FRIDAY..... JULY 26, 1889

## STATE AND COAST.

The county court of Lane county has been petitioned to appropriate $1000 for the improvement of the Oregon military road which crosses the Cascade mountains.

Capt. Stone, representing a syndicate of Michigan capitalists is in the city arranging for the erection of a big steam saw-mill on the Santiam near the line of the Oregon Pacific railroad. —[Albany Herald.

The Alturas baseball association cleaned up about $95 by the Fourth of July doings, and the members intend donating the money to something that will be of general benefit to the town—to assist in equipping a hook and ladder company.

After reading of the miserable fire apparatus in some of the towns of the coast, which have recently burned, the people of this city should be proud of the Albany fire department. Three fire engines, a hook and ladder company, and an inexhaustible water supply is something is something no other city of its size possesses.—[Herald.

The annual session of the Oregon Press Association is called to meet at Newport, Yaquina bay, Friday, August 23d, 1889, holding over the 24th. Arrangements have been made to secure the usual reduction of fares over railroads, and a programme of interest to the craft is being prepared. There should be a full attendance, as business of importance will be transacted.

Arthur Kirsten, aged 12 years, whose parents reside at Garden Grove, near Anaheim, Cal., while pulling beets in his father's garden last Tuesday afternoon was bitten twice by a large rattlesnake in the right arm, near the elbow, and died in great agony next morning at 11 o'clock. The boy was given large quantities of alcohol after being bitten, with no apparent effect. The snake was killed and found to have nine rattles.

Says the Albany Herald: The Albany Ice Works is receiving orders for ice as fast as it can be made, and the machinery is crowded to its utmost capacity. A wheel of the machinery broke a day or two since, and the supply was stopped for one day, but they are again running and turning out five tons per day. New machinery has been ordered, and the capacity of the plant will be increased. The company is in receipt of orders for ice from all parts of the state, from Yaquina and southern Oregon.

The breaking of the neck of the sailor, McGinley, bids fair to result in another surgical case as peculiar and as painful as that of the house-mover, Hill, who recently succumbed to his injuries. In this new case the second and third cervical vertebrae are so badly injured that paralysis of the greater part of the body followed, but what marks out the case from any that have preceded it here is that the rupture of the pneumo-gastric nerve entails constant thirst upon the sufferer. He may drink gallons, yet he will remain a living example of the fable of Tantalus.—[Chronicle.

Fish Commissioner Thompson has figured it out that the salmon pack on the lower Columbia for the season to date amounts to 200,000 cases, a shortage of 860,000 compared with the same last year. The run of fish has been, and continues to be, poor. The water being clear the gill nets are catching but few fish, the traps doing most of the catching. Commissioner Thompson says the law prohibiting the taking of salmon Saturday night and Sunday is being violated by a number of the fishers, and the intention now is to establish river patrols and put a stop to the law breaking, or break somebody's pocketbook.

A dispatch from Phoenix, Arizona, says: Gov. Wolfley in examining into the expenses of the late democratic administration in this territory has made the discovery that nearly a quarter of a million of dollars has been drawn from the general fund of the territory over and above the ordinary expenses of government, within the past two years. This discovery has made considerable of a sensation within political circles. The Herald says an investigation will be made, and an attempt made to fix the ways and means by which the thing was accomplished, as well as to fix the identity of the receipts of this great overdraft on the treasury.

Claus Spreckels, the sugar king of California, is now preparing to erect in that state ten beet-root sugar refineries. This is a matter of economic importance, second only to the development of the Southern iron and cotton-goods industries. He proposes to erect in the autumn, ten refineries with a total capital of $5,000,000 and a total output of 50,000 tons of sugar which will be one per cent of the sugar production of the entire world. These refineries will consume 500,000 tons of beets annually, requiring in cultivation from 25,000 to 30,000 acres of land. As a practical factor in the world's market the industry is barely twenty years old, although it has existed in a small way for many more years. At present, one-half the production of the world's sugar comes from beets.

### You Cannot Afford

At this season of the year to be without a good reliable diarrhoea balsam in the house, as cramps, colic, diarrhoea and all inflamation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of Beggs' Diarrhoea Balsam will do more good in case of this kind than any other medicine on earth. We guarantee it. Chitwood Bros. druggist.

### Harnessing Niagara.

[Buffalo Despatch, July 19.]

It has leaked out here that the scheme of Colonel Hamilton to set up electricity-generating machinery under Niagara falls, and which was killed last winter in the New York Legislature, has been successfully worked on the Canadian Government and that a grant has been obtained permitting the erection of the machinery under the Horseshoe fall.

The thing had been accomplished by a still hunt, and nobody outside of a favored few knew a word about it. A meeting of the company is called at Alexandria, Va., for next Wednesday, to organize and prepare for work. The company was originally incorporated in Virginia to avoid New York's higher taxes.

It is said Colonel G. Zowski, who is at the head of the Canadian Niagara Park, is in the scheme and also ex-Governor Cornell of New York. Outside of the regular scheme workers, people here are strongly averse to the enterprise.

