

An Object Lesson For Your Boy

Every father wants his boy and girl to learn the lesson of habitual saving.

Do you know, fathers, that one of the best ways to teach your children to save regularly is to have a savings account yourselves?

Let that boy of bring your savings deposit to the bank as "regular as clockwork" and he will get the habit himself—he can't help it.

Incidentally, a little nest egg will be good for father, too.

AT THE EXPOSITION.

Reproduction of Indian Village a Feature.

San Francisco, Jan. 18.—A reproduction of the Grand Canyon of Arizona and the Pueblo Indian village will be the Atchison, Topeka & Santa Fe railroad's exhibit at the 1915 universal exposition. This will be a concession and an admission charge will be made to see this wonderful collection of exhibits, and one of the seven wonders of the world.

It is estimated that the concession will occupy ground space covering 300 by 700 feet, and the railroad will expend in the neighborhood of \$250,000 to install it.

Walter Burridge, the famous scenic artist, has been engaged to reproduce the Grand Canyon. It will be shown in staff and canvass, with every device of the scenic painter brought into use.

It is planned to give the spectator the first glimpse of the artificial canyon from an observation platform. The rugged desert and its mighty chasm will open to view with much effect of well-known paintings of the canyon which have been issued by the Santa Fe railroad and are hung in the railroad offices and hotels all over the world.

The wonderful color effects to be seen in the Grand Canyon will be reproduced, and this promises to be one of the great exhibits of the exposition. Indian tribes and Indian villages will include representatives of the Pueblo, San Domingo, Navajo, Zuni and Hopi tribes of Indians. They will present their dances and customs in native costume, and this in itself will be one of the attractions of the exhibit.
