### HOW DO WE DIG OUR GRAVE?

We must eat or we cannot live. This we all know. But do we all know that we die by eating? It is said we dig our graves with our teeth. How foolish this sounds. Yet it is actually true. We are terrified at the approach of the cholera and yellow fever, yet there is a disease constantly at our doors and in our houses far more dangerous and destructive. Most people have in their own stomachs a poison, more slow, but quite as fatal as the germs of those maladies which sweep men into eternity by thousands without warning in the times of great epidemics. But it is a mercy that, if we are watchful, we can tell when we are threatened. The following are among the symptoms, yet they do not always necessarily appear in the same order, nor are they always the same in different cases. There is a dull and sleepy feeling; a bad taste in the mouth, especially in the morning; the appetite is changeable, sometimes poor and again seems as though the patient could not eat enough; and occasionally no appetite at all; dullness and sluggishness of the mind; no ambition to study or work; more or less headache and heaviness in the head; dizziness or ringing in the feet or moving suddenly; furred and coated tongue; a sense of a load on the stomach that nothing removes; hot and dry skin at times; yellow tinge in the eyes; scanty and high-colored urine; sour taste in the mouth, frequently attended by palpitation of the heart; impaired vision, with spots that seem to be swimming in the air before the eyes; cough, with greenish-colored expectoration; poor night's rest; a sticky saliva about the teeth and gums; hands and feet cold and clammy; irritable temper and bowels become up and constipated. This disease has puzzled the physicians and still puzzles them. It is the commonest of ailments and yet the most complicated and mysterious. Sometimes it is treated as consumption, sometimes as liver complaint, and then again as malaria and even heart disease. But its real nature is that of constipation and dyspepsia. It arises in the digestive organs and soon affects all the others through the corrupted and poisoned blood. Often the whole body, including the nervous system—is literally starved, even when there is no emaciation to tell the story. Experience has shown that there is but one remedy that can certainly cure this disease in all its stages, namely, Shaker Extract of Roots or Mother Seigel's Curative Syrup. It never fails but, nevertheless, no time should be lost in trying other so-called remedies, for they will do no good. Get this great vegetable preparation (discovered by a venerable nurse whose name is a household word in Germany) and be sure to get the genuine article.

#### GENERAL NEWS.

Barnum's "greatest show on earth" is going to England.

The new hotel Del Monte is finished at San Diego—the largest hotel in the world.

General Adam Badeau will see Gen. Grant's home for \$50,000 in exchange for helping Grant write his book.

Mayor Abram S. Hewitt prohibited any green flag to be displayed at the city hall of New York on St. Patrick's Day.

Church music in New York City employs about 2,000 organists and vocalists, whose annual salaries amount to about \$250,000.

Sarah A. Weatherly has been appointed postmistress at Weatherly, Baker county, Oregon, in place of A. J. Weatherly, resigned.

The governing committee of the New York Stock Exchange has voted to list the \$14,254,000 first mortgage bonds of the Oregon & California road.

Several families in McMinville have been called upon recently to mourn the death of their beloved little ones from meningitis, which is prevalent there.

A language that threatens to rival Volapuk in Chicago has made its appearance there. A swinging sign in front of a Chicago store reads, "The Truth Spoken Here."

The Secretary of War reports that the number of men in the United States available for military service is 8,021,605, exclusive of 100,837 that are now enrolled in the regular army.

The New York Telegram says editorially: "Now that the treaty is signed, the eagle Mexican territory and burrow his way through to the friendly laundry den in the states."

Gold, silver and currency in the treasury to-day amounts to \$670,360,888; certificates outstanding, gold, \$18,135,000; internal revenue receipts, \$308,099; customs, \$1,388,109.

As an evidence of the progress made by the negroes in the south, since the war, it is shown by late statistics that in three States—Georgia, South Carolina and Louisiana—they pay taxes on \$8,000,000 worth of property.—[Chicago Herald.]

Charles Dickens, Jr., accompanied by his manager, Major J. R. Bond, left Portland for New York about May 21st. Portland will probably make an effort to have the son of the greatest of novelists deliver a lecture here.

It is rumored that the Viceroy of China has accepted the offer of a French syndicate to repair the Yellow river gap for one million four hundred thousand taels. About one-third of the inhabitants of that portion of China lying north of the Yellow river are suffering more or less distress, and in Honan and Anhui large portions of the country are under water and likely to remain so for some years.

The Democratic Postmaster-General claims that the postal service is better than it ever has been, and the next moment one reads complaints about the service from both the East and West. The last complaint on file is that the service between Washington and Richmond is worse than it was during the war. The fact is, Mr. Dickinson is so busy pulling the strings for Cleveland's re-nomination that he has no time to attend to his official duties.—[News.]

Politics is much mixed in Portland, Me. The prohibitionists there, under the lead of the venerable John A. M. Evans, of the firm of Evans & Co., merchants, Portland, Me., have been elected to the office of Mayor. He began to use Shaker Extract of Roots or Seigel's Syrup about the first of Jan. 1887, and was much better in three weeks that he considered himself practically a well man. He adds: "I have at this time one bottle on hand, and if I could not get any more I would not take a ten dollar bill for it."

### Soldiers' Land Warrants.

Lately a number of persons have paid more for soldiers' land warrants than they were worth, under the impression that they could be used to buy all kinds of government lands with. In a conversation held yesterday with a gentleman connected with the land office, it was learned that these warrants were worth just \$200, and could be used only for the purpose of paying for land that had been pre-empted or for a commuted homestead. Within railroad limits a warrant will pay for eighty acres of land, and outside of railroad limits for 160 acres of off-set lands. In this state all the off-set lands have been withdrawn from private entry.

Secretary Spry's ruling requiring the publication of notices to prove up in all cases where publication had been had for only five times, made during 1885, has been overruled by Acting Commissioner Stockholder. All the disputes growing out of this ruling have been referred to the Board of Equitable Adjudication for final action looking to granting of patents.—[Ex.]

#### Artisan Well.

Madon, Cal., Independent.

On Friday of last week two six-horse teams from Cedarville passed through Alturas en route for Big valley after the well-boring machine, which was recently purchased by a joint stock company in Surprise valley. Mr. Johnstone, of Cedarville, informs us that the company was organized by the stockholders of the well-boring machine, and among the stockholders are the following: J. H. Brown, J. H. Brown, C. T. Sharp, Saml. Brown, and others, and it is the intention of the company to continue boring until the number of men in the United States available for military service is 8,021,605, exclusive of 100,837 that are now enrolled in the regular army.
