VOL. XIV.

Now is the Time to Invest.

Do You want to make Money?

A carload of Milburn Hollow Axle Wagons, Hacks and Buckboards just received! These goods, we take pleasure in saying, are second to none in this line. The Milburn Company are the originators of the Tubular Axle which other wagon manufacturers of the country are now imitating, proving the superiority of the Hollow Axle over the Thimble Skein. This carload of wagons is direct from the factory, and comes through no other hands to us, enabling us to sell you the best wagon made at the same price, delivered in Ashland, that it would cost an agent in Portland or San Francisco, saving you not only freight, but commission to the middleman.

These Goods are Bought and not handled on Commission

We represent the territory between Roseburg and Redding for these goods and carry only the Tubular Axle which is

Manufactured Expressly for the Pacific Coast Trade.

There are many points of superiority in the make-up of these wagons and one good look at them will satisfy you of the truthfulness of this statement. We carry a variety of sizes from 1 in. to 25.

Our Mountain Hacks are a superior article of the same make, and sell at a proportionately low figure with the wagons; and of our \$50 Buckboards we have but two left.

You may ask how we can sell these wagons so cheap. The answer is this: We KNOW when once introduced the Milburn is found to be THE wagon for use on this coast and feel confident after once seeing and using them you will never buy anything but a Milburn Tubular Axle Wagon. You will save money by buying at once and taking edvantage of our introductory prices. At least come and examine these
