The Undesirables.

Pacific Homestead: The United States Department of Agriculture has taken steps to prevent the Mediterranean fruit fly obtaining a hold in any part of the United States. Its latest move in this respect is to quarantine the country against the introduction of certain fruits, seeds, vegetables and other plant products grown in the territory of Hawaii, where the pest now exists to a great extent. The quarantine order was issued on September 18 and is still in effect and will probably remain so for some months.

Many foreign insect pests are costing the United States billions of dollars annually, and congress passed a strict plant quarantine law at its last session which will be of considerable aid in keeping out the undesirable bugs in future. From this time forth all plants brought to America, accompanied by unknown or dangerous insect pests, will be placed in quarantine just as other immigrants, until the pests have been slaughtered. Ordinarily the United States returns undesirable immigrants of the human family to their homes, but with the insect immigrants it will be different. They will be slaughtered by the wholesale. When the plants have been declared healthy and rid of all undesirables after serving the proper time in quarantine, they will be permitted to enter the United States and become part and parcel of our plant citizens.

This country has had enough outside pests of this sort and hereafter it will be mighty difficult for any new ones to find easy living among our fields and forests and orchards and gardens.

The San Jose scale has spread trouble all over the continent from the Pacific to the Atlantic. The codling moth is another mighty expensive winged creature; and there is the gypsy moth, the boll weevil, the Argentine ant, the Hessian fly, the brown-tail moth, and others really too numerous to mention.

The codling moth occasions a loss, in cost of spraying trees and injury to fruit, of \$16,000,000 a year; the San Jose scale, similarly in loss of product and cost of treatment of the trees, \$10,000,000; the Hessian fly, the most important enemy of wheat, probably causes an annual loss of \$50,000,000, and in some years this loss has reached the enormous total of \$100,000,000. The cost to this country of the cotton boll weevil amounts to about \$25,000,000 a year.

Warning to Hunters.

All hunters or parties shooting quail are hereby forbidden to enter on lands owned by the undersigned. All persons violating this notice will be prosecuted. 41-31* FRED YORK.

"IMMUNITY FOR THE GANG"

SUCH FOUL SLANDER IN THE MAIL-TRIBUNE.

THIS COMES FROM MEDFORD TOO

The Mail-Tribune Lays Itself Wide Open to the Charge of "Criminal Libel" Against the Dignity of the State.

Horrors! Horrors! The Mail-Tribune, full of peace and virtue—the backer of TouVelle for county judge; he who is making a gumshoe campaign without slinging mud—has fallen. Possibly Putnam was out of town when it happened, for certainly he never would have permitted such vile slander—criminal libel, if you please—to have appeared in the Mail-Tribune. This is what it said: "Immunity for gang is given," and how it happened that such foul slander slipped into that pious, metropolitan periodical is beyond comprehension. "Immunity for GANG is given." Whe-oh! Somebody gram Put for criminal libel, for he printed it in big headline type and published it to the world, "all against the peace and dignity of the state." TouVelle, Put ought to go to jail for it, and as you already have your hand in, we suggest that you step to the complaint. Be sure to make it CRIMINAL libel, for then if you lose the COUNTY COURT will have to pay the costs. Don't forget the CRIMINAL, or the COSTS, for Put is as slippery as an eel and may wiggle out. If you make it CRIMINAL LIBEL and he does, what's the old dif? Jackson county collects some quarter-million dollars each year in taxes and she will have plenty of coin—she will have to pay the bill. Sick 'em, Brother TOWOEYVELLE! Go after him; get his goat.

Let us suggest: If it doesn't look strong enough the way he printed it, just take the words "immunity for the gang" and place them in that other article printed in the same issue headed, "Listen to the Truth." For instance: Where you say, in your "Listen to the Truth" tale, "I pledge myself to give the people of Jackson county a business administration," strike out all that part of the sentence after the words "I pledge myself," and add in their stead, "Immunity for the gang." That will make it good, strong "criminal libel" against the peace and dignity of the state, and you may be able to grab Put; if you fail, why, the county will have to pay the costs. Anyhow, what's the dif? Let 'er go. Put has certainly strained the "dignity," etc.

FAY CANON HURT.

Lamp Explodes in Face of Son of Medford Mayor.

