Highest of all in Leavening Power.—Latest U. S. Gov't Report ROYAL Baking Powder ABSOLUTELY PURE

The Ashland Machine Shops. Five statements laid down by secretary of the treasury, John G. Carlisle, in his recent financial speeches have attracted much attention in the discussion of the silver question. Here they are: 1. There is not a free-coinage country in the world today that is not on a silver basis. 2. There is not a gold-standard country in the world today that does not use silver money along with the gold. 3. There is not a silver-standard country in the world today that uses any gold along with the silver. 4. There is not a silver-standard country in the world today that has more than one-third of the circulation per capita that the United States has. 5. There is not a silver-standard country in the world today where the laboring man receives fair pay for his day's work.

The Heavy End of a Match. "Mary," said Farmer Flint at the breakfast table as he asked for a second cup of coffee, "I've made a discovery." "What, Cyrus, you're about the last one I'd expect of such a thing, but what is it?" "I have found that the heavy end of a match is its light end," responded Cyrus with a grin that would have adorned a skull. Mary looked disgusted, but with an air of triumph quickly retorted, "I've got a discovery too, Cyrus. I've got a 'Golden Medical Discovery.' It drives away blotches and pimples, purifies the blood, tones up the system and makes one feel brand-new. Why, it cured Cousin Ben who had consumption and was almost reduced to a skeleton. Before his wife began to use it she was a pale, sickly thing, but look at her; she's rosy-cheeked and healthy, and weighs 165 pounds. That, Cyrus, is a discovery that's worth mentioning."

CALIFORNIA A scientific preparation of Abietine Balm for the cure of CATARRH Gold in the head, Catarrhal Discharges and Sore Eyes. It removes all discharges, restores BALANCE and IMPROVES BREATH. TRIAL JAR BY MAIL 50c. ABIE-TINE MED. CO. OROVILLE, CAL. A Remarkable Cure of Rheumatism. Westminister, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that, as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Chamberlain's Pain Balm in my store I sent for a bottle, and rubbed the afflicted parts thoroughly with it, according to directions, and within an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee. R. T. Harris. For sale by E. A. Sherwin.

Cricket in Eastern Oregon. Railroad Commissioner Eddy, who returned from Huntington last Wednesday, told the Pendleton Tribune reporter that some of the farmers along Burnt river have been visited by a pest, and others were fearful lest the invader shall denude their gardens. About Friday a week ago five miles east of Huntington, they came from the west, and were journeying east. On reaching the river the leaders plunged boldly in, and the rank and file followed. Millions floated down and were drowned, and millions more reached the opposite bank and proceeded on in an easterly direction. Every rock and stick in the stream below the point where the crickets took the water, for hundreds of yards, was literally covered with the insects. Where bridges cross they climbed up the posts over the bridge and on. Every garden that happened in the way was left bare of verdure. They followed the cornstocks and ate them an inch or so below the surface. Patronize Home Industry. An exchange truthfully says that many people in every section of the interior send to the larger cities for many articles of use in their families because they can get them nominally a little cheaper. They will pay for a money order to transmit the pay and then pay postage for return at the rate of one cent an ounce, often amounting to more than the difference they pay to the local dealer. But something from abroad, in the eyes of many, is better than from a local store. This sending abroad for any article of use, that you can buy at home, is not right. You are practically boycotting your neighbor. That is unjust. In building up a community, town or city and the country around it, each are mutually dependent, the one upon the other. The country is dependent upon the town-people as consumers of their products. The more the town is built up and its population increased, the more extensive is the consumption of rural products; and the more certainty of a market. Besides, a part of the money you pay to your local traders is kept at home and goes into circulation and you have an equal chance to share it with others; whereas every dollar you send abroad is gone from you forever. It goes to increase the profits of the wealthy merchant in big cities—the millionaires of Chicago, Philadelphia, New York or Boston. Then you will sit up nights concocting some form of speech denaturalizing the millionaires and the government for class legislation and the interests of the rich, when in fact, you yourself have abused your privileges—which the law guarantees to you—by contributing to that end. You have helped make those millionaires, by extending your aid to them instead of, as you ought, trying to scatter it by a more equal distribution of it.
