

JACKSON ON AMENDMENTS

SUMMARY OF VOTE ON VARIOUS MEASURES.

HIT AT NEW OFFICES OR BOARDS

Voters of Jackson County Strong in Opposition to Every Move to Create New Jobs—Rate Bill and "Blue Sky" Law Win.

The "Blue Sky" law, an amendment designed to protect the buyers of stock from glib and smooth promoters, won out in Jackson county by 37 votes, the closest race in the amendment contest. The bill ran strong in the country, but in the towns and cities there was an inclination against state regulation of stock sales and promotion. The vote on the official count stood, 2,092 for, 2,052 against. The woman's suffrage vote was 2,794 for, 1,875 against.

Those amendments that indicated a chance to curb or inconvenience railroads, banks or corporations won by big majorities. The people also found no favor for those measures that meant the expenditure of state money, or the creation of new offices. For instance, the bill making bank officials liable to depositors for all money won 3,220 to 844. The Medford rate bill, nothing to enthrone the S. P., won 3,222 to 995. The people did not want a lieutenant governor by a vote of 1,832 to 2,525. The bills to create a state printing board, hotel inspector and state road board lost.

The official count on the measures is:

- Woman suffrage—For, 2,794; against, 1,875.
- Uniform tax bill—For, 1,832; against, 2,525.
- Graduated tax—For, 1,888; against, 2,289.
- Tax provision 306—For, 1,863; against, 2,262.
- Abolishment of emergency tax—For, 2,138; against, 2,038.
- Fixing bank's liability—For, 3,220; against, 844.
- Regulating freight bill—For, 2,973; against, 1,263.
- Creating Cascade county—For, 1,692; against, 1,763.
- Creating O. A. C. regents—For, 2,368; against, 1,845.
- Majority vote on amendments—For, 1,397; against, 2,784.
- County road bonds regulation—For, 1,960; against, 2,351.
- Creation of state highway department—For, 1,205; against, 3,042.
- Creation of state printing board—For, 1,045; against, 2,484.
- Creating hotel inspector—For, 827; against, 3,410.
- Eight hour bill—For, 2,699; against, 2,055.
- Prohibiting convict labor—For, 3,094; against, 1,363.
- Prohibiting convict labor in towns—For, 3,019; against, 1,352.
- Creating state road board—For, 1,744; against, 2,461.
- Prohibiting state indebtedness—For, 2,000; against, 1,996.
- County road bond issuance—For, 1,660; against, 2,480.
- County indebtedness bill—For, 1,881; against, 2,119.
- Consolidation of municipalities—For, 1,841; against, 1,815.
- Income tax—For, 1,999; against, 2,037.
- Tax exemption—For, 2,553; against, 1,744.
- Tax exemption—For, 1,739; against, 2,457.
- Inheritance tax revision—For, 1,480; against, 2,429.
- Medford freight bill—For, 3,222; against, 992.
- Home rule bill—For, 2,506; against, 1,741.
- Abolishing state senate—For, 1,541; against, 2,437.

HAS A UNIQUE RECORD

T. W. Acklin Has Helped Carry Suffrage for Women in Three Different States.

There are few men in any in Ashland, or indeed in the United States, with the unique record of T. W. Acklin, of the Ashland Trading Company, of this city, in the matter of aiding in the securing of woman suffrage. Mr. Acklin was a resident of Colorado when the question was put up in that state and by his vote aided in giving women the ballot. He moved to Idaho just in time to assist in giving them the ballot in that state, and then moved to Oregon and voted to give them the ballot in this state.

ON ELECTRIC LIGHTS

City Electrician Explains Reasons for Wishing for Bond Issue for New Plant.

Some weeks ago Councilman Gowdy asked the Tidings to boost the proposed bond issue to build an additional electric light plant. He was told that the Tidings was not sufficiently informed as to the proposition to be able to discuss it intelligently, but that it would publish a brief statement from the city electrician in the matter. Mr. Butterfield has prepared the following statement, which is published because of that promise. Otherwise the paper would be compelled to adhere strictly to its rule as recently laid down, to charge for all articles of a political or semi-political nature. The Tidings believes that the people of Ashland are too intelligent to need it to tell them how to vote on any question. In matters of news and fact it is its mission to inform the people, but in a matter like this, where it is largely a question of deductions from facts and of opinions as to expediency, the Tidings does not feel that it is incumbent upon it to stand the expense of airing the views or advancing the interests of any faction or purpose.

Mr. Butterfield's Statement.

