The Latest Swindle.

"Do you know the latest swindle for farmers?" asked a gentleman yesterday. "It beats the Bohemian oats. A glib tongued agent goes to a farmer and makes a bargain with him to furnish him cinnamon beans, something new, just out, and for which there is great demand in the productions of cinnamon oil, which is pressed from the beans. The beans are worth $20 a bushel and he will agee to give the farmer $5 for each cinnamon tree grown from the seed he furnishes, when it has reached the growth of five feet, and he will bind the contract with a good and sufficient bond. The seed beans the farmer gets are common red beans, saturated with cinnamon oil, and which seldom attain a greater growth than six inches. The farmer will wait a good while for the return of his $20."—[Albany Herald.

A Great Display.

At the State Agricultural College at Corvallis is being made up a display for the state fair that will attract wide attention. In the display will be over a hundred different varieties of potatoes, scores of varieties of grasses, and grains, vegetables, fruits and flowers without number, all grown on the college farm. This display will give an idea of the grand work being done by that institution, and the possibilities of the Oregon soil. The display will go on special cars to Portland, on the West Side road, then up to the fair grounds on the East Side road. This display will go a long way towards demonstrating the fact—which is a fact—that the Agricultural College is an agricultural college in reality and purpose as well as in name. It will open the eyes of some of the kickers throughout the state.—[Statesman.

Mountain of Salt.

A mass of 90,000,000 tons of pure, solid, compact rock salt, located on an island, 185 feet high, which rises from a miserable sea marsh on the route from Drasbear to Iberra, up the river Teche, in Louisiana, is one of the wonders of the world. How this island, which contains over 300 acres of excellent land, ever came into existence in such a locality is a matter of conjecture. Vegetation is prolific, and the scenery is beautiful and varied. In the center of this island, which is the only solid spot in the vast expanse of sea marsh for miles around, rises Salt peak, the largest body of exposed rock salt in the world. Having never been surveyed, its exact extent is, as yet, unknown. However, engineers who have but recently visited it say that there are not less than 90,000,000 tons of pure crystal salt in sight. The dazzling clearness of Salt peak forms a striking contrast with somber lagoons, bayos and salt marshes which surround it on all sides.

We find St. Patrick's Pills to be very extra, and to give splendid satisfaction. They are now about the only kind called for.—W. A. Wallace, Oasis, Ia.

Strange Sounds Made by Light.

Recently a wonderfel discovery has been made. A beam of sunlight is made to pass through a prism so as to produce what is called the solar spectrum or rainbow. The disc is turned and the colored light of the rainbow is made to break through it. Now place the ear to the vessel containing the silk, wool or other material. As the colored lights of the spectrum fall upon it sounds will be given by different parts of the spectrum and there will be silence in other parts. For instance, if the vessel contains red worsted and the green light flashes upon it loud sounds will be given. Only feeble sounds will be heard when the red and blue parts of the rainbow fall upon the vessel and other colors make no sounds at all. Green silk gives sound best in red light. Every kind of material gives more or less sound in different colors and utters no sound in others. The discovery is a strange one, and it is thought more wonderful things may come from it.—[Court Journal.

Brotherhood of Locomotive Firemen.

The general convention of the Brotherhood of Locomotive Firemen has been in session in San Francisco during the past week, and the annual report contained the following, among other information of interest:

During the two years ending July 31, 1890, the grand master traveled 88,966 miles in attending to his duties, and 6,836 miles in January, 1890.

The report of Grand Secretary and Treasurer E. V. Debs showed a membership of 19,000, 430 lodges and $62,927 96 in the insurance fund. Each member holds a life insurance policy for $1,500, and is entitled to benefits when injured. Last year each member was assessed $16. During the two fiscal years ending July 31st, last, $527,650 was paid out on 280 deaths and 60 disabilities.

