NOTES AND NEWS.

It is announced that Edison bas inary struggle upon the contest bestreet railroad cars which dispenses for the world's fair in 1892, and the with the overhead high-tension wires friends and partisans of the several

Trouble has occurred in South Carolina where the negro women have formed an organization of "black caps" and perpetrated acts of violence. It is an outgrowth of the recent slaughter of Negroes. The name "white caps" suggests rough weather, but the "black caps" suggest the gallows.

contestants were anxious not alone to witness the outcome, but to cheer by their presence the efforts of the workers upon the floor of the House. New York seemed to have the largest and most influential delegation of outside workers, and certainly they did more talking than those of all the other cities combined, but perhaps the Chi-

twenty-seven months remain in which to construct the necessary buildings and to make the other preparations for the great event. It must be remembered, though, that good use can be made of the electric light. By its agency the working period can be practically doubled. In all probability one of the first things that will be done by the energetic Chicagoans will be to create an enormous electric light which will permit the carrying on of operations by day the carrying on of operations by day and by night. By this means as much may be accomplished in the twenty-

KINSHIP.

A fily grew in the tangle, In a figure red garment dressed, And many a ruby spangle Besprinkled her tawny breast.

With a swift and a snow white sail; Not a gilt gert bee came nigh her, Nor a fly in his gay green mail. And the bronze brown wings and the golden,

O'er the billowing meadows blown. Were still as by magic holden From the lily that flamed alone; Till over the fragrant tangle A wanderer winging went,

And with many a rubie spangle Were his tawny vans besprent. And he hovered one moment stilly O'er the thicket, her mazy bower, Then he sank to the heart of the lily, And they seemed but a single flower.

-Helen Gray Cone.

Japs as Fish Eaters. Did you ever visit the Fulton fish market in the early morning? It is crown by a throng such as can be found nohave to stand 610 inches annually.

The report of the relief committee shows that there were estimated to have been drowned in Conemangh valley 2,280 persons. The number of bodies recovered was 1,675 identified 1,021. The relief fund amounted to \$2,902,073. The commission have on hand an unexpended balance of \$70,-631.

If the Exposition bill passes Congress, as it probably will, the Chicago people will have an opportunity to exhibit to the world a specimen of their ability to rush things. Only about twenty-seven months remain in which to construct the necessary buildings and to make the exposition between the capital city hopes to get in, several leaders of that body wives and Chinese merchants. One day, this week, I happened to be in there, and encountered the oddest person of them all. It was J. Yatsmoto, a Japanese, who is the successful proprietor of the world a specimen of their ability to rush things. Only about twenty-seven months remain in which to construct the necessary buildings and to be a very easy task. Chicago's open the construction of the construction

The Philadelphia Press says in an editorial that in 1912, twenty years after the next American world's fair, San Francisco may be selected as the place of exhibition.

Western metropolis carried the day triumphantly upon the eighth ballot, and then the House and galleries went mad with enthusiasm.

The announcement of the result was greeted with thunderous applicates by Chicago's adherents. The House on his way to somewhere and without sufficient money to get there never applications.

Waiting Room Philanthropy.

It must be that the discomforts of traveling awaken a responsive feeling of sympathy for a fellow being in distress. for I have noticed that an unfortunate on his way to somewhere and without sufficient money to get there never applications. Victoria (B. C.), February 27.—The adjourned at 6 o'clock in the midst sufficient money to get there never appeals to the crowd in the waiting room pensation to British Columbia sealers for losses sustained by the se zure of schooners in Behring sea is liable to be settled at least, to the great satisfaction of the owners of the vessels. Instructions have been received from Citawa, through the provincial Government, for Captain J. Warren to proceed without delay to Washington to give evidence in respect to the ten vessels seized in Behring sea, with a view of the owners being compensated by the United States Government. Warren left for Washington this Morning.

There were 927,433 persons sent guesses to the New York World as to the season time in which Nellie Bly and the provincial conventions and the like, there is to be seen a losing side; but the setting of the services of provincial Government. Warren left for Washington this Morning.

ENTHUSIASM IN CHICAGO.

CHICAGO. February 24.—The street scenes in Chicago this afternoon and evening manifested enthusiasm, mode which children be found in the room need to her destination, or a little money to buy their food or shelter, some one should suit the story and get an officer to pass around his hat, and the pennies, nickels, dimes and quarters commence to chip right in, and it is after investigation, a police officer announces that the case is one of genuine distress. Let some poor woman with children be found in the room need to buy their food or shelter, some one should be surrounding the newspaper offices and other places where bulletins are distributed by the United States Government.

Warren left for Washington this Morning.

There were 927,433 persons sent functions and the like, there is to be seen a losing side; but the case is one of genuine distress. Let some poor woman with children be found in the room need to suit the ideal to should be surrounding for assistance that it is not forthcoming. guesses to the New York World as to there is to be seen a losing side; but the exact time in which Nellie Bly, here all were winners. To-night the

of selling the brutes, but he never raises his voice, and when he stands for a minute or two on the curb the dogs get as near him as possible, and, crouching down, blink demurely at the public.

A little taken in the morning sharpens the appetite, cleanses the stomach and sweetens the breath.

"I never recommend a medicine unless I know it to be good. In a ministry of twenty-five years I have often felt the need of such a medicine, and when I found it I exclaimed: 'Eureka',"—live. J. P. Harper, Proprietor "Christian Visitor," Smithfield, N. C.

The inoculation theory is steadily taking a firmer hold upon the medical profession, and as a consequence numerous suggestions looking to the prevention of contaging diseases are

merous suggestions looking to the prevention of contagious diseases are constantly being made. One of the most recent of these emanates from Dr. F. A. Perroux of Calcutta, India, who argues that the venom of the cobra mjected into the human system will prevent cholera. Dr. Perroux states that "cholera is caused by the states that "cholera is caused by the withdrawal of animal venom (one of that oversity is used for trade nursous extensions). Pobably about one-fifth of that oversity is used for trade nursous extensions. states that "cholera is caused by the withdrawal of animal venom (one of the general circulation," and that this condition must terminate "on the artificial introduction of suitable animal venom (such as cobra poison) in the blood, since by that complementary addition human blood resumes its normal condition." The doctor has sent to the United States Surgeon—

gallons. Probably about one-fifth of that quantity is used for trade purposes, leaving from twenty-four to twenty-six gallons per head daily for domestic use. This seems a large amount, and there is no doubt that at least half of it is absolutely wasted. Considering that the price of water comes to something like price of water comes to something like \$25 per million gallons, it will be seen that a saving of 3.5% gallons or so per sent to the United States Surgeon- that a saving of 3.5 gallons or so per General a box containing the poison head every year would represent a conextracted from fourteen cobras and residerable amount of money. The total quests him to make the experiment in sum thrown away on account of this case cholera ever threatens us.

Sum thrown away on account of this waste must amount to nearly a million there is ample Rooms. Centrally Located. and a quarter sterling annually.-New
