

ASHLAND NEWS.

Friday, October 3, 1890.

EDITORIAL NOTES AND NEWS.

The importance of the state of Oregon being properly represented in the exhibit of the great world's fair at Chicago will be admitted by everyone without argument. In fact, so far as it can be afforded to be neglected in the matter of making a good showing at the fair, Oregon is amply able to enter the friendly rivalry with her sister states of the Pacific coast, both in the extent and variety of resources which she can display, and the means to meet the expense of her exhibit. The time is at hand when steps should be taken to prepare for the collection and arrangement of the Oregon exhibit, and the question of how to go about it is now beginning to agitate the public mind. The committee of Hon. Henry Klippel, one of the Oregon representatives in the national commission, contained in his letter to the Trustees of last week, is a good one, and should be acted upon. He advises the calling of a public meeting of the people of the southern counties of the state to begin action for the part of Oregon. It is probable that there will be concerted action throughout the state to this end, and it would be a good thing for Southern Oregon to do, anyhow. Let us show our fellow citizens of other portions of the state that we are awake, and determined to do what we can for the credit and advantage of Oregon. If we can accomplish nothing more at such a meeting we can at least voice the sentiment of Southern Oregon for a liberal appropriation by the legislature for the necessary expenses of a creditable exhibit. Mr. Klippel is fully able to do his share of the labor that may devolve upon the Oregon commissioners. As to the gentleman in Lane county, we know nothing about him. If he is as well qualified as Mr. Klippel will do well for Oregon if the means be provided to carry out his plan. The President of the Oregon Press Association, Mr. Samuel, is stirring the matter up in his paper the West Shore, and through his correspondence with the other members of the association, but he jumps at a conclusion too hastily when he assumes that both the Oregon commissioners are lacking in the qualifications for the important work that will be required of them. It is true that they will need much assistance, but for the commissioner in this county, the Trustees can say that his reputation for ability is first class. The wisdom of calling for united action in this matter in terms or manner likely to breed dissension at the start, as was done in the West Shore last week, is very questionable.

The organization of a state board of commerce at Portland last week is evidence of the dawn of a progressive era for Oregon—an awakening of our people to the knowledge of their own strength and the power of organized effort for the development of the vast resources which are but waiting the touch of enterprise to double and treble the population and wealth of the state. Oregon has had a somewhat rude awakening from the sleepy-Holler contentment, and she is still disgruntled and provoked at the manner in which she was shaken up, but she owes the census a debt of gratitude for its effect upon her pride and ambition, though she does have reason to detest the census officials for the injustice they seem determined to do her. It required the cold facts and figures of the comparison with Washington to convince us that we have been wasting time and opportunity. We have fallen behind our neighbors in the race of progress further than we knew, and we are stung into action to make a better showing during the next decade. The great difference between Oregon and Washington has been in the continued, persistent, organized effort of the people north of the Columbia to increase capital and population to enter their territory and develop its natural resources. We are beginning to see how much may be accomplished by such efforts, and a good beginning has been made. One great point was gained when the Oregon Press Association held its last annual meeting. The narrow localism of feeling which has been too prevalent was pretty thoroughly evaporated, from the press at least, by the geniality of friendly intercourse and a common view of the broad, general interests of the state. The convention to organize a state board of commerce is the outgrowth chiefly of the census revelations and the entertainment of the press association by the people of Portland. The shell of petty sectionalism has been effectively cracked, and the prime requisite for effective organized effort for the advancement of Oregon—harmony of action and spirit throughout the state—is already secured.

The new board of commerce should be heartily welcomed, and should be loyally encouraged and upheld in every community of the state.

An Earthquake Shaken City. Granada (Nicaragua), September 25.—Twenty thousand people, terror-stricken by earthquake shocks and the continued rumbling of the ancient volcano Mombacho, have fled from the city. At 9 o'clock on Sunday morning, internal shocks, resembling distant thunder, were heard and almost immediately the earth heaved violently and was continued to vibrate at brief intervals every seven or eight minutes every house in the city of 15,000 souls.

Granada is built at the base of Mombacho, which has been considered extinct for centuries, no eruption having taken place since the discovery of the country. There are no signs of dread lest the long closed crater should open and bury the town in lava and ashes.

A heavy shock came on Monday morning that caused immense damage cracking walls in all parts of the city. One-story adobe are cracked from ceiling to floor. The firmest structures of masonry have also been injured. Ten thousand people have fled from the city by railroad trains.

Remarkable Show. The Merrill-Abbott Modern Miracle Exhibition which is billed to appear in Ashland Oct. 6 and 7, is pronounced by the leading press of America as being the greatest drawing and novelty circus traveling—nothing like them ever seen in this city. Our citizens should turn out and pack the opera house as it was never packed before.

My Life a Burden. I was afflicted from infancy with catarrh of the bladder, and for ten years, I was attended by a very best physician, and tried a number of the blood purifiers, without permanent relief. The mineral ingredients settled in my bones, and caused rheumatic trouble. My life was a burden to me, when I cured my disease, I feel like a new man. I am now 45 years old, and I feel like a new man. I am now 45 years old, and I feel like a new man. I am now 45 years old, and I feel like a new man.

WHAT CONGRESS HAS DONE.

Washington, Sept. 28.—In two or three days the long session of the Fifty-first congress will have come to an end. It has been the longest ever held. Although the first session of the Fifty-first congress lasted until October 20, the present session, by reason of longer daily sessions, has far exceeded it in working time, and the amount of legislative work actually accomplished has been extraordinary, viewed in the light of previous congresses. The record so far is: Bills and joint resolutions introduced in the house, 12,402; in the senate, 4,750; total, 17,152; passed, 15,596; during the first session of the last congress, 11,000; in this matter, far exceeded all previous records.

