Ashland Lodge No. 45, I.O.O.F., assisted by Hope Rebecca degree lodge and Pilot Rock encampment, will celebrate the 69th anniversary of Odd Fellowship, in Ashland on Thursday, April 26th, 1888. There will be a public parade, oration, and a grand ball in the evening at Granite hall. Everybody is respectfully invited to attend. Full program next week.

H. C. Myer, Secretary.

Klamath Co. Republican Ticket. The Republican convention of Klamurday and placed the following ticket.

For County Judge, W. S. Moore; county clerk, A. L. Leavitt; sheriff, Ira C. Johnson; assessor, J. O. Hamaker; treasurer, W. C. Hale; county commissioners, — . — Kester and W. B. Grubb; school superintendent, W. S. Orr; county surveyor, S. B. Low. Messrs, W. C. Hale, J. W. Hamaker and L. B. Applegate were elected delegates to the state convention.

### A Fine Car.

Colonel Cannon, president of the Deleware & Hudson Canal Co., passed through Ashland last Monday evening accompanied by a small party of sight seers from the East. The traveling car used by the colonel is the same one that President Cleveland made his "swing around the circle" with, accompanied by his wife, some months ago. A description of the car appeared in the Tidings at the time, it having been built expressly for that trip, and for a week from its effects, but is about was considered the best and finest car in the United States. Quite a number of Ashland people saw it, having gone down to see St. John, that afternoon.

Fire in Jacksonville Court House. A fire was discovered in the court house at Jacksonville Wednesday at 6 o'clock in the morning, and the whole building came very near burning down. It had burned out the largest part of the floor and joists of the court room. It is supposed the fire originated from a cigar stump thrown into a spittoon (probably the day before) made of a candle box and saw-dust. The amount of damage alone was estimated at \$500, which was fully insured. The court house cost Jackson county about \$50,000, and would have been quite a loss if it

# Dehorning Cattle.

The dehorning cattle theory is becently dehorned about 300 head of young cattle; W. H. Nelson about the same number; Sigourney and the Parker Bros. are following suit. It is claimed that this plan is advantageous in many respects, and if the work continues as it has started in, it will not be long before our ranges are covered with muley instead of long-horned cattle, as at present. Mr. Jones says that for the work he uses a sharp saw, and cuts off the horn close to the hair. It is claimed that the dehorning process is no more painful to the animal than is that of branding and ear-marking.
