## TO USE CANYON ROAD

Government Engineer Favors Using Present Road to Mt. Ashland Where Possible.

W. E. Herring, government supervising engineer, district No. 6, forest service, was in the city Monday and Tuesday on business connected with the new highway up Mount Ashland.

He reports that just as soon as negotiations could be concluded with Nym Long regarding right of way through Long's premises, work would begin on the highway. Forest officials are now negotiating with Long concerning these concessions.

From what Mr. Herring said, the canyon road will be utilized as far as possible—in fact, no other route had been contemplated by government officials, though several had been suggested, notably a different route on each side of the creek.

In using the canyon road as far as available, the engineer stated that this seemed to be the route the most in favor owing to the scenic beauties along the way, and, furthermore, the road as already laid is practically completed to the mountain's base, subject, of course, to improvements.

### Funeral of Mrs. Bloch.

Funeral services of Mrs. Frankie Tozer Bloch were held from the home of her parents, on Laurel street, Wednesday, September 25, at 2 p. m. Rev. H. J. Van Fossen, formerly pastor of the local M. E. church, but now of Astoria, officiated, noting in his remarks the vicissitudes of life and speaking words of comfort to the bereaved family in their deep affliction. Familiar vocal selections formed an appropriate musical setting to the solemnities of the hour, notably "When I Shall Meet Him Face to Face" and "Beautiful Isle of Somewhere," sung by Mrs. J. C. Poor and Mrs. C. B. Wolf. The pallbearers were Virgil Chapman, Jesse Neil and three members of the Murphy family—Carl, Ray and Murray—all cousins of the deceased. There was a profusion of floral tributes, many of them being the loving remembrances of Portland friends. Interment was in Ashland cemetery.

Mrs. Bloch was in her 27th year, being born in Ashland, March 21, 1886. She was united in marriage to W. H. Bloch, at present a business man of Independence, September 20, 1910. The husband and her parents, Mr. and Mrs. J. E. Tozer, are the immediate relatives, though minor relatives whose names are legion reside hereabouts. Mrs. Bloch passed away in a Portland hospital, on the 22nd inst., after a lingering illness. Naturally of a bright and sunny disposition, she looked on the bright side of life. In line with such a temperament, she made a brave struggle for existence during the ravages of an insidious malady, for the relief of which an operation was performed at the last moment.

Relatives from out of town attending the funeral were Mrs. W. E. Dean, Ralph Dean, and Miss Blanche Lee of Grants Pass, Mrs. Sarah Mathewson of Merlin and Judge Neil of Jacksonville.

### Obliged Him.

The panhandler met the prosperous man in the corridor of the office building.

"I am down and out," whined the panhandler. "Can you help me?" "Yes," replied the prosperous man. "Just press that button on the elevator there and the operator will take you in and up."

Say, there is a difference at Enders', isn't there? Call and satisfy yourself.

J. C. Stanley returned last week from Galice, Ore., where he had been consulting with the secretary of the Bailey Gulch Mining & Milling Company, of which he is superintendent. Secretary Miller came out from Philadelphia for the purpose of inspecting the property and consulting Mr. Stanley. Mr. Stanley expects to go to Philadelphia shortly to consult the officers, and after his return work in the mine, which has been suspended for some months, will be resumed.

They went via the Canadian Pacific Railroad and visited in Canada en route. They spent some time in Michigan, Illinois and Minnesota, and returned more in love with Oregon than ever.

Ashland-Klamath Exchange will buy all your empty sacks.

### CAMPBELL FOR CONGRESS.

John W. Campbell of Roseburg, candidate for congress from the first district on the progressive ticket, was in Ashland Wednesday and Thursday and called on the business men and citizens generally.

Mr. Campbell is contesting for the seat now held by W. C. Hawley. Mr. Hawley is much admired here as a man and citizen, but as congressman many think he has failed to deliver the goods. Mr. Campbell came to Oregon from Iowa, where he was a friend and neighbor of Senator Cummins and knew well Senator Dolliver. He has known Mr. La Follette intimately for twenty-five years and has the hearty endorsement of Mr. La Follette. He is thoroughly a progressive and believes that a congressman should support progressive measures whenever introduced in congress, no matter whether the legislation is proposed by his party or by any other party.

Mr. Campbell will again visit southern Oregon on the occasion of Governor Johnson's itinerary here just before the election. The writer had the pleasure of introducing Mr. Campbell to our citizens and took occasion to feel out the local sentiment in relation to the candidacy of Jonathan Bourne. To our great surprise, nearly every person with whom we talked on the subject was in favor of Mr. Bourne becoming an independent candidate for the senate.

### Rustic Curiosity.

"What's the trouble?" asked the policeman in a great city.

"Nothing" in particular," replied Farmer Courtassel.

"Then what do you mean by standing on the corner and yelling for the police?"

"Well, I've read so much about about you fellows in the paper that I jess' wanted to have a good look at one of you."

### Oil Discovered in Panama Zone.

Colon.—That an oil field of immense size exists very close to the Panama canal zone, and that the oil is so plentiful and of such good quality as to make it of great value, is the report current here and said to have come from an authoritative source.

Gerard Hamilton, editor of the English section of the Panama City Star and Herald, is one of several prominent Panamans who have visited the new oil field.

According to Hamilton, the field is located in Colombian territory, not more than a day's journey from the canal zone. He says the oil actually oozes from the earth and flows into the sea.

The discovery of the field was made by a German, through gaining the friendship of the Indians.

### He Knew the Work.

"But," said the voter, "what are your qualifications for the office you are seeking?"

"Qualifications?" demanded the candidate. "I don't know what you mean."

"Can you do the work?"

"Course I can."

"Have you ever done work of that character?"

"Now, I've always had to work for a living."

"Then how do you know you can do it?"

"How do I know? Didn't Bill Smith do the work two years ago, an' didn't Harry Wilson do it two years before him? And that was the first time they ever sat on a piece of real mahogany in all their lives. I want you to understand that I'm just as able to sit behind a swell desk and look wise as they are."