Fay Canon, aged 26 years, son of Mayor W. H. Canon of Medford, employed by the Clark-Henry Construction Company at Silverton, near Salem, was injured by an explosion of a light Friday afternoon at about 4 o'clock. Mayor Canon, in response to a telegram, left on No. 16 for his son's side.

The exact nature of the accident is not known by friends in this city. According to the meager details obtainable, Canon was preparing to light the light, which is supposed to have been on an auto or bicycle, when it exploded, striking him in the face. The chief danger lies in the possible loss of eyesight, which the telephone message stated was not dangerous. Boys are believed to have tampered with the light before the injured man tried to light it.

It was the intention of Mayor Canon when he left Medford Friday night to take Fay to a Portland hospital for treatment at once. Canon was well known in this city, where he has many friends.

Credited With 3,000 Lives.

London, Oct. 15.—"She brought into the world 3,000 lives," reads the epitaph on the gravestone of Margaret Hawtree, a midwife, who died in 1734, which has just been discovered in St. Paul churchyard, Depford.

THE PACIFIC DAIRY SHOW.

First Show at Union Stock Yards, Portland, to Be Held Nov. 18-23.

The first show of the Pacific International Dairy Show Association will be held in the Union Stock Yards, North Portland, November 18 to 23. These are the same dates as the Pacific Northwest Land Products Show at Portland and give the citizens of California, Oregon, Idaho and Washington an opportunity to see one of the greatest gatherings of dairy stock and land products in the history of this part of the west.

At the dairy show only registered cattle will be allowed to compete for prizes, but grades or pure bloods can be included in the sale that is to be held in connection.

CONCERNING MILLAGE TAX.

Dr. Rebec Tells Why Voters Should Favor It.

To the Editor of the Ashland Tidings:

May I use the columns of your paper for a word on the so-called millage tax bill in support of the state university and agricultural college? The friends of education throughout the state are anxious that the people of Jackson county should not, through lack of information or awakened interest, fail, as regards this measure, of tallying up to their full record of general progressiveness.

Perhaps, first of all, it should be stated again and again that this bill means no increase of financial burdens to the taxpayer, the statement in the negative argument in the Voters' Pamphlet to the contrary notwithstanding. The sole gain to the schools involved will be in an ability to lay stable lines of policy and an escape from being tossed every two years into the legislative arena, and there made the victims of partisan schemes and local quarrels and log-rolling.

The point, however, which I wish now especially to press is this: That through this measure the people of Oregon are afforded an opportunity to settle their problems of higher education, not merely conveniently and temporarily, but on lasting and rationally large lines. The bill provides for one governing board for both our main higher institutions, and there is nothing to preclude a later bringing of the state normal school under the same unified control. Governor West has given personal guarantee that he will appoint a board of fit and strong men. Such a board can take up and solve all the questions of division of work, duplication of courses, economy of management, or even of ultimate consolidation, if such should seem the wise and necessary thing, in a spirit superior to mere local faction, or the pull and tug of the ambitions of the several institutions. If, furthermore, the board will, as has been urged, for instance, by the late K. S. Miller, engage as secretary, or some other capacity, an expert who will represent not one institution, or one set of educational interests, but the educational good of the state generally, and who, keeping in touch with educational movements throughout the country, and indeed the world, can furnish the board accurate and organized data, there is no reason why its procedures should not be scientifically progressive and statesmanlike, as well as merely right-minded and open-minded. The actual shaping of this particular phase of the matter is, of course, a subject for discussion, but the possibilities in it ought to help make clear that in this millage bill the people of Oregon have before them not only a chance for peace and economy in their higher educational affairs, but also of an open door to higher educational futures worthy of an ambitious, courageous, ultra-democratic commonwealth.

Very truly yours,
GEORGE REBEC.
Medford, October 18.

London's Musical Training.

Jack London, when on a recent visit to New York, was introduced to a musician in one of the popular Broadway cafes.

"I am a musician in a small way," said London. "My musical talent was once the means of saving my life."

The musician was at once very much interested.

"How was that?" he asked. "There was a great flood in the town of my boyhood," explained London. "When the water struck our house my father got on a bed and floated with the stream until he was rescued."

"And you?" queried the musician. "Well," smiled London, "I accompanied him on the piano."

