Prices on Railroad Lots.

Geo. H. Andrews, land agent of the S. P. Co., in Oregon, was in Ashland Wednesday evening in conference with M. L. McCall, agent in Ashland for the railroad company's lands, and a price was fixed upon the lots in the Railroad's second addition to Ashland, surveyed and platted by Mr. McCall sometime ago. These lots are now on the market.

McKanlass Coming.

Prof. McKanlass, the famous colored violinist, coronet, banjo king, and an artist in various other specialties, who has been through Ashland several times with his company, is coming again, and is billed for Granite Hall next Tuesday evening, April 9th. Prof. McKanlass is highly endorsed by the press and people where he has been and has been drawing crowded houses. Tickets on sale at Plaza corner store.

Nickelplate Addition.

The tract of land in northwestern part of town bought about a year ago of the Freeland estate by Chas. Nickell, has been surveyed and platted by M. L. McCall, and is now offered for sale in acre lots. It is a sightly location, adjacent to some of the most profitable bearing peach orchards in town, and should be seen by those intending to purchase land in small tracts.

The Tobacco Law.

We notice that the new cigarette law is of no more force in Milton, says the *Eagle* of that place, than the fish law, and the same is probably true all over the state. The boys procure their tobacco, cigars and cigarettes just the same and use them as profusely as before, with perhaps a little more secrecy. Bands of youngsters from 10 to 18 years old are to be seen and heard every evening puffing at the nasty cigarettes and squirting tobacco juice with just as much sang froid as though the Oregon legislature had never placed a supposed obstruction in their way.

Items about the R. R.

The railroad buildings at Ashland, which have been in charge of the officials of the northern California division of the S. P. lines, have now been turned over to the Oregon division, and hereafter will be under the immediate control of Mr. Happersett, supt. of bridges and buildings. The Oregon division extends to the end of the Ashland switch, which is now its southern limit.

The engine stalls of the Ashland round house are now distinguished by big, plain numbers recently put up over the doors.

The turntable in use at Hornbrook was built last fall upon a gravel foundation for temporary use. It is now to be taken up and will have a solid concrete foundation laid, like that of the Ashland turntable. While this is being done, the old turntable at Hornbrook will be used.

Serious Accidents.

Dr. Charles E. Beebe, of The Oregon, met with a painful accident, and had a narrow escape from death, at the depot last Monday morning. He was standing near the track waiting for the train when an empty car was sent along at a rapid rate past the depot. In walking along and edging away from the track, he stepped into a hydrant hole, which had just been uncovered, and pitched forward toward the track just for enough to be struck by the corner of the flying car. He was struck down insensible, luckily falling away from the track, and when picked up was found to be badly hurt. Dr. Newman was summoned, and gave the necessary surgical attention, assisted by Dr. Helm. His right ear was almost severed from the head; there were two bad cuts on the forehead, and the temporal bone was splintered so that several pieces were taken from the wound; the chest and right side were terribly bruised. There was no brain injury, and he was reported yesterday as doing well, with every prospect of a speedy recovery.

On Sunday evening last George W. Stephenson, proprietor of the Ashland Livery Stables met with an accident which will disable him for a long time and possibly leave permanent injury. In company with John Ralph, he drove down to Phoenix with a hack and a span of spirited horses, and when just entering that town the breast strap of one of the horses broke, the neck yoke slipped off, and the tongue dropped to the ground. Finding himself unable to control the frightened animals, Mr. Stephenson jumped from the carriage and struck the ground in such a way as to break his leg badly. Mr. Ralph also jumped, and sprained his ankle, but broke no bones. Mr. Stephenson was brought home at once and an examination by the surgeons, Drs. Newman and Parson, disclosed three fractures, one of the large bone about half way between the ankle and knee, and two of the smaller, outer bone, close to the ankle. The fractures were reduced, and the patient is doing as well as could be expected, but he may have a long siege of nursing, and the limb may be shortened when it heals. The horses were caught after running some distance, and had not hurt themselves, but damaged the hack somewhat.

