Burchkholder & Hasty keep in stock Hartman's pure rubber shield for penholders and pencils. It strengthens the grip on the penholder and eases the fingers from cramped and fatigued and protects the fingers from the ink.

STATE AND COAST.

The San Francisco Evening Post says the money required for the construction of the submarine telegraph line to Honolulu, Sandwich Islands, one million dollars, has been already subscribed in San Francisco. The work of laying the cable will be completed in about eighteen months from the present time. The balance of the required sum will be subscribed in Honolulu, \$500,000 in amount.

It was prophesied, says the Christian Union, that Dr. Beecher's emotional theology could not sustain a permanent work, and that his credulous church, made up of various theologies and out of use at all, was united together by personal attachment to him, and would dissolve into its original elements when he died. On the contrary, two years after his death it is found as strong in numbers as vital in experience as the united unit as ever and consecrated in its Christian work, as during life.

The Boston Journal thinks that the democratic papers which speak as some of them are doing, of the new coal and iron fields in the southern states as taking place "in spite of" the protective tariff, ought to explain their meaning. There is no tariff wall that anybody knows of between the North and Alabama, and most Northern people regard such a case as Anson and Birmingham as new buttresses of the protective system.

The new game law passed last legislature provides that it shall be unlawful to hunt or kill any deer or elk between November 1 and August 1, thus leaving only the months of August, September and October in which deer can be killed, and they can not be killed at any time for their hides.

It is now definitely known that the Chicago & Northwestern railroad has advanced \$5,000,000 for the construction of the Oregon Pacific eastward from Albany to connect with the former road at Boise City, says the Ashland Record.

Active work is to begin within a few days, and the road will be completed to an eastern connection across the country and men can accomplish that end.

The mantle of W. H. Barnum, deceased, has fallen upon the shoulders of Calvin S. Brier, and he will be chairman of the Democratic national committee. He may not have developed such a wide knowledge of men and means as his predecessor, but he carried "saw" and has a necessary ingredient in every Democratic campaign.—Times Montclair.

A teacher who requires her pupils to write sentences containing the words in the lesson reports that the sentences are sometimes funny. Here are two: "One of the words in the lesson was 'urchin.' A little fellow who would rather stay at home and play than go to school, wrote: 'The father is urchin his boy to go to school.' The following is more subtle: 'The word was 'quaff,' and the sentence written was, 'what do you think 'quaff' means,' asked the teacher. 'The dictionary says it means 'vomps'."

The announcement is published that an English system has been granted a site at Vallejo, Cal., for the erection of extensive iron and steel works to cost not less than a quarter of a million dollars. Land was donated on condition that the work on the property shall begin within one year and be completed within two years.

At the annual meeting of the association of Oregon physicians held at Portland on the 18th inst., the following named were elected officers for the ensuing year: President, M. M. McCall; Secretary, J. M. Bacon; Treasurer, J. M. Bacon; Secretary, George H. Bines; President of the Medical Society, J. M. Bacon; Corresponding Secretary, H. S. Evans; Secretary of the Board of Health, J. M. Bacon; Directors, F. X. Matthew, of Marion; R. P. Earhart, of Multnomah; Melorum Crawford, of Yamhill.

GENERAL NEWS.

New York, June 21.—Rev. William E. Howard, converted of grand jury in connection with the Electric Sugar Refining Company frauds, was today sentenced to nine years and eight months imprisonment at hard labor.

Philadelphia, June 21.—Official returns received from every county in the state make the majority against the prohibition amendment 189,029 and the majority against the suffrage amendment 235,540.

St. Louis, June 21.—The United States Grand Jury has returned indictments against seven offenders against the naturalization laws. Among the indicted are several well-known politicians and city officials. The indictments grew out of the late election.

Pittsburg, June 21.—Andrew Carnegie has been unable to reach an agreement with his men as to wages and the entire 5000 will strike on the 28th inst. The company will endeavor to secure new men.

Washington, June 21.—The fate of the United States Steamship Monopoly still hangs in the air. The vessel cannot be repaired within the limit fixed by law, and Secretary Tracy is unable to find a purchaser who will give \$10,000,000 for her. He therefore, is seriously considering the plan of making a quarantine vessel out of her and keeping her on the Asiatic station regular.

