"Rock Me to Sleep Mother."

The poem, "Rock Me to Sleep Mother"

was written by Elizabeth Akers Allen known otherwise as "Florence Percy." It is a general favorite for it is a sweet little touch of home life. But there is another side to the picture. Many a mother rocks her child to sleep who can ither rest nor sleep herself. She is always tired, has an everlasting backache, is low spirited, weary, nervous and all that. Those "Niggers."

Marshfield, Or., Jan. 6.-Labor troubles have broken out anew in Coos county, and the termination of the present condition of affairs is a subject now being thoroughly discussed by almost every eitizen of this county. Last month the Beaver Hill Coal Company had 50 negroes, some of them with families, imported from West Virginia, to operate the mines. The white force, on the eve of the arrival of the negroes, was reduced of the arrival of the negroes, was reduced old enough to wear her hair turned up, facts. Only a few of them have gone to of them have started on their return home, and the coal miners at Libby have subscribed a large sum of money to send the women and men, who are in destitute circumstances, back home. A subscription list is also being circulated in Marshfield for that purpose. It is generally reported here today that the coal com-pany has dispatched a man to Seattle to bring in another consignment of negroes. The white miners at Libby are paid 75 cents per ton for mining coal.

Only Two Years More. Special reports to Bradstreet's from 1,117 banks of discount, at 122 cities, give possibly the best index of the condition of the country under the present administration. While deposits at these 1,117 banks increased 1 per cent in the summer of 1891, and again in 1892, they decreased 20 per cent in 1893. While loans increased 2 per cent in the summers of 1891 and of 1892, they decreased 13 per cent in 1893. Within 16 months deposits have gained only 9 per cent against 12 per cent increase in 16 months of 1891-2. Loans are now 2.4 per cent smaller than 16 months ago, whereas in 1891-2 they gained 10 per cent. Less money out on loan means less business and less manufacturing. Less deposits mean less prosperity, less earnings, less savings. Oh, for 1896!
