NOTES AND NEWS.

The President has appointed Thos. P. Hawley, Judge of the District The outlets from New York are so Court of the United States for the unmerous that even with this large precinct, was in Jacksonville Satur-

District of Nevada, to succeed Judge quantity placed on the market the day.

trade, says the Shasta Courier. Fifty averaged from \$1.20 to \$2 each.

to call for a warship there to protect

launch of the San Francisco and her successful trial trip, but we cannot compare with the English in pride in the navy. The latest English ware vessel launched was the Blenheim, which is noteworthy as the swiftest cruiser, with the most powerful armament, of any siloat. She has two 22-ton guns and ten 6-inch breechloaders, besides many smaller guns, and her speed is 22 knots. We think we are doing pretty well with our new navy, but here is English greatly to spend \$100,000,000 on new ships with the latest improvements.—[Chronicle.]

room Mammoth forest, in Tulare ters seconds, running the distance county, California, within thirty-five miles of the thriving and rapidly growing town of Porterville. It was cut from a forest giant 312 feet in height, growing at an altitude of 6325 feet, and was severed from the parent tree twenty-eight feet above the stump at which point it means the starting nost before Salvator reached.

The 14th annual re-union of Southern Oregon Pioneers, will be held in Jacksonville, Thursday, Sept. 11, 1890.
The various committees are busy preparing for the occasion, and Jacksonville will no doubt try to entertain the grand old pioneers, as cordially and Lang parent tree twenty-eight feet above the stump, at which point it measures sixty feet in circumference. Of course the tree was considerably larger at the stump, but a section from the base could not be cut for the purpose of transportation, for the simple reason that a solid cut was taken of the whole was reached from the base could not be cut for the purpose of transportation, for the simple reason that a solid cut was taken of the whole was reached from the base could not be cut for the purpose of transportation, for the simple reason that a solid cut was taken of the whole was taken of the whole was taken of the whole was taken of the simple that the best and most generous offer-time.

B. Grammar Grade, 1st Year.

Language—Part I of "Barnes' Language Lessons, 'including lessons in composition and letter-withing.

The unanimous opinion prevails that the best and most generous offer-time best and most generous offer-time base could not be cut for the purpose of transportation, for the simple that a solid cut was taken of the whole was taken of the whole was taken of the simple transportation. pose of transportation, for the simple ta, who had just been started. Rosetreason that a solid cut was taken of twenty feet diametrically, and nine feet in height, and that was the maximum of the railway freight limit on flat cars.

The entire piece of wood consists of worderful speed. The quarter was a spendid page and stand who had just been started. Rosetta, who had just been started. Rosetta who is very speedy for five-eighths ing band of pioneers to whom we and shorter course, No. 4. Follow closely that is scattered around us with lavish hand.

May they live long to enjoy the boundless hospitality of their grateful deworderful speed. The quarter was seendants at their annual re-unions.