Reports made: House, 3215; senate, 1800; account being taken in the senate of other than written reports. Bills passed by the house, 12,402; in the senate, 4,750; total, 17,152; passed, 15,596; during the first session of the last congress, 11,000; in this matter, far exceeded all previous records.

The following are some of the most important measures enacted into laws: Sundry bills, such as: bill for the relief of the pension office; bill for the relief of the pension office; bill for the relief of the pension office.

Another expedition to seek the north pole is soon to be sent out by Norway. Birchall, the Woodcock, Ont., murderer, was convicted last Monday, and sentenced to be hanged Nov. 14th.

A slop that had twenty Chinese who were being smuggled from Victoria into the U. S. was captured by officers of the Port Townsend custom house last Thursday.

Washington, Sept. 28.—The census office makes the following report: Population of San Francisco, 297,993; an increase of 64,051. San Jose, 18,027; an increase of 5403.

Washington, Sept. 29.—Killing frosts are reported from Northwestern New York, Southeastern Michigan and Eastern Nebraska; light frosts in Northern Missouri, Central Illinois, Eastern Ohio and Western Pennsylvania.

Secretary Blaine has received from Minister Abbott of Bogota the translation of an extract from a message of the Minister of Foreign Affairs of Colombia to the National Congress concerning the recent international American conference. The Minister declares the results of the conference will be the adoption of the adoption of many of the plans proposed, by the conference and urges immediate action with reference to an appropriation for an international railway and the appointment of a member of the commission to meet at Washington for an international railway.

THE DISTRICT FAIR.

Dr. Hiller's 84-page book of directions for home treatment, containing valuable instructions as to hygiene and diet, sent gratis. HILLER DRUG COMPANY, SAN FRANCISCO, CAL., U. S. A. T. K. Bolton, Agent, Ashland, Oregon.

Webster's Unabridged Dictionary. DON'T MISS OUR OFFER. One and one year subscription to the Dictionary. 13 LBS. FOR ONLY \$5.00. Special Announcement. Within a few weeks past the copyright which has covered the great Webster's Dictionary has expired, and the Pacific Publishing Company, San Francisco, has taken advantage of this circumstance to put a reprint of this great work upon the market at a considerable reduction upon the price, which heretofore ranged from twelve dollars to fifteen dollars per volume. The republication of the dictionary in this way is not in any sense an act of piracy, but is legitimate in every way. Those who had any proprietary right to the work, as a mere matter of business, are long since dead, so that no injury is done to the authors by its production. It is of course impossible to make an actual donation of so large and valuable a book, and it will be issued upon the following terms: Each new subscriber to the weekly paper for one year, or each old subscriber renewing for the year, will be given the dictionary in full, postage on the paper and express rates on the book prepaid. This will enable any person wishing to get it with the weekly for one year for one-third the price heretofore currently charged for the dictionary alone. The price is marvellously low. The book is an exact reproduction in size and general form of the standard Webster's Dictionary, and with only this difference, that the reprint is printed upon a lighter paper. The letter press is in an exact, simple, and distinct style, which is familiar to all. Subscriptions will be received, either through the agents of the paper or direct from this office. Anybody caring to take advantage of this offer may do so by addressing us and enclosing the subscription price, \$5. for the book and paper.

YOU WANT A DICTIONARY. We are receiving our Fall Stock of BOOTS, SHOES, CLOTHING, FURNISHING GOODS, Etc. THIS WEEK. OUR STOCK OF BOYS' CLOTHING! Is now complete. Can rig you with Suits at all Prices! Redland Nursery. Six miles South of Grant's Pass, Josephine county, Oregon. A. H. CARSON & SON, Prop's. 100,000 Trees in Stock! Lookout for our ad. next week. Yours Truly, O. H. BLOUNT. Ashland, Oregon.

Also, a large stock of ornamental trees and shrubs. All trees are well grown and ready for planting. Price list on application. C. H. VEGETE. FROM 25 CENTS TO \$1.00.

New Meat Market. HARRIS & MURPHY BROS. Ashland, Oregon. There was a large congregation at the Baptist church last Sunday evening to witness the baptism of three candidates, by the pastor, Rev. F. K. Van Lassel. The candidates were daughters of Mr. and Mrs. B. F. Rose—Hattie, Lida and Lillie—the first named being Mrs. C. W. Logan.

Weak Women. Own to themselves a duty to take Hood's Sarsaparilla. It is a duty of the great relief it has given those who suffer from all kinds of ailments. By purifying the blood, it gives important organs, strengthening the nerves, and toning the whole system. It restores the debilitated to health. "For 15 years my mother has been troubled with rheumatism. She went to different parts of California, as persons said the climate might help her, but it was of no avail, and I being druggist, thought I would get her to try Hood's Sarsaparilla. Before she had taken a bottle, she said she was improving, so she continued until she had taken a dozen bottles, and now she is perfectly well. For nearly three years she was unable to walk around, and now she can walk as well as ever." T. B. BASK, San Francisco, with C. F. Richards & Co., Wholesale Druggists. Like a New Creature. "I have been for years trying to get help for that terrible general debility and weakness common to women. Within a year I have taken ten or twelve bottles of Hood's Sarsaparilla, and I am now feeling like a new creature. Mrs. F. B. BASK, Dallas, Texas. Hood's Sarsaparilla. 100 HOOD & CO. APPLICABLE TO ALL.