Four years ago when the question of a municipal electric light plant was agitated and as a result the plant designed and partly built, the demands for electricity were much less than at the present time. Because of the delay in the completion of the plant we find that the demand is equal to and greater than the capacity of the plant, even though the plant has been in operation only fifteen months. So the time has come to consider the problem of more power. The capacity of the present plant is from 400 to 450 horse power. Our present peak load is about 380 horse power during a few hours at night. Because of the fact that the water coming from the water wheel is distributed into two zones for water supply and one of these zones is very much lower than the outlet from the wheel, there is power in the water running from the upper to the lower zone that is not being utilized. An increase in the size of the upper pipe line to a 24-inch all the way to the top of Crowson hill and the construction of a small reservoir at that point will permit of the generation of 400 to 450 more horse power than is now generated. A power plant of that size can be built at the lower intake reservoir and by a proper management of the flow of the water into the reservoirs the capacity of the lighting system can be doubled and a constant and steady pressure be maintained on the water supply system. As the demand for additional power at the present time does not reach 400 horse power a portion of the 24-inch pipe and the reservoir may be omitted and only that part of the pipe line as is necessary and the power plant be built. Thus an expenditure of \$16,000 will give us about 235 horse power, which will be sufficient for several years. The distributing system should extend to all parts of the city limits. There is a constant demand for service by people beyond the end of our present lines. At present all extensions and improvements have to be paid for out of the income. This income should be set aside as a fund to pay the interest on and retire bonds as they become due. There is income sufficient at this time to pay operating expenses, depreciation, and lay aside a sinking fund to pay off the bonds and interest on the same. So a fund of \$9,000 should be provided by bond issue to extend the pole lines and meet all the expenses incidental to the extension of the business of selling current.

In view of the fact that the plant is supplying current for a street-lighting system superior to that of any city between Sacramento and Portland and that the plant is supporting itself and has been instrumental in reducing the rates one-third, so that there is a direct saving of \$10,000 to \$12,000 a year to the citizens, it would appear that the system is a success and that the extension of the same would be a good move.

Now that Lhasa has succumbed to the advance of the globe trotter, what is the most inaccessible place in the world outside of the polar regions? The London Post answers the oasis of Kufra, in the Sahara desert, the home of the Senussi.

Birmingham, England, has a new style of life-saving apparatus for the fire department. Entrapped persons are rescued in a cage which is raised and lowered to the windows of the burning building.

Uncle Sam's New Battleship Ready For Maiden Plunge

Photos by American Press Association.

THE great battleship New York, sister ship to the Texas, which was begun Sept. 13 last year, will be launched in the last part of October at the Brooklyn navy yard. She will be one of the biggest and best fighting ships in the world, costing \$6,500,000 without armament or furnishings. It will take 2,400 men nearly two years more to complete her. The New York will have a length of 573 feet, a breadth of ninety-five feet two inches, a total displacement of 27,000 tons and engines of 28,000 horsepower. Her major armament will consist of ten fourteen-inch guns. She will be one of the first vessels of the navy to be armed with fourteen inch rifles. With a displacement of 5,000 tons more than that of the Florida, the New York when launched will be the biggest and most powerful fighting ship ever constructed for the United States navy. She and her sister ship, the Texas, will be larger in every way than the Florida, which, it is expected, will soon be ready to go into commission at the Brooklyn yard. The New York is to be built entirely by the construction corps of the navy at the New York navy yard, of which Commander Robert Stocker, U. S. N., is the head. The great battleship is shown on the ways in the lower photograph, and above is seen a diver examining the ways under water on which the ship will slide into its watery berth.

DEPENDENT CHILDREN LIPTON IS AFTER CUP

Boys' and Girls' Aid Society of Oregon Asks Donations for Thanksgiving.

All persons who have the welfare of dependent children at heart will have an opportunity of assisting them this Thanksgiving by sending something, however small, to the society that aids such children, and, as its name implies, this refers to both sexes.

The Boys' and Girls' Aid Society of Oregon, with its headquarters at Portland, is an institution organized more than a quarter of a century ago for the care and disposition of homeless, neglected or abused children, to receive and care for them from any part of the state until suitable homes or employment is found for them, and to continue systematic attention to their condition and treatment until they arrive at majority. This is the noble work to which the efforts of the Boys' and Girls' Aid Society of Oregon is bent. It receives, cares for and disposes of an average of about 400 children each year. Its income is derived from state and county aid and from voluntary subscriptions, and as Thanksgiving is its harvest and the time of year when nearly all its income is derived from private sources, it is certainly hoped that all friends will come forward and do something to aid this noble work for humanity.