The report also gave the cost to the Brotherhood of the great "Q" strike by the engineers and firemen of that road, beginning February 27, 1888, and ending January 7, 1889. During that time $459,075 was raised by assessment to support the strike, making nearly a million dollars paid in by members of the Brotherhood in two years.

Estray Horses.

Strayed from the Hargadine pasture near Ashland in April last one brown mare about 8 years old, weighs about 1000 lbs., branded O over L on left shoulder (brand at distance looks like 8;) also one roan horse, 7 years old, weighs about 1000 to 1050 lbs., brand on left stifle (don't know what it is.) A reasonable reward will be paid for delivery of animals to G. W. Stephenson, Ashland or Robt. Baber, Grant's Pass.

HE MARCHED WITH SHERMAN, trudged all the way on foot, over mountain and through morass, carrying knapsack and gun, slept on brush heaps to keep out of the mud, caught cold, from the effects of which his friends thought he would never recover. Lingering with slow consumption for many years, he saw Dr. Pierce's Golden Medical Discovery advertised in a country newspaper, and he determined to try it. A few bottles worked a change; six months' continued use cured him. Always too independent to ask his country for a pension, he now says he needs none. He helped save his country, he saved himself! Consumption is Lung-scrofula. For scrofula, in all its myriad forms, the "Discovery" is an unequaled remedy. It cleanses the system of all blood-taints from whatever cause arising, and cures all Skin and Scalp Diseases, Salt-rheum, Tetter, Eczema, and kindred ailments. It is guaranteed to benefit or cure in all diseases for which it is recommended, or money paid for it will be refunded. Sold by druggists.

By Tacoma's new charter the following salaries will be paid the city officials: The mayor, $3,000 per annum; each councilman, $3,000 per annum; city clerk, $2,000; city comptroller, $4,000; city treasurer, $4,000; city attorney, $5,000; each member of board of public works, $3,000; chief of police, $2,400; harbor master, $1,200; port warden, $1,000; health officer, $1,800; chief of fire department, $1,400; city physician, $2,420.

There are many accidents and diseases which affect stock and cause serious inconvenience and loss to the farmer in his work, which may be quickly remied by the use of Dr. J. H. McLean's Volcanic Oil Liniment.

Why suffer? Preston's "Hed-Ake" will cure you.

In one of the Pullman cars on the Union Pacific Railroad going through Montana last week were Mr. and Mrs. A. H. Smith, the latter pretty and piquant, the former affable but jealous. There was also on the train an English artist named Wilson, on his way to Butte. The two men struck up a buffet friendship that was maintained until Smith discovered Wilson had sketched his wife. He became frantic and demanded the picture, which was refused. Then there was a fight, and the infuriated husband was beaten, after which he was soundly lectured by his sensible wife, while the passengers jeered him. The artist kept the picture.

That sour-tempered, cross, dyspeptic individual, should take Dr. J. H. McLean's Sarsaparilla! It will make him feel as well and hearty as the heathiest of us, vitalizing that is all.

The Seattle *Post-Intelligencer* says: "The fact is not generally known that the only place in America where the cauliflower has grown to seed outside of a hot-bed is on Fidalgo island. The entire supply of this seed until late years came from Erfurt, Germany. Some experiments have been made in California, and seeds of this relative of the cabbage have there been produced, but not without the aid of the hot-bed. The extreme difficulty of the successful production of this seed makes it very expensive, the retail price ranging from $30 to $36 per pound. The originator of the cabbage and cauliflower seed production on Puget Sound is A. G. Tillinghast, of La Conner. About eighteen years ago he commenced the cultivation of cabbage seed, and his experiments have succeeded in making Puget Sound seeds known throughout the world."

An Austrian Nobleman Found Dead near Spokane.