Cleveland, June 21.—Mrs. Hayes, wife of ex-President Hayes, was struck by apoplexy this afternoon at her home in Fremont, and at 9 o'clock this evening she was unconscious. The attack came about 4 o'clock, when Mrs. Hayes was sitting in her room sewing. Paralysis of the right side resulted, rendering her speechless. Medical help was summoned, but all efforts to restore the lady to consciousness have been thus far fruitless. General Hayes was on his way home from Columbus at the time, and it was 5 o'clock when he arrived in Fremont.

Sad Situation.

I remember being taken by my mother when I was a child to see a poor woman who was dying of a cancer. The disease was eating its way to a vital part, and her doctor had given her a month as her utmost limit of life. She was preparing for her end in a way that struck me as pathetic in its self-forgetfulness. She was sitting up in bed, with a basket beside her, finishing up the family mending, showing her eldest daughter—on whose thirteen-year-shoulders the burden of household cares was soon to fall—how to fold down seams in the little brother's knee patches and how to darn the heels of father's socks, so that he would never feel the difference. She had impressed upon the girl how to make her father's favorite potato pone, and how to manage her young sister when she got into the sulks, what to do for her father when he had a paroxysm of fits of cramps and everything else she could think of that would insure comfort in the humble home she was leaving. She had all the work planned which she would do during the short span of life that was given to her. Her burial clothes were folded away in a drawer with sweet heart leaves among them. I was reminded of the incident by reading in a paper recently of a man in Milwaukee who is preparing for something that is even more terrible than death—insanity. He will be violently insane in a few weeks, and he knows it. Some time ago his skull was fractured; a gristle is fast forming about the cracked edges, which will surely press upon the brain and make him a maniac. He talks calmly and rationally of his approaching fate, and spends every moment of his brief term of sanity in making provisions for his family when he shall no longer be able to care for them. It is a situation worthy of the pen of a novelist like Daudet.—[N. Y. Fashion Maker.]

Strayed from Carter's ranch.

Strayed from Carter's ranch, June 24, 1889, one small brown horse, seven years old, with white strip in face, branded C. F. on left hip; had chain on one fore-foot when last seen. Also one large bay horse, six years old, with small bell on. Suitable reward for information of above described horses. Address, EMMETT A. CARTER, Ashland, Oregon.

Burgans in Ladies and Childrens hats. In order to dispose of the large stock of hats that I have on hand, will sell them at greatly reduced prices, everyone invited to call and see for themselves. No charge for trimming from this on, and no trouble to show goods.

Mrs. BOYNTON.

Jacksonville to Madras.

Patronize the only wagon that connects with every train, rain or shine, and carries the U. S. mail and Wells, Fargo & Co's express. Satisfaction guaranteed. JOHN DYAL, Driver.

Fresh compressed yeast for sale at the U. S. Bakery.

Hats and caps at cost at O. H. Bloom's.

White sewing machines at Dean's store.

The Ashland Times and the San Francisco Weekly Call, a large eight-page paper giving all the general news both for \$2.75 per year, in advance. The regular price of the Times is \$2.50, and regular price of the Call, \$1.25, so our offer is a reduction of \$1.15 in the price of both. This is for a limited time only.

Logan of Ashland.

"I'd give the world," he sighing said, "and closer drew his chair, "To know the thought that fills your heart. She tossed her glowing hair; (head, "You would," she answered, "really now, your offer makes me laugh, For I was thinking how I'd look In Logan's photograph."

Ice Cream - Ice Cream!

At the Star Bakery opposite post-office, where you can get delicious ice cream at 15c per dish or 5c per qt.; also "Premium Bread," six loaves 25c. Cakes and choice confectionery at the lowest living rates. Ice-cream parlors open every evening until 10 o'clock. Wk. Mills, Propr.

School Shoes.

Call at Ludeman's and see the Newell's Sons & Co's solid school shoes. They are made of solid leather throughout, standard screw fastened, and are guaranteed as the best fitting, best styled, most wearing and most desirable school shoe on the Pacific coast. Spring heel, sole leather tipped and plain toe. All rips and tears repaired free of charge.

