RETURN INDICTMENTS

Roseburg Grand Jury Investigates Near-Beer Sale and Finds True Bills—Will Sift Matter.

Charged with unlawfully selling intoxicating liquor, Hyman Wollenberg, Dr. A. C. Seely, W. H. Sykes, Frank G. Micelli and Claude B. Cannon were jointly indicted Monday with the Roseburg Brewing & Ice Company by the grand jury in two separate indictments. The first indictment charges these defendants with unlawfully selling intoxicating liquor to one Henry Andrie on July 3 of this year. The second indictment is practically the same as the first except that it is brought for having made the sale to one Joe Bartholomay.

Sensation after sensation has followed the raid made on July 3 by Sheriff George Quine and his deputies. On that date every near-beer emporium in the city was raided by the officers of the law and a keg of the product of the Roseburg brewery taken from them. At the same time the brewery was invaded and some of the product found there taken into custody of the sheriff. Later on examinations of the product were made by well-known and expert chemists from the state university. Upon the analysis made by these experts warrants were issued out of Justice of the Peace Marsters' court and the defendants were arraigned before him. Last week Judge J. W. Hamilton issued a call for the grand jury to appear in special session and on last Friday this body convened and began an exhaustive probe into the affairs of the local brewery. On last Saturday the grand jury returned indictments against the brewery and Oscar Klinke and Joseph Heidenrich, both employees of the brewery.

This was but the beginning of the probe. The jury was determined to fasten the blame, if blame there was, on those higher up in the brewery. The books of the brewery were taken into the sessions of the jury and from these the officers and directors were ascertained. The indictments returned are based upon what the jury found in these records.

It is the general opinion that the grand jury will not stop in its investigation of the brewery until the very bottom has been reached. The Roseburg Brewing & Ice Company is a private corporation and does its business through its officers and directors. If the law has been violated it is alleged that the officers and directors are the ones who are responsible and not the man who delivers the product to the purchasers.

In all probability the pleas that will be entered next Saturday will be "not guilty." The cases will likely be tried at the special term of the circuit court which has been called by Judge Hamilton for September 2.

SPEED IS CAUSE.

London Investigating Committee Reports on Titanic Disaster.

London.—Directly charging that the steamship Titanic disaster, in which 1,600 persons perished, was caused by excessive speed and defective arrangements for launching and manning lifeboats, which were too few in number, the sub-committee appointed by the British board of trade Tuesday made public its report.

The committee found that J. Bruce Ismay, director of the steamship company, was morally obliged to perish with his vessel, although he extenuated his escape by saying that "had he done so it would have resulted only in the needless loss of another life."

The report holds that the charge that Lord Cosmos Duff-Gordon bribed members of the crew to row him away from the Titanic was unfounded. Although it criticizes the practice of going at full speed amid ice floes at night, the committee did not consider Captain Smith guilty of neglect. It recommended Captain Rostron of the Carpathia for his quick action in responding to the Titanic's wireless calls for help and condemns the commander of the liner California for not responding to the Titanic's distress signals.

TRAIN TELEPHONE.

New Device to Be Demonstrated Before Scientists.

London.—Dr. Von Wramer, in connection with Professor Kapp of Birmingham University, will give a select number of scientists a demonstration of the almost incredible possibilities attaching to the invention which he has just about completed, which he claims will make railway accidents practically impossible.

It is called the "railophone" and has attracted a great deal of attention since the railroad world first heard of its existence. The instrument renders possible telephonic communication with a railway train in motion and by its use it is possible "to pick up those feeble currents which are received by the train, and to relay them up into stronger currents to operate electric bells or hooters, or even to put the brakes on trains, or to stop them at the will of the signalman at the station."

WIRELESS IN AIR.

Theory is Currents Can Be Controlled by Electricity.

Mineola, N. Y.—A series of experiments is to be undertaken on the aviation field here this week, which may mark a notable advance in the conquest of the air. Experts from the signal corps of the state national guard will try out a new device for calming the air waves in the immediate vicinity of a flying aeroplane by means of wireless transmission of electricity. The theory is that the wireless will control the air currents in much the same way as oil poured on a storm-tossed sea stills the troubled waters.

JAPAN'S EMPEROR DEAD

Mikado Passed Away Early Tuesday Morning of Nephritis—Successor is 33 Years of Age.

Tokio.—Worn out by increasing debility, due to a diabetic condition, Mutsuhito, emperor of Japan, died early Tuesday at the imperial palace, while the elder statesmen of the nation and Yoshohito, his son, were by his bedside. Immediately following the Mikado's death, Yoshohito assumed supreme authority. It is not believed the change in rulers will have immediate effect on the policies of Japan.

Yoshohito is 33 years old, the son of the late emperor and a lady in waiting. The dead emperor had no children with the empress. According to custom, he was allowed 12 ladies in waiting, who served as secondary wives. He is survived by four children. The emperor, while prince, was not allowed secondary wives, but has three sons.

Mutsuhito was 59 years of age and the representative of the oldest dynasty extant. He was 121st emperor of an unbroken line over 2,500 years.

While the emperor of Japan has been the ruler of his country for 43 years, a period during which the empire has made remarkable industrial and political progress, he has lived a life of comparative seclusion and has rarely appeared in the conduct of affairs of state. He has worked through his ministers and advisers. The war with Russia and its successful termination was one of the noteworthy events of his reign.

AMERICANS THREATENED.

