#### . The Parent of Insomnia.

The parent of insomnia or wakefulness suppose he has some affection of the kidneys or neighboring organs. At times, is in nine cases ont of ton a dyspeptic stomsymptoms of indigestion are present, flatuach. Good digestion gives sound sleep, inlency, uneasiness of the stomach, etc. A digestion interferes with it. The brain | warm, is a common attendant. Blind, bleeding, and itching piles yield at once to the application of Dr. Bossnko's Pile Remely which are dimetic provided to be application. and stomach sympathize. One of the prominent symbons of a weak state of the gastrie organs is a disturbance of the great nerve entropot, the brain. Invigorate the stomach, and you restore equilibrium to the great center. A most reliable medicine for the purpose is Höstetter's Stomach Bitters, which is far preferable to mineral sedatives and powerful narcotics, which, though they may for a time exert a soporific influence upon the brain, soon cease to act, by J H Chitwood & Son. and invariably injure the tone of the stomach. The Bitters, on the contrary, restore activity to the operations of that all im portant organ, and their beneficent influence is reflected in sound sleep and a tran-ouil state of the nervous system. A wholesome impetus is likewise given to the action of the liver and bowels by its use.
