A St. Louis gentleman whose affliction was sick headaches was so surprised at their happened to be Dr. F. A. Barrett, the wellknown St. Louis physician of 2652 Shenandoah Street. The doctor saw at once that it differed from the potash preparations in that it was purely vegetable, and becoming interested, began a series of investigations, and in a subsequent letter candidly admitted its curative properties, and says: wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulator. As a result, I can say it is an almost absolute cure for constipation, billiousness, dyspepsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach.