J. J. Strait, of the Ashland House, is preparing to erect a two-story brick building on his lots on Main street. It was his intention first to put up a building on the vacant ground between the hotel and the barber shop, but a bonus of $500 has been offered him by property owners in his neighborhood if he will build a two-story brick 66 feet front, to take the place of the old hotel, and he will probably do so. A good brick building there would be a vast improvement for Main street and make the business part of the city look much better than now.

Under County Clerk Muller, the records of the probate court and commissioners' court are kept more in full than heretofore, and a new feature has been introduced by deputy clerk Huffer. The records now show by the number of every piece of county scrip issued, just when, to whom and for what the scrip is issued since Mr. Muller took charge of the office. Had this plan been followed in the past it would be possible to figure the financial condition of the county more easily and much more accurately than can be done now.

Says the last Lakeview *Examiner*: Some villian broke into the cabin of Lofftus Bros. at Crane Lake during their absence, recently, pillaged the house and burned the furniture in the fireplace. Hanging is too good for such miscreants.

A. F. Snelling has resigned his position as register of the Lakeview land office, and expects to leave for Washington Territory in a few weeks, as soon as his successor is appointed. He has sold his residence property to James Applegate, Ontario, Cal.—[Examiner.

A dispatch to the S. F. *Chronicle*, dated March 27th, says Secretary Noble has authorized the Attorney-General to take such steps as he may deem necessary as to appointing special counsel to assist District-Attorney Carey in the prosecution of Jesse D. Carr for the alleged unlawful inclosing of some 38,000 acres of public land in Modoc county, Cal.

The Pendleton *East Oregonian* of Mar. 28th has the following: C. L. Williams, an old-timer of Grant county, who is in town to-day, brings the news of a terrible tragedy that occurred last Saturday evening at Hamilton. The victim was J. M. Hamilton, son of Senator Hamilton. He was killed at a dance by Clate Hinton, the 17-year-old son of Walker Hinton.

The Lakeview town council, the first that place has ever had, seems to be in favor of paying the city officers who have to do the work, for the council has added to the "honors" of the city recordership an annual salary of $800. The *Examiner* is kicking at the extravagance of these new city dads and says that $2500 has already been voted out of the town funds, with no money on hand to pay out.

Lake county has paid out since last October for bounties on scalps, $2,486.30, as follows: For coyotes, $1,096; wildcats, $845.50; cougars, $100; bear, $10; wolf, $40; rabbits, $409.90. The next court proposes to repeal the bounty on coyotes, but will thereafter pay 20 cents for such scalps, if presented to the court when sitting, provided the bounty earner pays for the issuance of the affidavit and warrant.—[Examiner.

A most despicable swindling game was worked at Portland recently. A fellow under the name of Adams & Co., on March 21, opened an intelligence office and ran it one day. He collected a $2 fee from a large number of laborers and gave employment. But when they went to find their employers, they found them not. Returning to the office of the swindler, they found him not, too. He worked the racket only one day.—[Ex.

A law was passed by the last legislature setting apart the second Friday in April as Arbor Day. It is made the duty of teachers to give the afternoon to the planting of trees by the pupils with such ceremonies as shall serve to encourage the planting of trees. There are some places where the pupils will have to dig up trees to find room to plant others. But there is scarcely a school house where ornamental trees can not be made to beautify the premises.—[Ex.

From the Klamath *Star*: Many of our citizens are anxious to have a mail route established from this place direct to Prineville via the Klamath Indian reservation. This route has become a necessity for convenience of the two places named, and also to those living along the line of the proposed route. The distance is but little greater than from Linkville to Lakeview. ...Wm. Waln, of Ashland, bought two span of fine mules from Shook Bros. this week and took them across the mountains with him.......It is rumored that negotiations are being made by parties unknown for all the ranches in the Klamath river bottom between Linkville and the railroad.

And closer drew his chair,
"To know the thought that fills your head."
She tossed her glowing hair:
"You would," she answered, "really now,
Your offer makes me laugh,
For I was thinking how I'd look
In Logan's photograph."
