It is said that the light from an electric light tower in Devenport, Ill, falls full upon a flower garden about one hundred feet away, and during the past summer the owner had observed that lilies, which have usually bloomed only in the day, have opened in the night, and that morning glories have unclosed their blossoms as soon as the electric light

fell on them. New Use for Criminals in India. It is proposed in India to petition the state to turn over the 300 or 400 criminals annually condemned to death to an authorized medical commission for the purpose of experimentation, primarily with a view to determine the transmissibility of cholera from one man to another. As the subjects of the experiments, if they escape the disease, are to receive a full pardon, it is supposed they will willingly submit themselves to the proposed

Preparing a Report. Mr. C. B. Carlisle is engaged in the preparation of a report of the work accomplished by the state board of immigration during the past twenty months. At the last regular meeting of the board office with a handsome majority. an outline of the report was read. Several suggestions were of ere i by the members, and a revised report is being prepared by the secretary embodying the suggestions made. The report is being prepared in the most concise manner possible. The entire work done by the board for the period named will be incladed in a very condensed form, but no important fact or figure omitted. Gov. Moody, in his retiring message to the legislature will embody this report of the board so as to clearly set forth what

### Wagon Road Grants.
