VOTE FOR

G. A. MORSE

TALENT, OREGON,

For Representative to the Legislature from Jackson County.

I believe strictly in the principles of the progressive party and also the prohibition party, which I think goes just one step farther.

In the absolute protection of labor without impairment of the rights of capital.

The strict regulation of all trusts. In the suffrage for women on the same terms as men.

In the strict prohibition of the manufacture of liquor in any form.

I believe in liberal appropriations for Oregon enterprises where they will be of state-wide benefit.

Good roads legislation must be enacted whereby counties or communities can have as good roads as desired, and in a way that they can get the most for their money.

I believe the people are supreme and their wish should control. Statement No. 1 should be carried out.
