FOR ONLY \$5.00.

Special Announcement.

Within a few weeks past the copyright which has covered the great WEBSTER Dictionany has expired, and the Pacific Publishing Company, San Francisco, has taken advantage of this circumstance to put a reprint of this great work upon the market at a considerable reduction upon the price, which heretofore ranged from twelve dollars to fifteen dollars per volume. The re-publication of the dictionary in this way is not in any sense an act of "piracy," but is legitimate in every way. Those who had any proprietary right to the work, save as a mere matter of business, are long since dead, so that no mjury is done to the au-

thors by re-producing it. We have arranged for a large number of copies, and propose to give it as a premium, in connection with the regular weekly paper. It is of course imposs;ble to make an actual donation of so large and valuable a book, and it will be issued upon the following terms: Each new subscriber to the weekly paper for one year, or each old subscriber renewing for the year, will be given the dictionary and the paper together for the sum of five dollars, postage on the paper and express rates on the book prepaid. This will enable any person wishing to get it with the weekly for one year for one-third the price heretofore currently charged for the dictionary alone. The price is marvelously low. The book is an exact reproduction in size and general form of the standard WEBSTER'S DICTION-ARY, with only this difference, that the reprint is printed upon a lighter paper. The letter press is an exact fac simile of the dictionary which is familiar to all. Subscriptions will be received, either through the agents of the paper or direct from this
