County Sues Railroad.

Eugene, Ore.—Falling in the effort to compel the Southern Pacific Company to replace the county roads which it destroyed when the new railroad from Natron to Oakridge was built, District Attorney E. R. Bryson, in behalf of Lake county, has begun suit in the circuit court against the company to recover \$80,000 damages for the destruction of the road. It is alleged that 16 miles of the road was completely ruined and never rebuilt, and that its value is \$5,000 a mile. The complaint alleges that the county has maintained this road for the past 30 years.

Bring In Your Bad Horses and Mules

Our Cowboys will ride them FREE OF CHARGE. \$25.00 will be paid to any person bringing a horse or mule they cannot ride.

BATTALION DISBANDED.

Officers and Men Who Mutinied Recently Punished.

By unanimous vote Friday morning the general staff of the Oregon National Guard voted to disband the second battalion, third regiment, officers and men.

This drastic course was taken to punish the organization for the disobedience which resulted in the arrest of Major R. O. Scott, Captains Harry E. Williams and Walter E. Toose, and Lieutenants Richard Deich and Harry C. Brumbaugh, pursuant to orders of Brigadier General M. P. Maus, because of reported refusal to march from Oakville to Gate, and for the language used by the five officers in addressing General Maus during the recent maneuvers.

So far as the Oregon National Guard goes, this brings the sensational event to a close. By ordering disbandment, the general staff felt that its course would show the proper purpose to maintain discipline, and would also sufficiently punish all who had been guilty of mutinous or seditious conduct during the recent field maneuvers.

Orders were also issued to Adjutant General Finzer to start at once to organize another second battalion for the regiment. As the disbandment order is intended to apply only to such officers and men as were guilty of the offenses charged, in the reorganization all who have not been under charges, or who may not subject themselves to charges before the final mustering out occurs, would be held eligible for readmission into the service. This arrangement is intended to protect those officers and men who have not been guilty of any breach of discipline.

CONGRESS MUST PROVIDE.

Canal Will Not Be Completed Next Year Without Appropriation.

Washington.—Unless congress at this session provides for the operation of the Panama canal, President Taft and Secretary Stimson believe it impossible for the army engineers to keep their promise to open the big ditch next year.

The question of tolls and railroad-owned steamships has stirred up so much controversy in both houses that neither the president nor the secretary is hopeful of settling it. The Panama bill was put aside in the senate after Brandegee had stated that adjournment probably will be hastened if it were considered in the senate which the postoffice bill was in conference.

The only ray of hope that filtered through to the White House was the news that Representative Adamson of Georgia was considering the introduction of a joint resolution providing for machinery of administration and operation of the canal. The president is much concerned in the matter. Several times he stated that he hoped the Oregon would be the first craft to make the trip through the canal and that he would be on the bridge.

RANGERS WATCHFUL.

Energies Redoubled With Opening of Annual Hunting Season.

With the opening of the hunting season the forest service has redoubled its watch over the timber lands under its care, as past experiences show that with the woods full of hunters the danger of forest fires is greatly enhanced. During the next two months no section of the forest will be left unguarded for a fire to start and spread.

The opening of the fire season this year finds the Crater Lake national forest in better condition than ever before for the fighting of forest fires. Trails have been built into many of the inaccessible spots, while many miles of telephone wires have been spread like a network throughout the forest to facilitate getting a call for help to headquarters. Unless several fires should break out at nearly the same time there is little likelihood of any fire getting beyond control.

The rangers will keep close watch on the many hunting parties in the hills and see that no camp fires are left unextinguished. Rain over the forest this season has lessened the danger of fire.

COLLECTIONS GOOD.

Sheriff Jones States Large Proportion of Taxes Paid.

Tax collections, according to Sheriff Wilbur Jones, are extremely good considering the levy rate and the supposedly stringent times that are general throughout the nation.

At the present time the sheriff's office has collected between \$450,000 and \$500,000 of the \$718,000 that was levied, and those who payed only half of their taxes at the first of the year and are waiting until October 15 to remit for the balance, will, according to Mr. Jones, make the delinquent list exceptionally small, when the second payment has been checked.

The tax roll is the heaviest in the history of the county and some apprehension as to the collection was entertained by the county officials, and the promptness with which the citizens have met the levy is a source of great satisfaction to Mr. Jones.

May Impeach Wright.

Washington.—The way for impeachment proceedings against Justice Daniel T. Wright, of the supreme court of the District of Columbia, was opened Thursday in charges made by Attorney Francis Tobin in a letter to Speaker Champ Clark. Tobin demanded the impeachment of Wright, charging him with frequently violating his oath of office. Speaker Clark referred the letter to the house judiciary committee.

Co-operative Observer.

Cull Out and Fatten.

If you are desirous of having a choice flock of pullets, you must cull closely as they are growing. Weed out every undesirable specimen. If you can get several of them out at once, you can fatten them for the broiler market. It does not pay to raise pullets that are off color or defective in any way. You may think at the time that they are pullets and that you will want them for egg production, but the time will come when they will be an eyesore to you. You will mar an otherwise fine lot of birds by having in with them some that are not right as to color, form or some special points. The best thing to do is to watch and cull closely. In order to do this, endeavor to raise as many chicks as possible so that you will have a wider field of selection.

Smuggling Attempted.

Nuevo, Laredo, Mexico.—The discovery of a number of rifles and 10,000 rounds of ammunition concealed in a sleeper of a train crossing the border here Thursday led to the arrest of an American conductor and porter by the Mexican custom officers on the charge of smuggling.

The rurales took charge of the men and the train proceeded to Mexico City.

NOW FOR A FINAL

CLEAN-UP

We have about 1,000 feet of hose left of our fourth purchase. We have sold this season 14,000 feet. The prices were right. We are going to sell every foot on hand this month, regardless of price. We never carry over any garden hose.

The celebrated Goodrich corrugated reel hose, worth 20c a foot in 3/4 inch, will go at, the foot, 15c.

"Red Fox," a heavy duck-filled hose, a high grade red hose, in 1/2 inch and 3/4 inch. 1/2 inch, worth 15c a foot, to close at 11c; 3/4 inch, worth 16c a foot, to close at 12 1/2c.

"Falcon," a good weight hose in 3/4 inch, made to sell at 12 1/2c. This lot will go at, the foot, 9 1/2c.

"Summit," a grade that sells at 10c a foot everywhere. While it lasts, the foot, 8c.
