**It's Much Easier**  
To iron when you use the  
electric iron. Its advantages  
are many. Here are a few  
important ones. First, it has  
an even temperature at all  
times. Second, it saves time  
and labor by not having to  
run to the stove every few  
minutes. Lastly, it does away  
with that roaring hot fire that  
is necessary with the old way.  
Consult us now about the cost  
of using electricity.

**INVITE TEACHERS TO COAST.**  
Effort to Be Made for National Edu-  
cational Convention in Seattle.

Salem, Ore.—That delegates from  
Oregon and Washington to the con-  
vention of the National Educational  
Association which convenes in Chic-  
ago July 6 will make a fight to secure  
the convention for 1914 for Seattle,  
was the announcement made by State  
Superintendent of Public Instruction  
Alderman here recently. The state  
superintendent will leave for the con-  
vention tomorrow, and is scheduled  
to deliver an address. He will take  
for his subject "Rural Life Condi-  
tions and Rural Life Education in  
Oregon Schools," and will illustrate  
phases of the work with an exhibit  
which he will take along. In his ad-  
dress he will lay particular stress  
upon the number of students who en-  
ter the high schools in the state after  
being graduated from the grades, and  
the fact that the rural high school  
has become social centers, and will  
dwell upon the beneficial results  
obtained by the supervisory plan  
and the industrial work being  
accomplished and the fair to be held  
along that line this year in connec-  
tion with the State Fair. The home  
credit plan which connects the homes  
with the schools and the standardiza-  
tion of the rural high schools will  
also be dealt with.

**OREGON CITY LURES PLANT.**  
Colorado Cutlery Factory Would Lo-  
cate Nearer Coast.

Oregon City, Ore.—The publicity  
department of the Commercial Club  
is trying to obtain a location for the  
Western States Cutlery & Manufac-  
turing Company, of Boulder, Colo.,  
which is desirous of moving its plant  
to this city. The company will ex-  
pend at least \$50,000, and if the  
plant is located here at least 50 fami-  
lies, members of which work in the  
plant at Boulder, will locate in Ore-  
gon City.

J. I. Clapsedel, representative of  
the company, who is here trying to  
find a location, says that the manage-  
ment desires to be near the coast for  
the greater part of the output is dis-  
posed of here.

"Oregon City would be an ideal  
location," said Mr. Clapsedel. "If  
we can find the right tract of land  
and get power rates at a reasonable  
price, I see no reason why our plant  
should not be located here. Boulder  
is not quite far enough west for us,  
considering that we sell a greater  
part of our product on the coast."

**STEALS FROM HIS WIFE.**  
Laborer in Medford Needs Booze to  
Sustain Life.

Charged with stealing \$3 from his  
wife, who had earned the money by  
taking in washing, and then coming  
down town and spending it for liquor,  
Patrick Hull, a laborer, was locked  
up in the Medford jail Friday. Com-  
plaint was lodged with the police by  
Mrs. Hull.

According to the woman's story,  
Patrick has not been of much account  
as a provider. He only works occa-  
sionally and then spends his earn-  
ings for liquor, leaving his wife and  
children to fare the best they can.  
He found that she had been paid \$3  
for washing, and while she was ab-  
sent entered the house and, finding  
the money, came down town to spend  
it. When arrested he had but 60  
cents left. This was taken by the  
police and turned over to the woman.

**GREAT FRUIT POSSIBILITIES.**  
Coos County Pronounced as Splendid  
Fruitgrowing District.

That Coos county has great possi-  
bilities as a fruitgrowing district but  
has few well-kept orchards was the  
verdict of the state fruit experts who  
have been making a tour of the county  
and who are on Coos Bay investi-  
gating the district. The party con-  
sisted of Professor H. F. Wilson of  
the department of entomology of the  
Agricultural College; Professor H. S.  
Jackson, plant expert of the college;  
A. H. Carson of Grants Pass, horti-  
culturist of the third district, and  
Professor F. C. Reimer, superinten-  
dent of the southern Oregon experi-  
ment station.

The experts are urging that the  
Coos county people make a specialty  
of two fruits, the loganberry and the  
Gravenstein apple.

**RETURNS 29 TRUE BILLS.**  
Federal Grand Jury Has Investigated  
36 Cases.

The United States grand jury,  
which has been in session for the last  
ten days, made its first report Thurs-  
day and announced that it has investi-  
gated 36 matters in which individ-  
uals were charged with offenses  
against the federal statutes. As a  
matter of fact, a number of other  
cases were investigated, but as the  
accused were not under arrest and  
no true bills returned against them,  
no record was kept.

Of the 36 cases considered there  
were seven not true bills and 29 true  
bills. Seven true bills returned are  
secret because the accused are not  
under arrest.

**Reporter is Released.**  
Mexico City.—P. A. Scott, an  
American newspaperman who was ar-  
rested by Raoul Madero, accused of  
being a spy and sent to this city on  
parole, has been released by order of  
the minister of war and has left for  
the United States. Scott had been  
taking photographs on the rebel side  
and when he came in the federal  
camp he was arrested and held for  
three days and afterward sent to re-  
port to the minister of war.

**SCALY TREES CUT DOWN.**  
Hood River Fruit Inspector Will  
Take No Chances.

Hood River, Ore.—To rid the val-  
ley of the menace from the San Jose  
scale, which is seriously infesting a  
number of abandoned trees in vacant  
lots in the western part of the city,  
the county fruit inspector has been  
busy this week with an ax, felling the  
trees, and burning them.

The trees were not sprayed in ac-  
cordance with a recently enacted city  
ordinance and the state law govern-  
ing infested trees. "They are liter-  
ally loaded with the tiny pests," says  
Professor Lawrence, "and there is  
danger of the winds and birds scatter-  
ing the scale over the whole val-  
ley. Some of the apples that I have  
plucked from the trees are worthless  
because of the inroads of the scale,  
and there are enough of the bugs to  
render unsalable many dollars' worth  
of fruit. The trees that are not too  
badly affected we will spray now and  
later in the year. By this means we  
can rid the valley entirely of the  
scale."

**HADLEY REFUSED OFFER.**  
Might Have Had Nomination of Chi-  
cago Convention.

Cedar Rapids, Iowa.—Confirmation  
of the statements of Colonel  
Roosevelt and Comptroller Prender-  
gast of New York that Taft leaders  
at Chicago had offered to seat the  
contesting Roosevelt delegates from  
Washington and Texas if the colonel  
would consent to the nomination of  
Hadley of Missouri or some other  
compromise candidate, was made  
here recently by Governor Hadley,  
who passed through Cedar Rapids on  
his way to fill chautauqua engage-  
ments.

Hadley declared the proposal was  
made to him but he refused to con-  
sider it as he was for Roosevelt and  
no one else. He understood, he said,  
that Roosevelt was approached with  
the same offer.

**DAIRY EXHIBIT IS BLOCKED.**  
Decision Says Commissioner Can't  
Use State Fund.

Salem, Ore.—That the state dairy  
and food commissioner cannot main-  
tain a dairy exhibit at the State Fair,  
the expenses of the exhibit to come  
from the State Dairy and Food Com-  
mission fund, is the substance of an  
opinion which was furnished by As-  
sistant Attorney General Van Win-  
kle.

It was also held that an insurance  
company doing a marine and automo-  
bile business in addition to business  
along other lines may appoint a su-  
perintendent to have charge of the  
marine and automobile business, pro-  
viding such superintendent shall not  
supersede the general agent.