Spokane Falls, Sept. 10.—Two hunters, John S. Gentle and Joseph Heutenbourg, rode to Spokane yesterday with news of a ghastly discovery in Moran mountains, where they were out hunting for pheasants and discovered in the dark canyon a human body half eaten by coyotes, jackals and carrion birds. Particles of flesh were strewn around and the bones of the limbs which had been torn from the body by wild animals were scattered about in hideous confusion. The skeleton, it is believed, is the remains of an Austrian nobleman named Von Strauss. He left Austria two years ago with his patrimony. He came to America and went to Chicago. There he squandered some of his inheritance and then went to San Francisco, where he sadly depleted his pile. He wrote to Austria for more money but learned that his brother had misappropriated the family estate to himself and had gone to India. In utmost poverty the wanderer landed at Portland and when he came to Spokane he was penniless. His misfortune made him despondent and he wandered in the country for two or three weeks. He was seen about the vicinity of Giles ranch, six miles east of Spokane. He would apply to farm houses for a morsel of food and for shelter. The last day he was seen alive, he called at Giles' ranch and left an elegant, but empty purse, saying that was the only remnant of his former fortune and that he was going into the mountains to starve. Little attention was paid to what he said and no one followed him. He walked off toward Mormon mountain, and the finding of his body revealed his horrible fate.

There may be persons in this neighborhood who are at times troubled with colic, or subject to attacks of bowel complaint. If so, they should try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It will afford almost immediate relief, and when reduced with water is pleasant to take. If taken as soon as the first indication of the disease is felt it will ward off the attack. Many people use it in this way, and find that it never fails them. A 25 or 50 cent bottle may be obtained from Chitwood Bros.

A Preacher who Likes Horse Racing.

Muskegon, Mich., Sept. 11.—The district conference of the Methodist Episcopal church assembled here has on its docket the case of Rev. J. W. Arney, the liberal-minded minister of Saranac, who owns and loves fast horses, and not many weeks ago gave a little trot of his own. The reverend gentleman has been cited to explain his conduct, and the fact that the surplus funds from the meeting were applied to the reduction of the church debt has not tended to assuage the wrath of his elder brethren.

When the formal charges have been presented, Pastor Arney will ask the conference to determine for what purpose the Creator gave to man animals sleeker, better workers and of a greater speed than others of the same species, unless it were that he intended their superior abilities should be made manifest in sight of all. Pastor Arney is not at all worried over the outlook. His flock at Saranac sticks by him and he knows it. He has preached many sermons and drawn many moral lessons from his stable, and in so doing says he has brought forth fruits meet for repentence.

[A dispatch the next day says Pastor Arney weakened, and promised never to race any more if the conference would not expel him from the fold.]

A Ripe Old Age.

J. H. Holcomb, and wife, of Belcherville, Texas, have celebrated their fifty-fifth wedding anniversary, and are still hale and hearty. The secret of their long life and good health is that they correct any slight ailment promptly, and in that way avoid any serious sickness. Like most everyone else, they are more frequently troubled with constipation than any other physical disorder. To correct this they take St. Patrick's Pills in preference to any other, because, as Mr. Holcomb says, "They are a mild pill, and besides, keep the whole system in good order. We prize them very highly." For sale by Chitwood Bros.

NOTES AND NEWS.

The re-election of Reed by so decided a majority as that of Monday is tolerably strong evidence that the American people believe that members of Congress are sent to Washington to work, and not to obstruct business, and that the man who can make them attend to their duties thoroughly fills the bill.

If fails, money refunded: Preston's "Hed-Ake"

The net earnings of the Northern Pacific Railroad Co. for the fiscal year ending the 1st inst. were $1,000,000. The present mileage of the road is 3,613 miles. The company expects to carry 10,000,000 bushels of wheat to Puget Sound from the western end of the line, and about 20,000,000 bushels to Duluth and Chicago on the eastern end of the road.

Sure cure—Preston's "Hed-Ake."

In the national House of Representatives recently, Dunnell, of Minnesota, chairman of the house committee on the 11th census, introduced an apportionment bill on the basis of one representative for each 180,000 of population. This would provide for total representation of 354. Under this apportionment Alabama, California, Colorado, Michigan, Missouri, New Jersey, Oregon, Texas Washington, and Wisconsin would each gain one member, and Virginia would lose one.

