

An Object Lesson For Your Boy

Every father wants his boy and girl to learn the lesson of habitual saving.

Do you know, fathers, that one of the best ways to teach your children to save regularly is to have a savings account yourselves?

Let that boy of bring your savings deposit to the bank as "regular as clockwork" and he will get the habit himself—he can't help it.

Incidentally, a little nest egg will be good for father, too.

GET \$12,500 DAMAGES

James T. Flaugherly Receives Verdict in That Amount Against Oregon-California Power Co.

A verdict for \$12,500 was returned by the jury in the damage suit brought by James T. Flaugherly for \$25,000 against the Oregon-California Power Company for the death of his son, who was killed last spring at Jacksonville by an electric current while in the employ of the company. The verdict was returned Saturday. The case will be appealed.

Young Flaugherly was employed by the electric company as a lineman and was at work on the top of a pole near Jacksonville when he came in contact with a live wire which instantly killed him.

R. E. Reames represented the plaintiff and A. C. Hough and W. P. Mealey the defendants.

SINGLER APPOINTS DEPUTIES.

W. R. Coleman and H. O. Burgess Will Hold Jobs in Sheriff's Office.

Sheriff-elect August Singler this week announced the appointment of W. R. Coleman and H. O. Burgess as his chief deputies. It is stated that both have accepted the positions. Mr. Coleman has proven himself a most capable county officer and by his courteous and accommodating manner of handling the business of the county clerk's office made a multitude of friends who will be pleased to hear that he is not to leave the court house. He has a thorough knowledge of county affairs and will be an invaluable aid to the new sheriff.

H. O. Burgess, who will assist in the sheriff's office, has had considerable experience in the work, serving for a number of years as deputy sheriff in Minnesota. He has lived in Medford for four years and is widely known and popular throughout the county.

Mr. Singler will not announce the appointments of deputies in the different districts in the county until the county court express its views in regard to these positions.

ECONOMY WATCHWORD

New County Court Will Not Permit Officials to Purchase Supplies for Office.

That the new county court will itself purchase all county supplies and that officials must pay for any supplies ordered by them and not bought by the court, is the assertion made by County Judge-elect Tou Velle and Commissioner-elect Leever after a conference held in Medford Saturday. Economy is to be the watchword of the new administration.

"We were elected pledged to economy and efficiency," stated Judge Tou Velle, "and we intend to live up to it. All leaks will be stopped. The court has to pay all bills, and as the responsible parties, we intend to exercise the same care and vigilance that we do in our personal affairs."

"The law will be strictly lived up to. County offices will be opened promptly at 8 o'clock a. m. and kept open until 5 o'clock p. m. Only deputies really needed will be approved, and the surplus ones cut out—and efficiency will be the sole requirement."

"The county court will buy the supplies from the lowest bidder—preference being given county firms wherever possible," stated Commissioner Leever. "The new board is in accord in these subjects and will work together."

"One of our first moves will be to re-district the county in road districts, cutting up some of the districts that are unwieldy and too large. The money to be spent by the supervisors will be under our direction and upon our order. The commissioners intend to personally look after this work themselves, even if it takes all of their time."

First Button Ornaments.

London Globe: In early times when man was master, clothes were fastened with strings and brooches. The Norman nobility, who always had an eye to effect, spent considerable sums of money on their brooches, which were chaately wrought, and added greatly to the beauty of a costume.

When the poorer people indulged in brooches they were content if such accessories to the toilet fulfilled the purpose of holding the clothes together. The earliest buttons were merely adopted as ornaments and fulfilled no useful function. In the earliest paintings one finds buttons without any corresponding button-holes.

This latter fashion is still popular as regards ceremonial garb and uniforms. The button as an article of use, and not merely as an ornament, may be said to date from the reign of Edward I. These early buttons were of modest appearance and were manufactured from bone and wood.

It was the usual custom to have two buttons stitched on the coat at the small of the back to enable a man to button back his coatalls, so that he could walk or draw his sword the more easily. These two buttons are still retained on modern coats, though any reason for their existence has long since departed.

As wealth increased gold and silver buttons made their appearance. We find Pepys writing: "This morning came home my fine camlett coat, with gold buttons, and a silk suit, which cost me money, and I pray God to make me able to pay for it."

A little later Pepys refers to his jackanapes coat with silver buttons, and records the fact that he put on for the first time "my black camlett coat with silver buttons," from which it is evident he had a camlett coat with silver buttons and one with gold. Pepys was only a man of moderate means, and at the time when he was making such a display with his gold and silver buttons supposed himself to be worth about \$500 clear in the world.

But the gold and silver buttons were necessary if he were to keep in the fashion. Those who stood outside the fashionable world flattered their love for display by sporting gilt buttons. At a later date cloth buttons became very popular, but when Birmingham began to turn out metal buttons an act was passed in the reign of George I forbidding the manufacture of cloth buttons in order that the new industry of metal buttons might have a chance to flourish. The metal button industry made the most of the opportunity, for all kinds of buttons now compete on an equal footing for popular favor.

This is a Fact.

Forty Years in County.

Mrs. Frank Kasshafer Makes First Trip for Many Years.

Mrs. Frank Kasshafer, wife of the bailiff in the circuit court at Jacksonville, left Sunday for San Francisco, where she will visit her two daughters. This is Mrs. Kasshafer's first trip outside of Jackson county since her arrival here in 1868, just 44 years ago.

Mr. and Mrs. Kasshafer came to southern Oregon following the completion of the Civil War, in which Mr. Kasshafer signally distinguished himself. They had a difficult time reaching Jacksonville at that time, and have resided in this county ever since.

Fit His Case Exactly.

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them." For sale by Poley's Drug Store.