AN ARRIVAL EXTRAORDINARY

Prof. C. Vance (direct from Europe), the world's most celebrated palmist, astrologist and clairvoyant, has arrived in this city and has opened offices in the Columbia Hotel, in the Enders' Block, on East Main Street, opposite the Elks hall, room 1, where he can be consulted on all the affairs of life. Prof. Vance has no equal in the profession. He stands alone, the prince of clairvoyants, and is recognized by the press and public as the greatest master of the science of palmistry and astrology the world has ever produced. He guarantees to reveal every incident of your life, tell when, whom and where you will marry, tell you just what you are fitted for and how to obtain money you are in need of. The happiness of your future life may depend upon the right solution and proper advice. The professor makes no mistakes, and all his predictions are true, and he may be relied upon. You may wish to know if it is advisable to make a change in business, in love and in marriage.

WHOM SHALL I MARRY? HOW OFTEN SHALL I MARRY? SHALL I EVER BE DIVORCED? DOES ANOTHER SHARE THE LOVE THAT RIGHTFULLY BELONGS TO ME? IF SO, WHO? IS MY DISEASE CURABLE? WHEN SHALL I LEAVE HERE? AM I LIABLE TO ACCIDENT? SHOULD I INVEST MY MONEY? IN WHAT SHALL I INVEST? HAVE I ANY ENEMIES? CAN I TRUST MY FRIENDS? IN WHAT TOWN OR STATE WOULD I BE MOST SUCCESSFUL? HOW CAN I SELL PROPERTY? HOW CAN I HAVE GOOD LUCK? HOW CAN I SUCCEED IN BUSINESS? HOW CAN I MAKE MY HOME HAPPY? WHERE AND WHEN CAN I GET A GOOD POSITION? HOW CAN I MARRY THE ONE I CHOOSE? HOW CAN I MAKE ANYONE LOVE ME? HOW CAN I CONTROL ANY ONE?

The professor tells all of these things and many more. He is ever ready to help those with small capital to find a quick and sure investment. If your business is unsuccessful, if your health is not good, or if you are in trouble of any kind, you should see this truly gifted medium at once. He has helped thousands on the road to success, and he can and will help you. He not only tells you what your life has been and will be, but also how to better your condition in every possible way. Thousands of people are failures today simply because they do not see these things for themselves, or are not following the right trade or profession. Prof. Vance has made a life study of these things, and he is now prepared to show you how to make a thorough success of your life. His fee is reasonable and within the reach of the caller, no matter who, and if he does not make you a reading that is superior to any you have ever had, he will positively refuse to accept any fee whatever.

Notice! All diseases diagnosed astronomically and clairvoyantly. Come, all you sick people, and I will tell you exactly what sickness you have, and will also tell you where and when you can be cured.

Office hours: 10 a. m. to 8 p. m. Sunday, 1 to 4 p. m. Lady in attendance. The reception rooms, located just at the head of the stairs, are so arranged that you meet no strangers.

Perfect satisfaction by mail. Send \$1, day and date of birth, for mail reading.

Special: Prof. Vance is the only medium in the country who positively tells your full name, age, occupation, mother's maiden name, street and number of your house, where you live; and he will tell it free of charge to all who come prepared to take a reading. Capital furnished for business enterprises, partners found, property bought and sold, etc.—Adv. 42-tf

Record Season at Crater Lake Closed

The season at Crater Lake ended last week when Crater Lake Inn closed for the winter, and Alfred L. Parkhurst, manager of the Crater Lake Company, returned from the lake. Although the season was shorter than usual this year, more tourists visited the lake in 1912 than in any previous season. Superintendent W. F. Arant of Crater Lake National Park reports that over 5,000 tourists registered at park headquarters. Extensive improvements are planned for the park next year. It is expected that the government will commence construction of additional roads early in the spring, and the Crater Lake Company is said to be planning work on a big hotel building on the rim of the lake.

Would Abolish Own Job.

Salem, Ore., Oct. 18.—State Land Agent Rhinehart is today playing the rather paradoxical role of a man holding a public office desiring himself discharged. In a strong letter to the governor, Rhinehart declares the office has fulfilled its mission and should now be abolished as an encumbrance on the state. The office was established to settle a squabble in regard to the land throughout the state, and checking over securities for the irreducible school fund.

The position pays well and is one of the most desirable in the state.
