Joseph Poley and Mrs. J. K. Reeder of this city have recently been agreeably surprised by a visit from their brother Isaac of Atlanta, Ga., whom they had not seen for 27 years; in fact, the lapse of time had well-nigh obliterated the means of recognition between the brothers and sister. The visitor has been a resident of the south for a quarter of a century, seven years of which period have been passed in Atlanta. Mr. Isaac Poley is on an extended trip throughout the Pacific northwest, and during his vacation season will also visit his brother Charles at Portland and other relatives in various sections of Oregon and Washington.

Some time ago the state game warden notified Mayor Neil that it would be necessary to build fish ladders on the city dams at the water intakes. That would have cost the city a thousand dollars or more, and as Ashland creek at that point does not maintain migratory fish the demand was thought unjust by those most familiar with the situation. Mr. Harry Hosler has taken much interest in fish and game matters in the past and stands well with the department. He was asked to take the matter up and see what could be done. He entered into correspondence with the officials and now has a letter in which it is agreed that no further action will be taken in the matter until the commission is more thoroughly advised. The result will likely be that Ashland will be saved the needless expense of building the fishways.

MAYOR'S RECALL RESTS.

After Securing Nearly 100 Signers Petitions Are Called In.

Grants Pass.—After securing nearly 100 signers to the recall petitions which were circulated recently for the purpose of recalling Mayor Smith the petitions have been called in and the committee report that they will await a decision of the attorney general on a technicality as to the number of signers required. The petitioners received much encouragement before the petitions were out, but when it came to the matter of signing it proved to be a different thing and many of those foremost in demanding a recall refused to put their names to the petition. On account of the fact that the work on the city hall is now progressing some of the citizens of the Fourth ward are in a more passive mood and it is thought that unless some unforeseen trouble arises the recall of Mayor Smith is a thing of the past.

OUTLAWS MAKE THREAT.

Virginia Mountaineers Give Promise of Dire Tragedy.

Jonasville, Va.—The killing of Dr. James W. Walden, a leading democrat, Thursday night by Perry Wallin, a republican leader, has fanned to a threatened outbreak the smoldering political feud in the Blackwater district.

The coming trial of 200 mountaineers charged with vote selling is causing the authorities to make preparations for the protection of the court and jury. They fear an outbreak paralleling the tragedy at Hillsville last March.

Judge Skeen has received a message from the mountaineers reading: "There are 38 in our party. Before we will submit to going to jail, we will die and go to hell."