Immediate, harmless—Preston's "Hed-Ake."

A Pennsylvania correspondent mentions the case of a Universalist minister, who, traveling in the state a few years ago, arrived late at night at a public house, and asked permission to remain over night. The landlady, aware of his religious views, refused. A year or two afterward he called at the same house, again asked to stay and again received a refusal. He remarked that since his previous visit he had experienced some changes of of views in relation to the salvation of men. He now belived there would be 144,000 lost. This appeared to mollify the theolgoical ideas of the lady, who assented to his remaining; "for," said she, "that many lost is better than none."

Cures in 15 minutes: Preston's "Hed-Ake."

The Indiana State Republican convention plank indorsing Harrison is as follows: "We indorse the administration of Benjamin Harrison and the able statesmen selected as his colaborers and advisers as being wise, vigorous and patriotic. It has kept the pledges made to the people, has carefully guarded and zealously promoted their welfare and elevated the condition of the public service. We heartily approve of the action of the Republicans in Congress under the brilliant leadership of Thomas B. Reed. They have again proved that the Republican party can be relied upon to meet and solve great public questions, and have once more demonstrated its capacity for an intelligent and patriotic government."

Preston's "Hed-Ake" is a specific for headache

A few days ago the *Chronicle* printed an article on the enormous increase of California fruit exports this year, in which the statement was made that at least 10,000 carloads of 20,000 pounds each would be shipped to the East during the season of 1890. In estimating the aggregate weight of the 10,000 carloads a trifling mistake of 180,000,000 pounds was made, the exports being figured at only 20,000,000 instead of 200,000,000 pounds. Of course the quantity being erroneously stated the estimated value was also immensely out of the way, so it will be well to repeat that at an average price of 5 cents a pound—which may be considered low, as the above embraces a vast quantity of dried fruit, which sells at from 8 to 20 cents a pound—our surplus for export will bring the state at least $10,000,000. This is a pretty good showing for a section in which apples and pears sold freely at $1.50 to $3 a pound 40 years ago, and which at that time was deemed by most persons unfit for any other purpose than to dig gold and raise cattle for their hides and tallow.—[S. F. Chronicle.

Patriotic Gems.

We cannot honor our country with too deep a reverence; we cannot love her with an affection too pure and fervent; we cannot serve her with an energy of purpose or a faithfulness of zeal too steadfast and ardent.—Grimke.

The United States is the only country with a known birthday. All the rest began they know not when, and grew into power they know not how. There is no "Republican," no "Democrat," on the Fourth of July—all are Americans. All feel that their country is greater than party.—James G. Blaine.

The man who loves home best, and loves it most unselfishly, loves his country best. Patriotism is trustful and simple, like family affection, and its subordinate place in the ordinary life of a nation is seen in the fact that it rarely shows itself except in the national emergencies.—J. G. Holland.

That patriotism which, catching its inspiration from on high and leaving an immeasurable distance below all lesser, groveling, personal interests and feelings, animates and prompts to deeds of self-sacrifice, of valor, of devotion and death itself, that is public virtue; that is the noblest, the sublimest of all public virtues.—Henry Clay.

The American flag has been the symbol of liberty, and men rejoice in it. Not another flag on the globe has such an errand, or went forth upon the seas carrying everywhere, the world around, such hope for the captive, and such glorious tidings. The stars upon it were to the pining nations like the morning stars of God, and the stripes upon it were beams of morning light. Let us, then, twine each thread of the glorious tissue of our country's flag about our heartstrings, and, looking upon our homes and catching the spirit that breathes upon us from the battlefield of our fathers, let us resolve, come weal or woe, we will, in life and in death, now and forever, stand by the Stars and Stripes.—Henry Ward Beecher.