Are Told to Join Rebel Army or Leave Mexico.

El Paso, Texas.—Americans in northern Mexico have been officially notified by rebel commanders to give up their arms and leave the country. An only alternative is to join the rebel ranks and fight against the constitutional government of the republic. Refugees from the Mormon colonies in Chihuahua are flocking to the border.

News of this unexpected development was received here by representatives of the Mormon colonists. A. W. Ivins of Salt Lake City, an apostle of the Mormon church, is making arrangements for the reception of the refugees. They will be housed in tents if necessary and the El Paso custom house building will be thrown open to them. Apostle Ivins has telegraphed complaints to Senator Smoot of Utah and Governor Colquitt of Texas.

According to advices received here, rebels armed with an order from General Ynez Salazar, commander at Casas Grandes, and vested with authority from General Orozco, commander-in-chief of the rebels, visited the homes of the Mormons in Colonia Dublan on Saturday and confiscated 300 rifles and much ammunition.

This also was done at Colonia Juarez, a neighboring settlement, and 100 rebel cavalrymen were dispatched to Colonia Morelos, another American settlement to the east. The colonists were told to give up their arms and leave Mexico or join the rebel army.

RACE WAR THREATENED.

Negroes Have Control of Georgia Town—Seven Killed.

Plainville, Ga.—Bent on vengeance for the slaying here Sunday by whites of seven negroes, armed members of their race are in possession of the town and threaten bloody retribution before night. The negroes outnumber the whites two to one and it is feared that it will be necessary to call out the state troops. Besides the dead, 11 blacks and four whites were wounded. Trouble started when a white man slapped a negro and the latter shot him. This started a race war in which the negroes took refuge in a railroad section house. The whites charged the building and five negroes were killed outright. The two wounded negroes were tied to the railroad tracks and riddled with bullets.

WILL NOT RUN.

Senator Bourne Not to Run as Independent Candidate.

Washington.—Senator Bourne, replying to letters urging him to reconsider his decision not to be a candidate for re-election, many of which have been received by him, writes that he appreciates the evidences of good will and confidence, but would consider it a reflection on the primary system of Oregon to become a candidate for the senate unless Ben Selling's nomination should be declared fraudulent. Initiative in determining this, as well as in placing his name before the people, would have to come, he says, from others than himself. After adjournment Senator Bourne will visit Oregon.

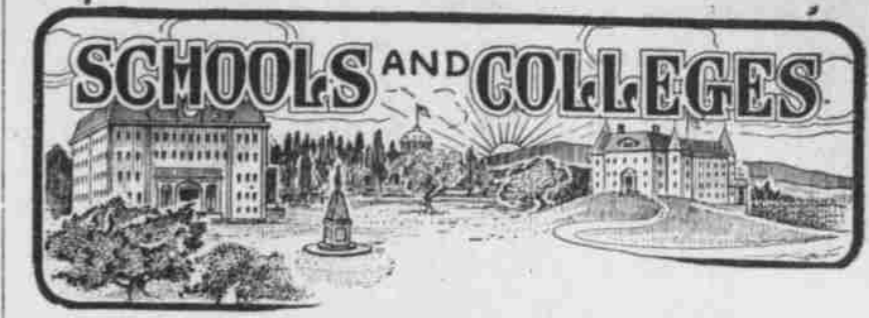

Cotton Bill Again.

Washington, D. C.—The house ways and means committee has determined to re-introduce the democratic cotton tariff bill, which was passed at the last session of congress and vetoed by President Taft.

Mr. W. S. Gunsalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fourteen years, and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by Poley's Drug Store.

The big new Austrian dreadnought, built at a cost of \$12,000,000, is found to be practically useless, owing to faulty designing and construction.

Weekly Oregonian and Ashland Tidings one year, \$2.50.

BERKELEY, CALIFORNIA. Boarding and Day School for Girls. Twenty-fifth year begins August 20, 1912.

MISS MARY WILSON, Principal. Catalogue sent on request.

Belmont School for Boys

BELMONT, CAL. (25 miles south of San Francisco.)

Is trying, and we believe successfully trying, to do for the moral, intellectual and the physical welfare of its boys what thoughtful parents most wish to have done. Contributive to this end are the location of the school, removed from the temptations and distractions of town or city, the fineness of its climate, the excellence of its buildings and other equipment, and the beauty and extent of its grounds, with the wide range of foothills surrounding them. We are glad to have our patrons and graduates consulted. For catalogue and other specific information address the Head Master.

W. T. REID (Harvard), Head Master. G. N. BRINK (Pomona), Assistant Head Master.

TO CLARIFY WATER.

Medford Will Build Impounding Dam at Intake.

An impounding dam that will quiet the waters above the intake to the city water supply and keep aside debris during the flood season will be constructed before the winter. The decision followed an inspection trip to the intake by Mayor Canon, the city council, Water Superintendent George Tranna and City Engineer Arnsperger.

When constructed the dam will form a backwater that will act as a settling tank, allowing the water to become absolutely clear before it passes into the intake. This action has been deemed necessary since last spring when the intake on several occasions became clogged with drift.

The work will be started before the winter rains begin.

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Liniment twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by Poley's Drug Store.

Scale receipts at Tidings office.

L. N. Judd TALENT, OREGON JACKSON COUNTY Orchards, Homes and Farms In a Thriving Center in One of the Garden Spots of the Rogue River Valley.
