utterly disheartened by the action of the courts in allowing them to land indiscriminately. He says it is well understood if the Chinese laborers or importers will pay the expenses of a writ of habeas corpus, their landing at this port will be guaranteed. It has been disclosed to the Customs officers by the statements made by such Chinese upon their arrival that before leaving Hong Kong and upon the payment of \$150, agreements to this effect have been made. The Surveyor and the force under him can furnish you proof of this. He closes as follows: "Unless you can suggest some remedy, I am forced to the conclusion that in the future the efforts to enforce the Chinese Restriction Act at this port will be vain. The time of the Customs officers will be wasted and their labors all in vain."