An extract from the last annual report shows it had children on hand at the receiving home on April 30, 1911, numbering 64; received during the year ending April 30, 1912, 460. Placed in homes and otherwise disposed of during the year, 457, leaving on hand at the receiving home May 1, 1912, 67.

These children were committed from 21 different counties of the state, including Baker, Benton, Clackamas, Clatsop, Columbia, Crook, Douglas, Hood River, Jackson, Josephine, Linn, Lane, Malheur, Multnomah, Polk, Tillamook, Umatilla, Union, Wasco, Yamhill and Washington.

The public schools as well as individuals will be asked to contribute. The railroad and express companies as well as the steamboat companies throughout the state will dead-head all donations sent to the Boys' and Girls' Aid Society of Oregon, Portland, Ore.

What Will Be Acceptable. Canned fruit or canned goods of any kind, vegetables, especially potatoes, provisions, poultry and cash; in fact, anything that can be used in

With Conditions Amended Tea Magnate Would Spend Another Million to Capture One.

Vancouver, B. C., Nov. 11.—"If the New York Yacht Club officials will amend the American cup conditions and allow me to challenge under the rating rules now in force in the United States, I shall build two cup challengers for my fourth attempt to lift the cup in 1914."

Coolly, calmly, modestly and without more emotion or emphasis than if he were discussing the purchase of a couple of cigars, Sir Thomas J. Lipton, three-time challenger for America's cup, thus quietly announced his intention of spending at least another million dollars in an effort to capture the emblem of the world's yachting supremacy.

Before leaving Victoria, en route to San Francisco, where he will attend an important conference of yachtsmen, the world's most noted yachtman and tea merchant outlined his plans for his next attempt to lift the America's cup. These plans are of course all conditional upon the New York Yacht Club executive, the present trustees of the cup, withdrawing from the unreasonable and unsportsmanlike stand they have assumed for the last two decades and agreeing to a change from the sixty-year-old obsolete rules to the ones under which all yacht races in the United States are sailed, but which they have so far refused to allow any British challenger for the precious cup to compete under.

Special courses have been added to several German schools to fit women for a new occupation in that country, that of aid in laboratories and scientific institutes.

an ordinary household. These things will be received and thankfully accepted.

Would like the donor to mail a postal card to the superintendent, care of the Boys' and Girls' Aid Society, Portland, Ore., saying the article has been sent, so we may be on the lookout for it.

"Say, Bill, if that's goin' to be 'Go en do it' when it's finished, you've got the d before the o in 'do.'"
"How can you be a billposter unless you know how to spell?"
"What does 'Go en do it' mean anyhow; there aint no sense to that."

A Night of Terror.

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid all this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by Poley's Drug Store.

Tomatoes, melons, cucumbers and squashes have in Paris become luxuries beyond the reach of the vast multitude of working people, whose daily earnings do not exceed 80 cents or \$1.

If You Are a Drinking Man

You had better stop at once or you'll lose your job. Every line of business is closing its doors to "drinking" men. It may be your turn next. By the aid of ORRINE thousands of men have been restored to lives of sobriety and industry.

We are so sure that ORRINE will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded.

When you stop "drinking," think of the money you'll save; besides, sober men are worth more to their employers and get higher wages.

Costs only \$1.00 a box. We have an interesting booklet about ORRINE that we are giving away free on request. Call at our store and talk it over.

McNAIR BROS.

WHY DON'T YOU TAKE BETTER CARE OF YOUR HAIR!

Don't let it turn grey. Don't let the Dandruff get a foothold and start the hair falling out.

It's not natural that young women should have thin grey hair that they cannot dress becomingly.

It should always be natural-colored-luxuriant—full of life and radiance—free from ugly grey hairs and annoying Dandruff.

Nature intended that a woman's hair should be one of her chief attractions.

Why not help her to keep it so?

Oh, How I Itched!

What long nerve-racking days of constant torture—what sleepless nights of terrible agony—itch—itch—itch, constant itch, until it seemed that I must tear off my very skin—then— Instant relief—my skin cooled, soothed and healed! The very first drops of D.D.D. Prescription for Eczema stopped that awful itch instantly; yes, the very moment D.D.D. touched the burning skin the torture ceased. D.D.D. has been known for years as the only absolutely reliable eczema

remedy, for it washes away the disease germs and leaves the skin as clear and healthy as that of a child. All other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute. But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.
