TOWN MARSHAL IS FINED.

Attempt to Arrest Teamster Costs Officer \$5 and Costs.

Seaside, Ore.—Town Marshal Tibideau's effort to arrest Expressman Newton last Friday cost the officer a fine of \$5 and costs.

Newton drove up at the depot and found the other teamsters had beaten him, there and had already taken possession of the choice places to solicit work. Newton promptly halted his team in the middle of the street. Marshal Tibideau ordered him to move. He refused.

The officer climbed into the wagon and tried to take the lines from the driver. He couldn't. He climbed back off again and picked up stones, which he threw at the horses. The expressman put on the brake and sat resolved not to move one inch. Meanwhile the train arrived. Baggage was put into the wagon and delivered, after which Newton went to the city hall and obtained a warrant for the arrest of Tibideau, charging cruelty to animals. Tibideau was arrested and fined \$5 and costs.

GERMANY AFTER GAMES.

Berlin Has \$300,000 Stadium for Olympic Contests.

Berlin.—An invitation to hold the next Olympic games in Berlin in a new \$300,000 stadium will be extended to the international Olympic committee at its coming meeting in Stockholm. It has been understood that Germany would be awarded the games as soon as Berlin was in a position to offer suitable accommodations, and as this condition has now been met by the patriotic offer of three Berlin organizations to assume the financial responsibility for the construction of the stadium, the American athletes will probably gather here on their next trip across the Atlantic.

BOYS STEAL BICYCLES.

Are Retaken at Leland and Sent to Reform School.

Charlie Counts and Fay Kizer left their wheels standing in front of Coe's store Friday afternoon while they were inside, but on returning for them found that they had disappeared. Later in the evening H. E. Gale, who had driven in over the Merlin road, reported having seen a couple of bicyclists on the road who rode as though they had stolen their wheels, as Mr. Gale expressed it. Mr. Counts at once engaged an automobile and started in pursuit. At Hugo, learning that the two riders had gone through that town, he wired on ahead to Leland, where the pair with the wheels were stopped and taken into custody. Saturday Sheriff Smith went to Leland, returning on No. 15 with the men and the wheels, the latter proving to be the stolen machines.

The young men apprehended with the wheels are brothers, giving their names as Clyde and Leonard Dalton, 16 and 17 years of age. They were on their way from San Francisco to Portland and Seattle, one of the brothers claiming to be a linotype operator. They were proceeding north by the easiest methods they could find, and here evidently concluded that by wheel was the easiest. The boys were sent to the reform school Monday on order from the county court.—Grants Pass Courier.

SAMPLES PROVE DANGEROUS.

Child Eats Patent Medicine, Thinking It Candy.

Distribution of patent medicine samples has resulted in another narrow escape from death in this city, says the Mail Tribune. Saturday night Inez Brady, a grand-daughter of Louis Heil, picked up some medicine samples of "De Witte's Kidney and Bladder Pills and Kodol Dyspeptic Tablets," and thinking them candy, owing to their sugar coating, ate most of them. The little girl was seriously ill for a time, but after heroic methods had been employed by Dr. E. H. Porter, who was called, she was saved. The samples were distributed from nose to house.

The case was brought to the attention of the city authorities Monday and Mayor Canon has instructed the city attorney to prepare an ordinance which will make it an offense to distribute such samples. Several states have legislated against the practice, making such distribution a penitentiary offense.

Will Start in Salem.

Salem.—That Governor West will make Salem his starting point in plans recently laid for the purpose of making a crusade against vice and lawlessness, was manifested when he issued notice to Chief of Police Hamilton to the effect that the city's failure to close up a local resort, located in the shadow of the state armory building, will result in the Oregon national guards of this city.

DIRIGIBLE IS WRECKED

Five Lives Snuffed Out When Great Airship Explodes—Was to Have Crossed the Atlantic.

Atlantic City, N. J., July 3.—Mrs. Melvin Vaniman and the wives of the three members of the dirigible balloon Akron's crew, standing on the veranda of the Vaniman cottage near Brigantine Beach, early yesterday, saw the great dirigible explode and then dart down from mid-air, carrying their husbands to death in nine feet of water in about a second.

The women screamed and covered their faces and Mrs. Vaniman fainted, but all shortly recovered and rushed with 2,000 other spectators toward the place where the balloon fell, killing Vaniman and four others.

Accident is Described.

As the mighty dirigible plunged downward a body was seen to detach itself from the blazing mass and fall into the water fifty feet from where the balloon fell. It was recovered by Councilman Harry Cook and A. T. Bell, who put out in a motorboat, and was identified as that of Calvin Vaniman, brother of Melvin. The center dynamo and the burned body showed the explosion must have been directly opposite the middle of the car.

William Hill, U. S. revenue officer, who saw the accident, said: "We were watching the big ship closely, remarking upon the beautiful spectacle, the morning sun making the huge bag glisten like gold, when I noticed a whirl of smoke at the stern. I remember glancing at my watch and noting that it was exactly 6:42. The ship was between 700 and 800 feet up, in my estimation.

Ship Stagers in Mid-Air.

"The smoke gained in volume and the ship seemed to stagger. The smoke continued to increase for a minute or two, running apparently the whole length of the engine room beneath the great bag, and then there was a frightful concussion like the firing of a great gun.

"The next instant the ship appeared to be a great mass of flame. It seemed to me that the stern had been entirely blown out. Then I saw the whole thing was tumbling down to the sea and closed my eyes."

It was in this great air craft that Vaniman expected to cross the Atlantic.

Schumann Quintette

Mrs. Frank R. Dickey.

Cora Alice McCulloch was born in Grapevine, Texas, October 17, 1870. Departed this life in Ashland, Ore., June 30, 1912. Aged 41 years, 8 months, 13 days.

Miss McCulloch came to Oregon in 1893, and to Ashland in 1898. This city has been her home since then. She was married to Frank R. Dickey at Jacksonville, on October 23, 1904. The happy couple went immediately to their home in Roseburg, a few years later coming to Ashland.

When but a child the deceased was left an orphan, and the big future was before her in which to mould her life and character. She was a woman of rare culture and grace of refinement. Winsome in her manners, kind in her disposition. Her home was her throne; she was the queen to her husband and her friends.

She leaves her husband, and one brother in Caldwell, Idaho, to mourn her loss. The body was shipped on No. 14 for Portland, where interment will take place.

Mrs. Dickey united with the Congregational church of this city a few years ago, and was a regular attendant upon the services of the church and an exemplary Christian. The funeral services were private; only a few of the most intimate friends being invited in to the last sad rites. Rev. W. A. Schwimley, pastor of the deceased, spoke a few words based upon "She openeth her mouth with wisdom; and the law of kindness is on her tongue." * * * But a woman that loveth the Lord, she shall be praised. Give her of the fruit of her hands; and let her works praise her in the gates."

We are all better for having known such a good woman as Mrs. Dickey. An entire community joins with the bereaved husband in his sorrow.