### Caution to Mothers

Every mother is cautioned against giving her child laudanum or paregoric: it creates an unnatural craving for stimulants which kills the mind of the child. Acker's Baby Soother is specially prepared to benefit children and cure their pains. It is harmless and contains no opium or morphine. Sold by Chitwood Bros.

### Why Is It

That people linger along always complaining about that continual tired feeling? One bottle of Beggs' Blood Purifier and Blood Maker will entirely remove this feeling, give them a good appetite and regulate digestion. Chitwood Bros druggists.

### GENERAL NEWS.

Application has been received at the War Department from citizens of Alaska for the location of a detachment of troops in that territory, and the request is now being considered.

A fitting tribute has been paid to the memory of Mrs. R. B. Hayes by Miss Frances Willard, president of the world's W. C. T. U. The Unions are to hold memorial services on the 28th inst.

The reported engagement of Miss Anita McCormick, daughter of the late Cyrus H. McCormick, of this city, to Emmons Blaine, son of Secretary of State Blaine, is confirmed to-night by the young lady herself, says a Chicago dispatch of the 19th.

Secretary Proctor has recommended that the reservation of Fort McDermot, Nev., be restored to the public domain, it being no longer required for military purposes. President Harrison has issued a proclamation carrying into effect Proctor's recommendation.

The town of Princetown, in Butler county, Ohio, and about seven miles from Hamilton, was blown away by a terrific windstorm that swept through that section Sunday afternoon the 14th inst. There were about thirty houses, including a sawmill and a schoolhouse, in the place. All are gone. The storm was general throughout that section, and much damage is reported. No further particulars are yet given, but it is believed no lives were lost, although several were injured.

At Warsaw, Indiana, last Friday, Mrs. Martha Danks was arrested for murder, and her husband was arrested as an accessory. Danks recently became a crank on the theme of religion, and it is said, compelled his wife to strangle their 15-months old child as a sacrifice, claiming the Almighty had promised to resurrect the child on the third day. When Danks was arrested he had been carrying the dead infant in his arms for two days.

Superintendent of the Census Porter, appointed July 16th, Dr. Davis T. Day expert and special agent to take charge of the subject of mines and mining in the census of 1890. Mr. Day received his degree at the Johns Hopkins University in 1881, and was appointed geologist in charge of the division of mining statistics and technology in the United States Geological Survey. He has published several volumes of the Second, "Mineral Resources of the United States," and is regarded by many as one of the best statisticians on mines and mining in the country.

The Civil Service Commission has made public its second report of the Milwaukee Postoffice investigation. It is very voluminous, and details at length the substantiation of the charges against Postmaster Paul, and concludes as follows: "Mr. Paul has grossly and habitually violated the Civil Service law, and has done it in a peculiarly underhanded manner. His conduct merits the severest punishment. While he retains his position it will be useless to expect in the administration of the law. His further continuance in office would be a great misfortune, and we recommend his immediate removal." The report is signed by every member of the commission.

The aggregate area of the four territories that are now forming State constitutions is 400,000 square miles, and their combined population is about 1,000,000. The constitutions will be submitted to the voters of the respective territories on the second Tuesday in October; state officers and representatives to congress will be chosen the same day. The constitution being ratified by a majority of 50,000 voters, the president will issue a proclamation formally announcing the admission of the new states. The combined representation in congress will be eight senators and five representatives, two of the latter from South Dakota.—[Oregonian.

The New York Tribune points to the fact that while the farmers of that state are finding fault with excessive taxation, and demanding that a larger proportion of the burden should be borne by personal property, doctrinaries like Henry George and McGlynn, Senator Hill, Governor Hill, the toiler, are urging that the system of taxing should be simplified by making it fall entirely on land. There are many things to be said in favor of the single-tax system. There is no doubt that the difficulty of making all personal property bear its fair share of the burden is almost insurmountable, and it is true that from one stand-point it seems foolish to tax a person for making an improvement. But it is tolerably certain that until the land-owners of the country are convinced that the entire body of land-owners and all those who hope to get some—in which latter category may be embraced every sober, industrious, thrifty and intelligent man.

### A Healthy Growth.

Acker's Blood Elixir has gained a firm hold on the people, and is now acknowledged to be superior to all other preparations. It is a positive cure for all blood and skin diseases. The medical fraternity indorse and prescribe it. Guaranteed and sold by Chitwood Bros

### Advice to Mothers.

Mrs. Winslow's Soothing Syrup, fo children teething, is the prescripion o one of the best female nurses and phy sicians in the United States, and has been used for forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhœa, griping in the bowels, and wind colic. By giving health to the child it rests the mother. Price 25c a bottle.

### Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Chitwood Bros.

### A Child Killed.

Another child killed by the use of opiates given in the form of Soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by the use of Acker's Baby Soother. It contains no opium or morophine. Sold by Chitwood Bros.
