Bonham regards the competition from Indian wheat as likely to grow more and more severe, and the cultivation in India is likely to increase considerably.

He is either dying of sickness or he has been stabbed in the back by some enemy. The coroner has been sent to guests.

who has probably suffered more than any man or woman in America to-day. Taken sick while in the Army, he has endured untold agonies since. Describing his first symptoms he said: "My head ached and my appetite was poor. I felt a faintness at the pit of the stomach, and bad taste in my mouth, while my skin was sometimes hot and sometimes cold. I next felt pains in my back and around the lower portion of my body, and noticed a peculiar odor and color in the water I passed, which was scanty at one time and free at others. Sometimes it pained me to void it, and again it was atmost impossible to do so at all. Finally I began to pass clear blood accompanied with the greateststrain and agony."

No less than 20 eminent physicians attended Mr. Furbush at various times, but not one of them could help him. He was near death's door. And yet he says: "I am alive and well to-day, wholly through the wonderful power of Hunt's Kemedy which took me from the verge of the grave."

This Great Remedy absolutely cures all Kidney, Liver and Urinary Diseases.

And it is intrice ordered by the court that this order be personally served on the next of kin and all persons interested in the said estate residing in this state, and by publication thereof upon said minors and all others interested therein residing out of this state.
