ASHLAND STONE TO THE

peaches shipped from Ashland by express and freight, and many carloads of fruit, apples alone and mixed carloads, consisting of peaches, plums, nectarines, pears, apples, etc., during in permanent work have always expressed in the social draines of the fruit gathering season is at hand, with business dull and travel light and half the town away in the mountains, news items are at a premium; and nectarines, pears, apples, etc., during in permanent work have always expressed in the social draines of the fruit gathering season is at hand, with business dull and travel light and half the town away in the mountains, news items are at a premium; and nectarines, pears, apples, etc., during the past three years, but the first carload of peaches alone that ever left Ashland would become an article of editor so nervous that his coat-tails the town was shipped by S. B. Galey commerce, and in great demand. In the stone has been tested in walls, table at the clamorous calls for copy. Another full carload of peaches was shipped the following day by Mr. Galey, it also to Puget Sound. Shipments in carload lots, either full carbonals, loads of peaches, or mixed carloads, but the long distance to the larger with long for many years, and its enduring qualities are well-whown here; its existence in large quantities was not doubted, but the long distance to the larger with loads of peaches, or mixed carloads, but the long distance to the larger with pencil over his ear and will continue for some time yet, and there are large shipments by express every day.

Mr. S. U. Alffard, whose place is high on the hill on the east side of Bear creek northeast of town, brought the Tidings this week samples of some fine early Crawford peaches grown upon young trees in his orchard, in order to show what trees will do on that side of the creek, where a few years ago it was believed it was not worth while to plant orchards. The peaches are of good size and good flavor, and other young orchards, too, on that side of the creek have fine fruit upon their trees this year. Either side of the creek will grow fruit.

Talking about what can be done on a small patch of ground in this country to the stone would bear shipment to but the long distance to the larger to the stone sto the stone of this character is chiefly used, and the consequent high rates of transportation by rail, have made the profitable exportation of the stone seem problematical so far as the present or the near future is concerned. Now, however, we find that the stone is to be a part of the building material used in the finer structures of Portland, if not other cities on the coast. The credit for its introduction to the public abroad is due to C. W. Ayers, who used it in the construction of the fine new building of the Bank of Albany now approaching completion in that city. Recently Mr. Ayers concluded that the stone would bear shipment to Portland, and undertook the difficult task of introducing it, in the face of active competition with stone that can be leaded to the altra one of Ashland's fairest daughters in the stone that can be leaded to the altra one of Ashland's fairest daughters in the stone that can be leaded to the altra one of Ashland's fairest daughters in the stone that can be leaded to the altra one of Ashland's fairest daughters and good flavor, and other young as a suitable place to do their sparking the content of the public abroad is due to C. W. Ayers, who used it in the process of the process of the construction o will continue for some time yet, and cities where the stone of this charac- reporter with pencil over his ear and

fore the frost nips the vines he doesn't know, but thus far he has realized over \$75 from his quarter of an acre of tomatoes. Tonatoes have been selling in Ashland this summer at from 1 to 2 cts. per lb. to export.

The later peaches are ripening handsomely and turning out a bigger yield than was anticipated by many, and the estimate of 15,000 boxes as the shipment from Ashland this year, made early in the senson by a prominent dealer, as reported in the Tipons, will be fully realized. Two years from now a good season will see

The counties on this side of the Coast range, can add immeasurably to results already achieved in horticulture, agriculture and stock raising. The vast extent of country east of the Cascades, can also show splendid results of field and farm, and although sults of field and farm, and although feel or more them to ship 80,000 cubic splendid results of field and farm, and although feel or more them to ship 80,000 cubic feet or more them to ship 80,000 cubic feel or more them to ship 80,000 cubic feet or more them to ship 80,000 cubic feel or more them to ship 80,000 cubic feet or more them to ship 80,000 cubic feel or more them to ship 80,000 cubic feet or more them to ship 80,000 cubic feel or more them to ship 8 the district.