If you suffer pricking pains on moving the eyes, or cannot bear bright light, and find your sight weak and failing, you should promptly use Dr. J. H. McLean's Strengthening Eye Salve. 25 cts a box.

Ireland's Census.

A dispatch from London says the Irish registrar's annual report estimates the population of the Emerald Isle at 4,730,566. The number of persons emigrating to other countries during the year was 70,477. The death rate compared favorably with other years, and an incease in the number of marrages was recorded. The figures above show a decrease of 682,000 in population in twenty years. At the rate the population of Ireland is falling off, the anti-home-rulers will in time have everything their own way, if they will only exercise patience. Fifty years ago the population of Ireland numbered 8,175,124. The present census shows a decrease of nearly three millions and a half since that time. Various causes have combined to produce this wonderful change, the principal one, however, being the system of free trade that has been forced upon the country by the policy of England.

A Kind Word for the Mortgage.

It is so seldom that mortgages are spoken of in any other way than what might be termed derogatory, that the following from the Sioux City, Ia., Journal, is refreshing.

"Thousands of families by the aid of the mortgage are providing themselves with homes in Sioux City. They are putting rent money and savings into homes of their own, and the advance in the price of the ground is going to their profit. The Journal could cite scores of instances in Sioux City where the family started without a dollar and is to-day the owner of a home property valued at thousands of dollars. The building association and the mortgage did it. In many instances not a dollar more than the price of rent went into the property. In other cases, and many, self denial has been required and is still being practiced to pay for the home. The obligation taken upon the family has induced close economy, calling for a monthly saving of a specific amount that has been and is forthcoming. Thus Sioux City has been doing a large mortgage business, and in doing it the city has not been ruined; and isn't going to be ruined."

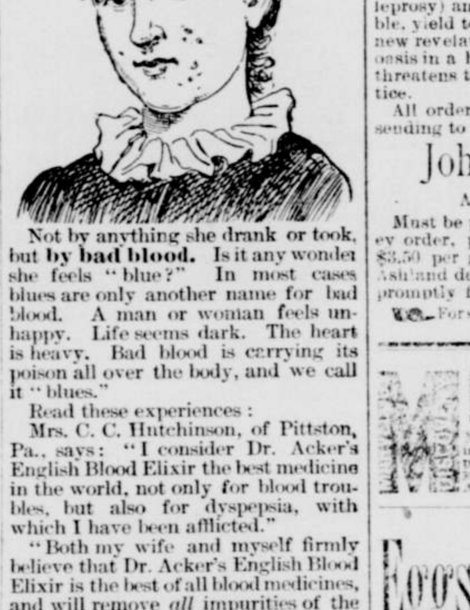
SHE WAS POISONED!



Not by anything she drank or took, but **by bad blood.** Is it any wonder she feels "blue?" In most cases blues are only another name for bad blood. A man or woman feels unhappy. Life seems dark. The heart is heavy. Bad blood is carrying its poison all over the body, and we call it "blues."

Read these experiences:

Mrs. C. C. Hutchinson, of Pittston, Pa., says: "I consider Dr. Acker's English Blood Elixir the best medicine in the world, not only for blood troubles, but also for dyspepsia, with which I have been afflicted."

"Both my wife and myself firmly believe that Dr. Acker's English Blood Elixir is the best of all blood medicines, and will remove *all* impurities of the blood." Geo. V. Sugner, Valley City, Dak.

This grand Elixir is sold by druggists in all parts of America. It is a pure, honest medicine; not a cheap sarsaparilla. Try it to-day.

The Road to Wealth

Cannot be successfully traveled without good health. To reach wealth or any coveted position in life requires the full possession and operation of all the faculties that nature has endowed us with. These conditions cannot exist unless the physical being is in perfect working order, and this is impossible when the liver and spleen are torpid, thus obstructing the secretions, causing indigestion and dyspepsia, with all of their accompanying horrors.