For Sale - Merchant Tailoring.

"Mac, the American Tailor," who has the only merchant tailoring establishment at Grant's Pass, offers to sell his business and stock on reasonable terms. This is a fine opportunity for a First-Class Tailor. Address him as above, Grant's Pass, Or. [511]

Farm and Garden Improvements.

Eddings & Moise, Plaster, conical drill, wheel hoe, cultivators, rakes and plow, \$14.

Children Cry for Pitcher's Castoria

THE POSTAL SERVICE.

Our friends the Democrats, and more particularly that episcopi party the Magewags, take an especial delight apparently in looting their shafts of satire and abuse at Postmaster-General Wainmaker, who was guilty of having kept a store instead of having been a cross-road politician before he was invited to a place in the Cabinet. We have not heard that Mr. Wainmaker has lost any sleep over the matter, or has been incensed at not attending to his official duties; but it may be worth while to see what he has done and is doing in office, and what foundation there is for Democratic and Magewag vilification of him.

Among other things he has restored a large number of veteran Union soldiers to the position from which they were turned out by Vils when he took charge of the department in 1887. This, of course, is a cruel blow to such patriots as Colonel Mills of Texas, Colonel Brockmeyer of Arkansas, Colonel Oates of Alabama and other heroes who fought and died for the Confederacy, but the people of the United States at large will easily forgive John Wainmaker for this offense, inasmuch as it may appear in the eyes of unprejudiced rebels.

Again, there have been a good many postmasters removed, but it seems that a large majority of them were removed on charges preferred against them by the inspectors of the department, who are Democrats. If the postmaster is so incompetent or inefficient or dishonest that a Democratic inspector commends his removal, he ought to be put out without benefit of clergy, for if there is anything a Democrat will do it is to keep a fellow-Democrat in office under a Republican Administration. If the thing can possibly be done, and what is to be said about the Democratic postmaster in the interior of New York who tried to sell the office which he held? Should Mr. Wainmaker retain him in his position and commend him for his thrift in trying to make merchandise of an office which had been conferred upon him? The simple fact is that there is no denying it, that under Vils and Dickinson the postal service of the United States was horribly neglected and mismanaged, and that postal positions were used as rewards for political services, with very little regard to the fitness of the men selected to fill them. Mr. Wainmaker, who is a business man, is conducting the Postoffice Department on the sound business principles, and hence the Magewags, who are only dilatory civil service reformers at best, are not pleased. Their idea was, once a Postmaster always a Postmaster, no matter if the incumbent was a helpless paralytic or senile for years, and when Mr. Wainmaker insists on having men who will work and who are honest and competent, they lift up their voices and weep, and yet the world revolves just the same.—[S. F. Chronicle.]

An Important Matter.

Mr. Porter, superintendent of the census has addressed a circular to the physicians of the United States, requesting their assistance in collecting statistics in relation to deaths, etc. He points out that inasmuch as the United States has no system of registration of vital statistics such as is required by other civilized nations for the purpose of ascertaining the actual movement of population, the taking of the census affords the only opportunity of obtaining a nearly approximate estimate of the birth and death rates of much the larger part of the country which is entirely unprovided with any satisfactory system and municipal registration. With a view of rendering the returns of vital statistics as nearly complete as possible, he therefore requests the physicians in every part of the country to cooperate with the census office in obtaining more accurate returns of deaths than it is possible for the enumerators to make. Nearly twenty-six thousand registration books sent out at the taking of the last census were filled up and returned. The superintendent hopes that double that number will be obtained for the eleventh census. The cooperation of the medical fraternity will make the mortality and vital statistics of the eleventh census the most complete that has ever been gathered in this country.

The Grape Outlook.

Unless some unforeseen disaster occurs the grape and wine crop of this year will be the largest in the history of the state. Clarence Westmore of the Viticultural Commission estimates the wine product from the present crop at from 20,000,000 to 25,000,000 gallons.—Col. Etc.

Choice tea at Van Sant's grocery store at 30c per lb.
